## **Five World Faiths:**

*The World's Religions in Figures* Todd M. Johnson, Brian J. Grim, 2013-03-25 Created by two of the field's leading experts this unique introduction to international religious demography outlines the challenges in interpreting data on religious adherence and presents a contemporary portrait of global religious belief Offers the first comprehensive overview of the field of international religious demography detailing what we know about religious adherents around the world and how we know it Examines religious freedom and diversity including agnostics and atheists on a global scale highlighting trends over the past 100 years and projecting estimates for the year 2050 Outlines the issues and challenges related to definitions taxonomies sources analyses and other techniques in interpreting data on religious adherence Considers data from religious communities censuses surveys and scholarly research along with several in depth case studies on the global Muslim population religion in China and the religious demography of recently created Sudan and South Sudan Argues against the belief that the twentieth century was a secular period by putting forward new evidence to the contrary Provides resources for measuring both qualitatively and quantitatively important data on the world's religious situation in the twenty first century

**A Spectator's Guide to World Religions** John Dickson, 2008 The world is a very religious place Wherever you look people are worshipping praying believing following even dying for their faith But are all faiths the same Do they all call on the same God using different names Are their beliefs and practices simply cultural expressions of the same spiritual longings In this timely book John Dickson presents each of the world's major religions in its best light He carefully outlines the history belief systems and spiritual practices of Hinduism Buddhism Judaism Christianity and Islam so that the interested spectator can explore their similarities and differences For sceptics believers and students of religion the book provides a fair and friendly introduction to this ultimate subject

**Museums of World Religions** Charles Orzech, 2020-05-14 Critically examining the notion of world religions Charles D Orzech compares five purpose built museums of world religions and their online extensions Inspired by the 19th and 20th century discipline of comparative religion these museums seek to promote religious tolerance by representing religious diversity and by arguing for underlying kinship among religions From locations in Europe Marburg Glasgow and St Petersburg to North America Quebec to Asia Taipei each museum advances a particular cultural history This book shows how the curation of the objects they contain shapes public perceptions of religion giving material form to the discourses about religion and world religions Raising important questions about religion and secularity museum displays and religious piety Museums of World Religions questions the ideology that informs these museums Building on recent anthropological work on the agency of religious objects the author critiques these museums and suggests new approaches to displaying the matter of religion

**World Religions** Casey Howard, 2018-12-10 Religion is any cultural system of designated behaviors and practices world views texts sanctified places ethics or organizations that relate humanity to the supernatural or transcendental Religions relate humanity to what anthropologist Clifford Geertz has referred to as a

cosmic order of existence. However, there is no scholarly consensus over what precisely constitutes a religion. *World Religions* examines the often conflicting theories and interpretations of spiritual and historical matters and provides a basic understanding of the world's religious diversity. This book is a commendable endeavour to present the essence of all the major religions of the world under one cover in a simple and lucid form. An ideal work for a general reader who wants to have firsthand knowledge about world religions. The book *Introduction to World Religions* promotes a better understanding of the religions of the world, their similarities and history of amicable co-existence. It emphasizes better understanding and amicable co-existence of all religions.

**An Archaeology of Religion** Kit W. Wesler, 2012-04-20 Archaeologists have been increasingly turning their attention to the study of religion, but the field so far has lacked a cross-cultural overview. This text challenges archaeological conventions by refusing to respect the geographic and temporal boundaries with which archaeologists too often define their field. Worldwide in range and comparative in perspective, this exploration is guided by several fundamental questions: how do we recognize religion in the archaeological record? When should we recognize the first activities we call religious? What distinguishes a world religion? How can we see the formations of modern world religions in the archaeological record? *An Archaeology of Religion* begins with the first glimmers of what might be considered religious expression in the Paleolithic period and concludes with the complexities of world religions today. This book is an ambitious attempt to survey how scholars approach the identification of religious sites and practices in the archaeological record.

**Philosophy of Religion** Charles Taliaferro, 2012-12-01 A modern take on this age-old branch of philosophy. A much-needed introductory level book on this widely studied subject. Isaac Asimov said that whatever the tortures of hell, I think the boredom of heaven would be even worse. Such quandaries are the bread and butter of philosophy of religion. Questioning why evil exists, whether God could create a stone he couldn't lift, and if the wonder of life suggests a Creator, this fascinating branch of philosophy is concerned with arguments for and against religion and what form an immortal god or gods would take if in existence. Assuming no prior knowledge of philosophy from the reader, Taliaferro provides a clear exploration of the discipline, introducing a wide range of philosophers and covering the topics of morality and religion, evil, the afterlife, prayer, and miracles. Also containing sections dedicated to Hinduism, Buddhism, and the Eastern religions, this helpful primer is perfect for students or the general reader.

**The Invention of World Religions** Tomoko Masuzawa, 2005-05-15 The idea of world religions expresses a vague commitment to multiculturalism. Not merely a descriptive concept, world religions is actually a particular ethos, a pluralist ideology, a logic of classification, and a form of knowledge that has shaped the study of religion and infiltrated ordinary language. In this ambitious study, Tomoko Masuzawa examines the emergence of world religions in modern European thought. Devoting particular attention to the relation between the comparative study of language and the nascent science of religion, she demonstrates how new classifications of language and race caused Buddhism and Islam to gain special significance as these religions came to be seen in opposing terms: Aryan on one hand and Semitic on the other.

Masuzawa also explores the complex relation of world religions to Protestant theology from the hierarchical ordering of religions typical of the Christian supremacists of the nineteenth century to the aspirations of early twentieth century theologian Ernst Troeltsch who embraced the pluralist logic of world religions and by so doing sought to reclaim the universalist destiny of European modernity

**Sacred Objects in Secular Spaces** Bruce M. Sullivan, 2015-10-22 We have long recognized that many objects in museums were originally on display in temples shrines or monasteries and were religiously significant to the communities that created and used them How though are such objects to be understood described exhibited and handled now that they are in museums Are they still sacred objects or formerly sacred objects that are now art objects or are they simultaneously objects of religious and artistic significance depending on who is viewing the object These objects not only raise questions about their own identities but also about the ways we understand the religious traditions in which these objects were created and which they represent in museums today Bringing together religious studies scholars and museum curators *Sacred Objects in Secular Spaces* is the first volume to focus on Asian religions in relation to these questions The contributors analyze an array of issues related to the exhibition in museums of objects of religious significance from Hindu Buddhist and Sikh traditions The lives of objects are considered along with the categories of sacred and profane religious and secular As interest in material manifestations of religious ideas and practices continues to grow *Sacred Objects in Secular Spaces* is a much needed contribution to religious and Asian studies anthropology of religion and museums studies

*Faith-Based Organizations at the United Nations* Jeff Haynes, 2016-04-30 The book examines selected faith based organisations FBOs and their attempts to seek to influence debate and decision making at the United Nations UN Increasing attention on FBOs in this context has followed what is widely understood as a widespread post Cold War religious resurgence The bibliography is available digitally at the end of sample chapter which can be downloaded on this page

followers of the world's major belief systems. You will gain a balanced, nuanced comprehension of what followers of other religions believe and see how those beliefs compare with those of Christianity. Develop deeper respect for different cultures and appreciate their unique traditions and ideas. Learn how to share about Christ with true compassion and a recognition of other people's individuality and heritage. Featuring the writings of Dr. Douglas Groothuis, Dr. Paul Copan, Dr. Winfried Corduan and more, *The Popular Handbook of World Religions* is designed to help you gain the wisdom you need to interact with people of other faiths from atheism to Judaism, Buddhism to Islam, Jainism to Sikhism and more.

**Introduction to Philosophy of Religion** James Kellenberger, 2017-09-29 Using various and competing religious sensibilities, *Introduction to the Philosophy of Religion* helps students work through the traditional material and their own religious questions. *The Everything World's Religions Book* Kenneth Shouler, 2010-02-18 From the Native American tribal faiths and the Judeo-Christian traditions to Scientology and other nascent religions, man's search for God takes many fascinating forms. In this easy-to-use and comprehensive guide, you'll explore the intriguing dogma and rituals, cultural convictions and often checkered backgrounds and histories of the world's religions. This mystical tour of major and minor religions, both ancient and contemporary, includes how religions deal with the issue of evil, which religions believe in an afterlife and what you have to do to get there, the history and moral foundations of major religions, belief in non-belief and the fundamentals of atheism, special holidays and festivals central to each religion. From Hinduism to Hare Krishna and from evangelicalism to Wicca, this book includes more than fifty religious perspectives and denominations. It's the ultimate guide to exploring the beliefs and traditions of religions around the world.

**The Nine Pillars of History** Gunnar Sevelius, 2016-05-21 Human society as we know it goes back some 200,000 years to a time when we learned to speak and communicate our thoughts. The Nine Pillars of History are defined from nine basic requirements for a healthy and prosperous society during the following 190,000 years of Hunting and Gathering. Sexuality, a fundamental human need that goes even further back in history than society had to be mitigated with a social rule, The Golden Rule. The Nine Pillars of History are used as non-political common denominators to judge the political evolution of some thirty major countries or cultures. In addition, the Pillars are partnered with the Golden Rule to explore five world religions: Hinduism, Buddhism, Judaism, Christianity, and Islam. The relevance of The Nine Pillars of History is proven by the fact that they exist intergraded across multiple societies since the dawn of time and are still relevant for our modern world. This historical review reveals that dogmatic religions and harsh politics have caused 10,000 years of war by challenging the relevance of The Nine Pillars of History. Dr. Sevelius gives his views as nonpolitical, nonreligious thoughts. Each paragraph has been numbered to offer an easy-to-use reference system for community discussion of specific statements. The Nine Pillars of History gives you, Dear Friend and Reader, a vision for peace. As Dr. Sevelius respectfully borrows President Lincoln's enduring truth that governments of the people, by the people, and for the people shall not perish from the earth.

**Social welfare and religion in the Middle East** Rana Jawad, 2009-07-29 As religion continues to regain

its centrality in both academic and policy circles around the world this book presents a new framework which examines the complex social and political dynamics shaping social welfare in the Middle East Based on an in depth study of the major Muslim and Christian religious welfare organisations in Lebanon including Hezbollah and drawing upon supplementary research conducted in Iran Egypt and Turkey the book argues that religion is providing sophisticated solutions to the major social and economic problems of the Middle East It will be of use to students and academics of social policy sociology politics and Middle Eastern studies

*Secular Schooling in the Long Twentieth Century?* Merethe Roos,Johannes Westberg,Henrik Edgren,2024-09-23 The twentieth century process of secularization does not mean that institutional church and Christian ideas were irrelevant for twentieth century societal projects such as the introduction of democracy the improvement of school and education the framing of national identities or in the establishment of welfare states On the contrary this publication is built on the presupposition that secularization runs parallel with the sacralization of the state It can be argued that Christianity has been decisive for how the modern European society evolved in the twentieth century e g concerning how Christian history and Christian values were a part of the new national and social imaginary where re enchantment and re sacralization of the state were central elements In this publication the aim is to highlight the role of Christianity in the twentieth and twentyfirst century welfare state modernization process with the focus on schooling and education A central perspective is the impact of cultural Protestantism during the twentieth century The publication is comparative and will investigate education in Norway Sweden and the Netherlands via chapters on curriculums textbooks politicians and political debates

**The Critical Analysis of Religious Diversity** Lene Kühle,Jørn Borup,William Hoverd,2018-06-19 Drawing on international and thematic case studies The Critical Analysis of Religious Diversity asks its readers to pay attention to the assumptions and processes by which scholars religious practitioners and states construct religious diversity The study has three foci theoretical and methodological issues religious diversity in non Western contexts and religious diversity in social contexts Together these trans contextual studies are utilised to develop a critical analysis exploring how agency power and language construct understandings of religious diversity As a result the book argues that reflexive scholarship needs to consider that the dynamics of diversification and homogenisation are fundamental to understanding social and religious life that religious diversity is a Western concept and that definitions of religious diversity are often entangled by and within dynamic empirical realities Contributors are Martin Baumann Peter Beyer J rn Borup Paul Bramadat Marian Burchardt Henrik Reintoft Christensen Andrew Dawson Mar Griera Anna Halafoff William Hoverd Lene K hle Mar Marcos Stefania Travagnin and Andreas Tunger Zanetti
