

A blue-tinted photograph of two people, seen from behind, walking away from the camera on a tiled floor. They are in what appears to be a store or a public space with shelves and displays in the background. The person on the left is wearing a dark jacket and dark pants, while the person on the right is wearing a light-colored sweater and dark pants. Both individuals are noticeably overweight.

Fat Of The Land The Obesity Epidemic And How Overweight Americans Can Help Themselves:

The Fat of the Land Michael Fumento,1998 In this thinking person's guide to weight loss Fumento exposes the diet industry for what it is explodes the myths of genetics and low metabolism and dismisses the low fat food fib showing how lite is loaded with unwanted calories and non fat makes us fatter

The Obesity Epidemic Michael Gard,Jan Wright,2005-04-28 Increasing obesity levels are currently big news but do we think carefully enough about what this trend actually means Everybody including doctors parents teachers sports clubs businesses and governments has a role to play in the war on obesity But is talk of an obesity crisis justified Is it the product of measured scientific reasoning or age old habits of mind Why is it happening now And are there potential risks associated with talking about obesity as an epidemic The Obesity Epidemic proposes that obesity science and the popular media present a complex mix of ambiguous knowledge familiar yet unstated moral agendas and ideological assumptions

Overweight America Meryl Loonin,2006-09-22 More than 36.5 percent of adults in the U.S. are considered obese according to the Centers for Disease Control and Prevention In 2008 the annual medical cost for people who are obese was 1 429 dollars higher than those in the normal range of weight This essential edition examines the social problem of obesity in the United States Readers will learn about weight and health in America why Americans are overweight and what role the food industry plays in obesity

The Culture of Obesity in Early and Late Modernity E. Levy-Navarro,2008-02-04 This book offers the first sustained examination of fatness in the early modern period Using readings of such major figures as Shakespeare Jonson Middleton and Skelton this book considers alternative ways that fat was constructed before the introduction of the modern pathologized category of obesity

Men and the War on Obesity Lee F. Monaghan,2008-04-02 Lee F Monaghan offers a timely critical and original take on the obesity debate bringing male bodies into the frame and questioning the claim from public health that millions of people are unhealthy because they are overweight or obese

Alcohol, Tobacco and Obesity Kirsten Bell,Amy Salmon,Darlene McNaughton,2012-03-29 Although drinking smoking and obesity have attracted social and moral condemnation to varying degrees for more than two hundred years over the past few decades they have come under intense attack from the field of public health as an unholy trinity of lifestyle behaviours with

apparently devastating medical social and economic consequences Indeed we appear to be in the midst of an important historical moment in which policies and practices that would have been unthinkable a decade ago e g outdoor smoking bans incarcerating pregnant women for drinking alcohol and prohibiting restaurants from serving food to fat people have become acceptable responses to the risks that alcohol tobacco and obesity are perceived to pose Hailing from Canada Australia the United Kingdom and the USA and drawing on examples from all four countries contributors interrogate the ways in which alcohol tobacco and fat have come to be constructed as problems requiring intervention and expose the social cultural and political roots of the current public health obsession with lifestyle No prior collection has set out to provide an in depth examination of alcohol tobacco and obesity through the comparative approach taken in this volume This book therefore represents an invaluable and timely contribution to critical studies of public health health inequities health policy and the sociology of risk more broadly

Gender and the American Presidency Theodore F. Sheckels, Nichola D. Gutgold, Diana B. Carlin, 2012-01-01 Gender and the American Presidency Nine Presidential Women and the Barriers They Faced by Theodore F Sheckels Nichola D Gutgold and Diana Bartelli Carlin is a book that includes interviews with several of the subjects inviting not only the reader but the women themselves to consider why they have been dismissed as presidential contenders Gender and media scholars as well as the general public will find the barriers of communication style geography stereotyping and more both frustrating and fascinating as the US attempts to catch up with most of the world where women are routinely elected presidents and prime ministers

The Beauty Bias Deborah L. Rhode, 2010-05-06 It hurts to be beautiful has been a cliché for centuries What has been far less appreciated is

how much it hurts not to be beautiful The Beauty Bias explores our cultural preoccupation with attractiveness the costs it imposes and the responses it demands Beauty may be only skin deep but the damages associated with its absence go much deeper Unattractive individuals are less likely to be hired and promoted and are assumed less likely to have desirable traits such as goodness kindness and honesty Three quarters of women consider appearance important to their self image and over a third rank it as the most important factor Although appearance can be a significant source of pleasure its price can also be excessive not only in time and money but also in physical and psychological health Our annual global investment in appearance totals close to 200 billion Many individuals experience stigma discrimination and related difficulties such as eating disorders depression and risky dieting and cosmetic procedures Women bear a vastly disproportionate share of these costs in part because they face standards more exacting than those for men and pay greater penalties for falling short The Beauty Bias explores the social biological market and media forces that have contributed to appearance related problems as well as feminism s difficulties in confronting them The book also reviews why it matters Appearance related bias infringes fundamental rights compromises merit principles reinforces debilitating stereotypes and compounds the disadvantages of race class and gender Yet only one state and a half dozen localities explicitly prohibit such discrimination The Beauty Bias provides the first systematic survey of how appearance laws work in practice and a compelling argument for extending their reach The book offers case histories of invidious discrimination and a plausible legal and political strategy for addressing them Our prejudices run deep but we can do far more to promote realistic and healthy images of attractiveness and to reduce the price of their pursuit

Ethical Consumption Tania Lewis, Emily Potter, 2013-01-11 A not so quiet revolution seems to be occurring in wealthy capitalist societies supermarkets selling guilt free Fairtrade products lifestyle TV gurus exhorting us to eat less buy local and go green neighbourhood action groups bent on swapping not shopping And this is happening not at the margins of society but at its heart in the shopping centres and homes of ordinary people Today we are seeing a mainstreaming of ethical concerns around consumption that reflects an increasing anxiety with and accompanying sense of responsibility for the risks and excesses of contemporary lifestyles in the global north This collection of essays provides a range of critical tools for understanding the turn towards responsible or conscience consumption and in the process interrogates the notion that we can shop our way to a more ethical sustainable future Written by leading international scholars from a variety of disciplinary backgrounds and drawing upon examples from across the globe Ethical Consumption makes a major contribution to the still fledgling field of ethical consumption studies This collection is a must read for anyone interested in the relationship between consumer culture and contemporary social life

Obesity Emily Mahoney, 2017-07-15 Due to economic factors larger portion sizes in restaurants and sedentary lifestyles caused by an increase in our use of technology obesity rates have risen steadily in the last decade This in turn has created a multimillion dollar diet industry that often preys on people s desire to lose weight quickly and easily Through full color photographs and engaging sidebars

readers will learn about the complex causes of obesity as well as ways to live a healthier lifestyle What can be done to reverse this trend Discussion questions such as this one are waiting for readers to debate

Seeking the Straight and Narrow Lynne Gerber, 2012-08-01 Losing weight and changing your sexual orientation are both notoriously difficult to do successfully Yet many faithful evangelical Christians believe that thinness and heterosexuality are godly ideals and that God will provide reliable paths toward them for those who fall short Seeking the Straight and Narrow is a fascinating account of the world of evangelical efforts to alter our strongest bodily desires Drawing on fieldwork at First Place a popular Christian weight loss program and Exodus International a network of ex gay ministries Lynne Gerber explores why some Christians feel that being fat or gay offends God what exactly they do to lose weight or go straight and how they make sense of the program's results or frequently their lack Gerber notes the differences and striking parallels between the two programs and more broadly she traces the ways that other social institutions have attempted to contain the excesses associated with fatness and homosexuality Challenging narratives that place evangelicals in constant opposition to dominant American values Gerber shows that these programs reflect the often overlooked connection between American cultural obsessions and Christian ones

Public Health and the Risk Factor William G. Rothstein, 2003 A risk factor is anything that increases the risk of disease in an individual

What's Wrong with Fat? Abigail Saguy, 2013-01-31 What's Wrong with Fat examines the social implications of understanding fatness as a medical health risk disease and epidemic Examining the ways in which debates over fatness have developed Abigail Saguy argues that the obesity crisis literally makes us fat intensifies negative body image and justifies weight based discrimination

For Your Own Good Jacob Sullum, 1998 In this rousing rebuttal to the almost universal public attack against tobacco and its users Sullum provides a rational and commonsense defense of the rights of smokers arguing that government bureaucrats must respect the rights of adults who make the informed decision to smoke photo insert

The Challenge of Affluence Avner Offer, 2006-03-09 Since the 1940s Americans and Britons have experienced rising material abundance but also a range of social and personal disorders including family breakdown obesity and addiction Drawing on the latest cognitive research Avner Offer presents a detailed and reasoned critique of the modern consumer society
