Fishing In North America 1876-1910:

Fishing in North America, 1876-1910, 1986 **American Literature in Transition, 1876-1910: Volume 4** Lindsay V. Reckson, 2022-08-18 Addressing US literature from 1876 to 1910 this volume aims to account for the period's immense transformations while troubling the ideology of progress that underwrote much of its self-understanding This volume queries the various forms and formations of post Reconstruction American literature It contends that the literature of this period most often referred to as turn of the century might be more productively oriented by the end of Reconstruction and the haunting aftermath of its emancipatory potential than by the logic of temporal and social advance that underwrote the end of the century and the beginning of the Progressive Era Acknowledging that nearly all US literature after 1876 might be described as post Reconstruction the volume invites readers to reframe this period by asking under what terms did post Reconstruction American literature challenge or re-consolidate the nation as an affective political and discursive phenomenon And what kind of alternative pasts and futures did it write into existence
