African States Since Independence Darin

Christensen,David D. Laitin,2019-05-28 Authors Christensen and Laitin argue that an interplay of geographic historical and demographic factors undergird sub Saharan states post independence struggles to eradicate poverty establish democratic accountability and quell civil unrest They set out the founding fathers challenges in transforming their postcolonial states many of which are ethnically diverse geographically diffuse sparsely populated and lacking in administrative capacity With the legacies of the slave trade partition Christian missionaries and extractive colonial institutions complicating their efforts many African states faced stagnation authoritarianism and civil strife Recent years have seen promising attempts to restore democracy to states under authoritarian rule and to liberalize their economies suggesting that the region is moving toward a new era Relying on the best statistical data and richly illustrated with case material this book is an indispensable source for scholars and policy analysts seeking to understand Africa s post independence political trajectories

The Foreign Policies of East African States Jude Kagoro,Julian Friesinger,Klaus Schlichte,2024-11-26 This book analyses the foreign policies of African countries specifically in the region of East Africa It reveals the regional dynamics and the way in which the international system interacts with these policies and how they are driven by domestic politics versus national visions and vice versa As such it provides fine grained and historically informed analyses of the international relations of these states arguing that foreign policy is always informed by domestic processes and the relations between states and changes within the international system impact on the formulation of domestic politics via foreign policy Finally the book argues that East Africa s foreign policy is not one of militarised action alone but rather a m lrange of self survival strategies stemming from the desire to close the gap with more industrialised states necessitating a variety of trade and diplomatic efforts This book is of key interest to scholars and students of African politics Foreign Policy Foreign Policy Analysis International Organisations and more broadly to comparative politics and international relations

International Criminal Court - An International Criminal World Court? Sarah Babaian, 2018-05-31 This book provides an analysis of whether the International Criminal Court can be regarded as an International Criminal World Court capable of exercising its jurisdiction upon every individual despite the fact that not every State is a Party to the Rome Statute. The analysis is based on a twin pillar system which consists of a judicial and an enforcement pillar. The judicial pillar is based on the most disputed articles of the Rome Statute; its goal is to determine the potential scope of the Court's strength through the application of its jurisdiction regime. The enforcement pillar provides an analysis of the cooperation and judicial assistance mechanism pursuant to the Rome Statute's provisions and its practical implementation through States' practices. The results of the analysis and the lack of an effective enforcement mechanism demonstrate that the ICC cannot in fact be considered a criminal world court. In conclusion, possible solutions are presented in order to improve the enforcement pillar of the Court so that the tremendous strength of the ICC's judicial pillar and with it the exercise of worldwide jurisdiction can be effectively implemented.

Counterterrorism Law and Practice in the East African Community Christopher E. Bailey, 2019-02-11 This book examines the existing counter terrorism laws and practices in the six member East African Community (EAC) as it applies to a range of law enforcement and military activities under various international legal obligations. Dr Christopher E. Bailey provides a comparative examination of existing national law for EAC countries including compliance with obligations under international human rights and international humanitarian law and offers a range of legal reform recommendations. This book addresses two primary related research questions: To what extent do the current national counter terrorism laws and practices of the EAC Partner States comply with existing international human rights safeguards? What laws or practices can the EAC adopt to achieve better compliance with human rights safeguards in both civilian and military counter terrorism operations?

The Oxford Handbook of International Law in Asia and the Pacific Simon Chesterman, Hisashi Owada, Ben Saul, 2019-09-12 The growing economic and political significance of Asia has exposed a tension in the modern international order. Despite expanding power and influence, Asian states have played a minimal role in creating the norms and institutions of international law; today they are the least likely to be parties to international agreements or to be represented in international organizations. That is changing. There is widespread scholarly and practitioner interest in international law at present in the Asia Pacific region as well as developments in the practice of states. The change has been driven by threats as well as opportunities. Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia. These evolutions join the long standing interest in parts of Asia, notably South Asia, in post colonial theory and the history of international law. The Oxford Handbook of International Law in Asia and the Pacific brings together pre eminent and emerging specialists to analyse the approach to and influence of key states of the region as well as whether

truly Asian trends can be identified and what this might mean for international order *Corruption, Good Governance, and the African State* Ganahl, Joseph Patrick, 2014-02-18 African states are often called corrupt indicating that the political system in Africa differs from the one prevalent in economically advanced democracies This however does not give us any insight into what makes corruption the dominant norm of African statehood Thus we must turn to the overly neglected theoretical work on the political economy of Africa in order to determine how the poverty of governance in Africa is firmly anchored both in Africa's domestic socioeconomic reality as well as in the region's role in the international economic order Instead of focusing on increased monitoring enforcement and formal democratic procedures this book combines economic analysis with political theory in order to arrive at a better understanding of the political economic roots of corruption in Sub Saharan Africa **The African Charter on Human and Peoples' Rights Volume 1** Nat Rubner, 2023 Landmark study of the African Charter on Human and Peoples Rights that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document *Africa-China-Taiwan Relations, 1949-2020* Sabella Ogbobode Abidde, 2022-07-26 The ongoing tension and hostility between China and Taiwan in Africa are a continuation of the Chinese Civil War 1927-1949 between the forces of the Chinese Communist Party CCP which remained in mainland China and the Kuomintang KMT of the Republic of China ROC which fled to the island of Taiwan In the intervening years China has claimed Taiwan as part of its territory and through persistent and aggressive political and economic efforts convinced much of the world to accept her as the sole and legitimate seat of the Chinese people and government Africa China Taiwan Relations 1949-2020 provides a coherent account of why and how China was able to convince African governments to acquiesce to her claims which have resulted in the expulsion of and the diplomatic isolation of Taiwan on the African continent This volume edited by Sabella Ogbobode Abidde also explains Taiwan's unsuccessful efforts at blunting China's maneuvers It further discusses the endogenous and exogenous factors that swayed African governments to switch their diplomatic allegiance away from Taiwan a country that was for many years an ally and dependable partner in their quest for growth and development Finally the book contains critical assessments of the role and place of China and Taiwan and their current relationship with states and societies on the African continent *Encyclopedia of African History 3-Volume Set* Kevin Shillington, 2013-07-04 Covering the entire continent from Morocco Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar Mauritius and Seychelles in the east the Encyclopedia of African History is a new A-Z reference resource on the history of the entire African continent With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty-first century this comprehensive three-volume Encyclopedia is the first reference of this scale and scope Also includes 99 maps **India's Foreign Policy** Ghosh, Anjali, Chakraborti, Tridib, Majumdar, Anindyo J., Chatterjee, Shibashis (eds), 2009 India's Foreign Policy features scholars specializing in different dimensions of foreign policy analysis who examine the dynamics of India's
