Five Faces Of Genius Creative Thinking Styles To Succeed At Work:

The Five Faces of Genius Annette Moser-Wellman, 2002-02-26 What do Wolfgang Amadeus Mozart Leonardo da Vinci and Ray Kroc the man who created the McDonald s franchise enterprise have in common They have all mastered the skills of creative genius essential tools in today s business climate Having researched the lives and techniques of past and present geniuses for this inspiring and provocative new handbook Annette Moser Wellman helps workers at all levels build and refine their working styles These qualities of creativity drawn from the the realms of art science as well as business make up the five distinct faces Seer the power to image Observer the power to notice details Alchemist the power to make connections Fool the power to celebrate weakness Sage the power to simplify Moser Wellman shows how we can utilize these creative thinking strategies and flourish in the workplace

The Five Faces of Genius Annette Moser-Wellman, 2001 Five common creative styles or Faces of Genius are identified in this primer of creative thinking techniques for success in today s new economy The author provides exercises and teaches business professionals how to develop the creative skills necessary for success

Science Secrets Alberto A. Martinez, 2011-05-29 Was Darwin really inspired by Galapagos finches Did Einstein s wife secretly contribute to his theories Did Franklin fly a kite in a thunderstorm Did a falling apple lead Newton to universal gravity Did Galileo drop objects from the Leaning Tower of Pisa Did Einstein really believe in God Science Secrets answers these questions and many others It is a unique study of how myths evolve in the history of science Some tales are partly true others are mostly false yet all illuminate the tension between the need to fairly describe the past and the natural desire to fill in the blanks Energetically narrated Science Secrets pits famous myths against extensive research from primary sources in order to accurately portray important episodes in the sciences Alberto A Martinez analyzes how such myths grow and rescues neglected facts that are more captivating than famous fictions Moreover he shows why opinions that were once secret and seemingly impossible are now scientifically compelling The book includes new findings related to the Copernican revolution alchemy Pythagoras young Einstein and other events and figures in the history of science
