F. Wolpert, 1981 The fifth volume in this study of the music of the Tang Court **The Long Road to Nowhere** Mark Jones, 2009-05 One day while sitting on a park bench Mark was asked by an old man Why do you do what you do Why do you work where you work or live where you live Whether we agree or not life really is about a series of paths and decisions whereby even one small change can alter our lives forever We usually want to blame others including God for our decisions Only by examining the paths we have taken can we really see where we are at It is only when we look deep within ourselves we discover that as writers singers musicians interior decorators or even truck drivers we all have gifts Having them is not to question rather it is WHAT WE DO WITH THEM that really matters Wherever your passions lie you can erase your doubts and restore your joy Just imagine yourself on a park bench **Baudelaire in Song** Helen

Abbott,2017-11-03 Why do we find it hard to explain what happens when words are set to music This study looks at the kind of language we use to describe word music relations both in the academic literature and in manuals for singers or programme notes prepared by professional musicians Helen Abbott s critique of word music relations interrogates overlaps emerging from a range of academic disciplines including translation theory adaptation theory word music theory as well as critical musicology music theory and cognitive neuroscience It also draws on other resources whether neuroscience or financial modelling to inform a new approach to analysing song in a model proposed here as the assemblage model The assemblage model has two key stages of analysis The first stage examines the bonds formed between the multiple layers that make up a song setting including metre prosody form structure sound repetition semantics and live performance options The second stage considers the overall outcome of each song in terms of the intensity or stability of the words and music present in a song accretion dilution Taking the work of the major nineteenth century French poet Charles Baudelaire 1821-67 as its main impetus the volume examines how Baudelaire s poetry has inspired composers of all genres across the globe from the 1860s to the present day The case studies focus on Baudelaire song sets by European composers between 1880 and 1930 specifically Maurice Rollinat Gustave Charpentier Alexander Gretchaninov Louis Vierne and Alban Berg Using this corpus it tests out the assemblage model to uncover what happens to Baudelaire s poetry when it is set to music It factors in the realities of song as a live performance genre and reveals which parameters of song emerge as standard for French text setting and where composers diverge in their approach

**The Beatles and the Beatlesque: A Crossdisciplinary Analysis of Sound Production and Stylistic Impact** Dario Martinelli, Paolo Bucciarelli, 2023-07-30 The Beatles and the Beatlesque address a paradox emanating from The Beatles music through a cross disciplinary hybrid of reflections drawing from both musical practice itself and academic research Indeed despite their extreme stylistic variety The Beatles songs seem to always bear a distinctive identity that emerges even more in similar works by other artists whether they are merely inspired derivative or explicitly paying homage The authors a musicologist and music producer emphasize the importance of record production in The Beatles music in a way that does justice not only to the final artifacts the released songs but also to the creative process itself i.e. the songs in the making Through an investigation into the work of George Martin and his team as well as The Beatles themselves this text sheds light on the role of the studio in shaping the group s eclectic but unique sound The chapters address what makes a song Beatlesque to what extent production choices are responsible for developing a style production being understood not as a mere set of technicalities but also in a more conceptual way as well as the aesthetics semiotics and philosophy that animated studio activity The outcome is a book that will appeal to both students and researchers as well as of course musicophiles of all kinds
