Gaur,2023-10-06 This book attempts to study Panjab historiography from the viewpoint of cosmography the concept derived from the cosmological paradigm which Professor Harjeet Singh Gill an eminent semiotician developed in his oeuvre Since its introduction in the colonial Panjab the discipline of historiography subdued the indigenous craft of history writing such as katha qissa janamsakhi and jangnama wherein what Professor Gill has conceptualized as the dialectic of representation and transcendence remained ever active This title has been co published with Aakar Books *Befarmaid* Dr. Shadab

Ahmed,2023-05-10 India has always been a region of multiple cultures and ethnicities comprising a multifaceted colorful and genuinely diverse civilization of innumerable peoples beliefs and languages The political domination of Muslim dynasties from Central Asia from the Ghaznavid conquests onwards led to Persian being grafted into the Indian subcontinent as the official language of governance and high culture As classical Persian culture fell into abeyance during the Middle Ages and the Islamic West disintegrated into chaos India fostered a Persian cultural renaissance of unparalleled literary achievement by migrants to India as well as by Indians themselves However from the beginning of the seventeenth century Urdu began to form around the lower echelons of society as a common tongue to enable communication between the myriad ethnicities of the Mughal Empire ultimately restricting Persian to a refined language of culture and courtly life in the Mughal court and becoming a vibrant and dynamic language in its own right thus becoming the first literary language with a substantial original contribution from Indians since ancient Sanskrit Presented in this book are proses minstrelsy and parnassus straight from the kings emperors saints prisoners and outlaws of the Mughal court and jurisdiction as well as the beau monde and aristocracy of the Mughal India **Tellings and Texts** Francesca Orsini,Katherine Butler Schofield,2015-10-05 Examining

materials from early modern and contemporary North India and Pakistan Tellings and Texts brings together seventeen first rate papers on the relations between written and oral texts their performance and the musical traditions these performances have entailed The contributions from some of the best scholars in the field cover a wide range of literary genres and social and cultural contexts across the region The texts and practices are contextualized in relation to the broader social and political background in which they emerged showing how religious affiliations caste dynamics and political concerns played a role in shaping social identities as well as aesthetic sensibilities By doing so this book sheds light into theoretical issues of more general significance such as textual versus oral norms the features of oral performance and improvisation the role of the text in performance the aesthetics and social dimension of performance the significance of space in performance history and important considerations on repertoires of story telling The book also contains links to audio files of some of the works discussed in the text Tellings and Texts is essential reading for anyone with an interest in South Asian culture and more generally in the theory and practice of oral literature performance and story telling *Fawā'id Al-fu'ād* Nizāmuddīn
