Plato: Five Dialogues: Euthyphro, Apology, Crito, Meno, Phaedo Plato,Benjamin Jowett,2017-10-12 Plato Five Dialogues Euthyphro Apology Crito Meno Phaedo Plato was a philosopher in Classical Greece and the founder of the Academy in Athens the first institution of higher learning in the Western world He is widely considered the most pivotal figure in the development of philosophy especially the Western tradition Unlike nearly all of his philosophical contemporaries Plato s entire work is believed to have survived intact for over 2 400 years Others believe that the oldest extant manuscript dates to around AD 895 1100 years after Plato s death This makes it difficult to know exactly what Plato wrote Along with his teacher Socrates and his most famous student Aristotle Plato laid the very foundations of Western philosophy and science Alfred North Whitehead once noted the safest general characterization of the European philosophical tradition is that it consists of a series of footnotes to Plato In addition to being a foundational figure for Western science philosophy and mathematics Plato has also often been cited as one of the founders of Western religion and spirituality Plato s influence on Christianity is often thought to be mediated by his major influence on Saint Augustine of Hippo one of the most important philosophers and theologians in the foundation of the Western thought In the 19th century the philosopher Nietzsche called Christianity Platonism for the people Numenius of Apamea viewed this differently he called Plato the Hellenic Moses This would justify the superiority of Christianity over Hellenism because Moses predates Plato thus the original source of this wisdom is the root of Christianity and not Hellenistic culture 12 Plato was the innovator of the written dialogue and dialectic forms in philosophy Plato appears to have been the founder of Western political philosophy with his Republic and Laws among other dialogues providing some of the earliest extant treatments of political questions

from a philosophical perspective Plato's own most decisive philosophical influences are usually thought to have been Socrates Parmenides Heraclitus and Pythagoras although few of his predecessors' works remain extant and much of what we know about these figures today derives from Plato himself

Five Dialogues Plato, 2015-06-17 The ancient Greek philosopher Plato was born around 425 BC to an aristocratic family. He was the most famous student of Socrates and would eventually go on to form his own school, the Academy. Plato's dialogues are among the most popular of all writings from classical antiquity. Plato wrote his dialogues to record the wisdom that Socrates had imparted to his students. Plato's works *Euthyphro*, *Apology*, *Crito*, *Meno*, and *Phaedo* are featured in this collection. These dialogues feature Socrates speaking with a student or friend about the philosophical concerns of laws, the virtue of mankind, the purpose of the gods, and death. Each dialogue searches through different facets of philosophy and makes the reader question their own personal beliefs and morals. While there is no underlying storyline, the dialogues follow important moments in Socrates' life, from his trial to his death. Socrates was charged by the government for not believing in the Greek gods and was eventually put to death by having to drink poison. Plato's works strove to record and safeguard his teacher's wisdom for future generations to discover. This edition is printed on premium acid-free paper and follows the highly regarded translations of Benjamin Jowett.

Five Dialogues Plato, 2013-01-30 Plato was a mathematician and philosopher in Ancient Athens. Traveling much in his life around the classical world, at the age of forty he returned to Athens and founded the earliest known school of higher learning in the Western world, laying the foundations for philosophy and science. With thirty-six dialogues and thirteen letters that is accredited to Plato, he has had a far-reaching influence on western culture as his works are used to teach far beyond just philosophy into logic, mathematics, ethics, rhetoric, and science.

The Temporality of Human Excellence Richard Gotshalk, 2001-11-09 Why does Plato write dialogues? Why more than one? *The Temporality of Human Excellence* begins with a brief introductory consideration of these questions and concludes with a suggestion about two things: the intent of his use of this form and the manner of its concrete realization in a set of two dozen or so dialogues. Taking up each dialogue as a separate drama, the reading seeks to focus attention on how each, by its characters, their interplay and conversation, and the apparent lack of positive issue to the discussion they engage in, contributes to a sketch of human excellence as a complex power developed and grown into as consummation in the maturing over time of a human being.

In Dialogue with the Mahābhārata Brian Black, 2020-09-15 The *Mahābhārata* has been explored extensively as a work of mythology, epic poetry, and religious literature, but the text's philosophical dimensions have largely been underappreciated by Western scholars. This book explores the philosophical implications of the *Mahābhārata* by paying attention to the centrality of dialogue both as the text's prevailing literary expression and its organising structure. Focusing on five sets of dialogues about controversial moral problems in the central story, this book shows that philosophical deliberation is an integral part of the narrative. Black argues that by paying attention to how characters make arguments and how dialogues unfold, we can better appreciate the *Mahābhārata*.
