Aall, Daniel Miltenberger, Thomas George Weiss, 2000 What Is an NGO      **Guide to Specialists** United States Institute of Peace,      **Privatizing the Democratic Peace** H. Clemens, 2004 Student friendly and professor endorsed *Dynamics of International Relations* is an innovative introductory level core text It compares realist and idealist theories and the paradigm of interdependence against case studies of recurrent problems why wage war how to make peace how to transcend conflict when and where to mediate how to increase GDP but also quality of life and how to organize for peace and promote human rights Against a backdrop of the threat of terrorism Clemens clearly demonstrates both the danger and opportunities inherent in a growing global interdependence      *Different Approaches to Peace and Conflict Research* Robert C. Hudson, Hans-Joachim Heintze, 2008-01-01 The articles collected in this volume reflect a range of analyses of the different approaches to Peace and Conflict research Whilst it is obvious that there can never be any easy answers to any of these challenges it is nevertheless encouraging that so many young academics from several parts of the world should come together in Venice San Nic lo Monastery Lido September 2006 under the aegis of the EDEN Network to discuss their interdisciplinary and multidisciplinary work      **Peacekeeping Under Fire** Robert A. Rubinstein, 2015-11-17 The international community increasingly responds to civil wars humanitarian crises and other intrastate conflicts through the instrument of UN peacekeeping Nearly all of these interventions take place in non Western areas and involve interactions among militaries and nongovernmental organizations from all around the globe In this wide ranging book Rubinstein draws on decades of his own research on peacekeeping and on other current and historical cases to develop a broad understanding of the roles that culture plays in peacekeeping s success or failure Peacekeeping under Fire shows that cultural considerations are key elements at all levels of peacekeeping operations Culture influences what happens between peacekeepers and local populations how military and nongovernmental organizations interact and even how missions are planned and authorized Peacekeeping under Fire analyzes how political symbolism and ritual are critical to peacekeeping and demonstrates how questions of power identity and political perception emerge from the cultural context of peacekeeping      *The ethics of armed humanitarian intervention* C. Williams, 2005 In practically all the peacekeeping operations of the 1990s a postconflict reconstruction gap of almost one year separates the end of military peacekeepers mission of halting mass violence from the start of removing mines as well as rebuilding and repairing the host country s physical infrastructure roads and bridges public utilities and buildings In this timely work Colonel Garland Williams analyzes the postconflict reconstruction gap in three case studies Bosnia Kosovo and Afghanistan and shows how military engineering brigades accompanying peacekeeping contingents can be put to use immediately after the conflict ends to restore vital infrastructure and social institutions In the book s concluding chapter Williams proposes changes in U S national security decision making to integrate military engineering brigades into postconflict reconstruction thus making U S military officials less wary of mission creep and nation building

**Grasping the Nettle** Chester A. Crocker, 2005 Among the unwelcome legacies of the past century are a group of conflicts both intrastate and interstate that seem destined never to end From Kashmir to Nagorno Karabakh Colombia to Sudan the Korean Peninsula to the Middle East these deeply entrenched intermittently violent conflicts have so far resisted all outside efforts to resolve them What lessons aside from the apparent futility of mediation can such dismal situations possibly offer As the distinguished contributors to *Grasping the Nettle* make plain this is not a rhetorical question Unyielding conflicts offer numerous insights not only about the sources of intractability but also about

such facets of mediation and conflict management as how to gain leverage when to engage and disengage how to balance competing goals and who to enlist to play supporting roles The first part of this eye opening volume identifies and analyzes the defining characteristics and underlying dynamics of intractable conflicts The second part turns the spotlight on no fewer than eight current cases in each instance chronicling the conflict s evolution evaluating the internal and external factors that have conspired to prevent a settlement and assessing whether past peacemaking initiatives have in fact only aggravated the conflict The conclusion makes the point that even intractable conflicts eventually end and highlights the strategic approaches and tactical steps that have yielded success in the past for mediators and conflict managers from governments international organizations and NGOs

Civil-Military Entanglements Birgitte Refslund Sørensen,Eyal Ben-Ari,2019-07-16 Military civilian encounters are multiple and diverse in our times Contributors to this volume demonstrate how military and civilian domains are constituted through entanglements undermining the classic civil military binary and manifest themselves in unexpected places and manners Moreover the essays trace out the ripples reverberations and resonations of civil military entanglements in areas not usually associated with such ties but which are nevertheless real and significant for an understanding of the roles war violence and the military play in shaping contemporary societies and the everyday life of its citizens

Bruneau, Scott D. Tollefson, 2009-06-03 The continued spread of democracy into the twenty first century has seen two thirds of the almost two hundred independent countries of the world adopting this model In these newer democracies one of the biggest challenges has been to establish the proper balance between the civilian and military sectors A fundamental question of power must be addressed who guards the guardians and how In this volume of essays contributors associated with the Center for Civil Military Relations in Monterey California offer firsthand observations about civil military relations in a broad range of regions including Latin America Africa Asia and Eastern Europe Despite diversity among the consolidating democracies of the world their civil military problems and solutions are similar soldiers and statesmen must achieve a deeper understanding of one another and be motivated to interact in a mutually beneficial way The unifying theme of this collection is the creation and development of the institutions whereby democratically elected civilians achieve and exercise power over those who hold a monopoly on the use of force within a society while ensuring that the state has sufficient and qualified armed forces to defend itself against internal and external aggressors Although these essays address a wide variety of institutions and situations they each stress a necessity for balance between democratic civilian control and military effectiveness Know Thy Enemy Barry R.
