Guide To Cuban Collections In The United States:

A Guide to Cuban Collections in the United States Louis A. Pérez Jr., Louis A. Pérez, 1991-05-24 Historical research on Cuba since the ascent of Fidel Castro to power has been an uncertain and difficult pursuit. Scholars both in and out of Cuba have faced seemingly insurmountable problems when trying to research archival records and manuscript collections especially in light of poor Cuba U S relations. As this long needed guide to Cuban materials shows, extensive collections of Cuba related materials exist in the United States. Although these collections are not as complete as some original collections in Cuba itself, they do offer excellent starting points for various research projects on Cuba pending future access to original Cuban collections. This is an indispensable guide to Cuban materials for both American and Cuban scholars. The guide is organized alphabetically by state with each significant Cuban collection in that state listed. Pérez includes U S government and presidential collections since most administrations since the Revolutionary War have dealt with Cuba in one way or another. In all cases, effort was made to list only substantial and varied Cuba related holdings. This guide will be of great value to historians, political scientists, archivists, and other researchers interested in the history of Cuba. **A Guide to Cuban**

Collections in the United States Louis A. Pérez (Jr.), 1991 Genealogical Encyclopedia of the Colonial Americas Christina K. Schaefer, 1998 Covers the period of colonial history from the beginning of European colonization in the Western Hemisphere up to the time of the American Revolution **Art and Revolution in Latin America, 1910-1990** David Craven, 2006-01-01 In this uniquely wide ranging book, David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy. The three great upheavals in Mexico 1910-40, in Cuba 1959-89, and in Nicaragua 1979-90 were defining moments in twentieth century life in the Americas. Craven discusses the structural logic of each movement's artistic project by whom, how, and for whom artworks were produced and assesses their legacies. In each case, he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders. The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico, Cuba, and Nicaragua with a tradition of the fine arts made newly accessible through social transformation. Craven considers how each revolution dealt with the pressing problem of creating a dialogical art, one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were. In addition, the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire. The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art, ideology, and class within a revolutionary process. **Reference Sources in History** Ronald H. Fritze, Brian E. Coutts, Louis A. Vyhnanek, 2004-03-09 Fully annotated and completely updated, the most comprehensive guide to reference books in the field of history. Reference

Sources in History catalogs atlases encyclopedias dictionaries handbooks sourcebooks bibliographies and chronologies and makes sense of it all Its broad scope and systematic organization make it an accessible reliable resource for experienced and inexperienced researchers alike Fully annotated and updated the new edition summarizes hundreds of reference works on every conceivable subject in history from ancient to modern from Afghanistan to Zimbabwe This edition also reflects the dramatic impact of the digital revolution on historical research by integrating a wide range of Internet and CD ROM sources Reference Sources in History is a time saving alternative to searching the reference stacks or getting lost in an online thicket of dubious historical websites

Anarchist Cuba Kirwin Shaffer, 2019-05-01 This is the first critical in depth study of the anarchist movement in Cuba in the three decades after the republic's independence from Spain in 1898 Kirwin Shaffer shows that anarchists played a significant until now little known role among Cuban leftists in shaping issues of health education immigration the environment and working class internationalism They also criticized the state of racial politics cultural practices and the conditions of children and women on the island In the chaotic new country members of the anarchist movement reinterpreted the War for Independence and the revolutionary ideas of patriot Jos Mart embarking on a nationwide debate with the larger Cuban establishment about what it meant to be Cuban To counter the dominant culture the anarchists created their own initiatives schools health institutes vegetarian restaurants theater and fiction writing groups and occasional calls for nudism and as a result they challenged both the existing elite and the occupying U S military forces Shaffer also focuses on what anarchists did to prepare the masses for a social revolution While many of the Cuban anarchists ideals flowed from Europe their programs criticisms and literature reflected the specifics of Cuban reality and appealed to Cuba's popular classes Using theories of working class internationalism countercultures popular culture and social movements Shaffer analyzes archival records pamphlets newspapers and novels showing how the anarchist movement in republican Cuba helped shape the country's early leftist revolutionary agenda Shaffer's portrait of the conflict between anarchists and their enemies illuminates the multiple forces that pervaded life on the island in the twentieth century until the rise of the Gerardo Machado dictatorship in the 1920s This important book places anarchism in its rightful historical role as a vital current within Cuban radical political culture

Now available in ePub format.

The Hispanic Experience in North America Lawrence A. Clayton, 1992. Growing out of a conference hosted by the Library of Congress, this collection of bibliographic essays covers the historical legacy of Spain in North America from the first sighting of the continent by Juan Ponce de Leon in 1512 to today when Hispanics comprise the fastest growing minority community in the United States. Written by experts on Hispanic manuscripts and collections, the essays focus on a discussion of archival sources available for the study of Spanish conquest and colonization in what is now the United States: the lands that the Spanish referred to as La Florida and Tierra Incognita del Norte. The first part addresses questions of managing documentation and identifying sources of archival materials throughout the United States and Spain. Other parts on research and projects describe new ways that scholars have used available information to portray the Hispanic experience in North America. Subsequent chapters describe technological advancements that are making archival materials available in a variety of formats. The volume concludes with the recommendation that the United States produce a comprehensive guide to archives and collections for the study of the Hispanic experience in the United States. The controversy over the significance of the Columbian voyages, particularly as we celebrate their quincentenary, makes this volume an essential tool for those interested in the history of North America's conquest. Those studying the Hispanic experience in the New World and those wishing to examine their own heritage.

Latin American Collection Concepts Gayle Ann Williams, Jana Lee Krentz, 2019-03-18. Though still hampered by some challenging obstacles, Latin American collection development is not the static tradition bound field many believe it to be. Latin American studies librarians have confronted these difficulties head on and developed strategies to adapt to the field's continuous digital advancements. Presenting perspectives from several independent Latin American libraries, this collection of new essays covers the history of collecting, current strategies in collection development, collaborative collection development, buying trips, and future trends and new technologies.

United States Official Postal Guide, 1929.

Harvard Guide to American History Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974. Editions for 1954 and 1967 by O. Handlin and others.

Cuba Louis A. Pérez, 2006. Lou Pérez's *Cuba* has been a welcome addition to the Cuban history course since it first appeared. The Second Edition has solidified its place as the leading choice among teachers of modern Cuban history, and based on events over the past nine years, the text has now been updated and revised. Pérez has added new material covering the years from 1995 through 2004 in the chapter on Socialist Cuba, the last chapter. Further, the book ends with a political chronology which has been revised and updated; the extensive bibliography has been condensed where necessary through elimination of outdated or superseded entries and expanded to highlight the scholarship of the past decade, some of it by Pérez himself. He has also

condensed material in the body of the text where possible The new edition features a slightly larger format and for the first time photos in the text and the inclusion of two new maps Sales of the previous editions have been extremely good and there s every reason to think that a new Third edition will have an even more enthusiastic reception

Thank you very much for downloading **Guide To Cuban Collections In The United States**. Maybe you have knowledge that, people have seen numerous times for their favorite books as soon as this Guide To Cuban Collections In The United States, but stop in the works in harmful downloads.

Rather than enjoying a fine ebook taking into consideration a cup of coffee in the afternoon, otherwise they juggled as soon as some harmful virus inside their computer. **Guide To Cuban Collections In The United States** is reachable in our digital library an online entrance to it is set as public for that reason you can download it instantly. Our digital library saves in fused countries, allowing you to get the most less latency times to download any of our books following this one.
