Studying from your notes is an excellent way to prepare for an exam, but your notes can never be comprehensive enough to cover everything that will be on a test. When it comes to business contracts terminology, it is best to use a study guide to make sure you are studying all of the terms, not just the ones you had the time and focus to write down. We all have a natural bias towards information that can exclude certain types from our attention. Using a Business Contracts Terminology Study guide makes sure you can overcome this natural bias and pass the exam.
