years have focused on theoretical issues film history or film analyses leaving production to the side This text however appropriate for film production courses fills that void opening the production process to pertinent argumentative notions and incorporating material from Heidegger Merleau Ponty and Derrida among others Although Geuens covers screenwriting lighting staging and framing among other production issues he avoids the strictly vocational or professional approach to film teaching currently applied to most production courses Geuens reevaluates what cinema could be to revive its full powers and attend to the mystery of the creative process To counter Hollywood's normative machinery he suggests taking back from the professionals important notions they have arrogated for themselves but rarely act upon artistry passion and engagement

Dogme Uncut Jack Stevenson,2003-09-01 In 1995 Danish filmmaker Lars von Trier Breaking the Waves Dancer in the Dark Dogville and three fellow Danish directors swore allegiance to a vow of chastity aimed at jolting filmmakers around the

world who had become stuck in the mire of slick emotionally manipulative high concept and bombastic movie productions. They named their philosophy Dogme95 and its tenets demanded a return to the basic core of filmmaking: the use of natural lighting and a hand held camera and the refusal to use special effects; a soundtrack of any kind; only natural sounds found on location were acceptable; and movie sets—all shooting was to take place on location. Like the French New Wave and 1960s American Underground film movements, Dogme had a profound affect on filmmaking around the world, including the sacred cow known as Hollywood. In part because of the proliferation of relatively inexpensive digital cameras and technology, the movement resonated with young and independent filmmakers, creating a surge in back-to-the-basics guerilla filmmaking. It also had a profound influence on everything from Hollywood filmmakers to dance choreographers to computer game manufacturers. The list of films and filmmakers to come out of the Dogme movement reads like a who's who of art house cinema from the late 1990s and early 2000s: the aforementioned Lars von Trier, Thomas Vinterberg, *The Celebration*, Harmony Korine, *Julien Donkey Boy*, Lone Scherfig, *Italian for Beginners*, and Susanne Bier, *Open Hearts*, among many others. Dogme Uncut is written by film journalist and historian Jack Stevenson, who while living in Denmark for the past decade has had a true insider's view of the Dogme movement from its conception to its early triumphs to its current incarnation. With a good deal of humor and fascinating insights, Stevenson brings a mixture of history, analysis, and reportage to bear on the eight-year-old film movement, examining the subject from multiple perspectives. Dogme's debt to previous film waves is explored, as is the impact Dogme itself has had on current trends in cinema and on today's young filmmakers. Penned in a lively, accessible, and jargon-free style, Dogme Uncut is a richly illustrated survey of the entire Dogme canon that is both entertaining and hugely informative.
