

# Five Steps to Academic Success

Whether you are an A student or are looking to improve your grades, these five steps will put you on the path to academic success—and a bright future!

## 1. Get organized

**Use a student planner.** Take your planner to every class and record daily assignments, quizzes, tests, important dates, activities, and appointments.

**Make daily to-do lists.** Put the most important tasks at the top. Cross things off as they get done, and put unfinished tasks on the next day's to-do list.

**Manage your time.** If you never seem to have enough time, identify activities you can eliminate, shorten, or postpone. *Never sacrifice sleep to get everything done.*

## 2. Succeed in class

**Have all homework done.** In many classes, homework is a significant portion of your final grade. Don't think of homework as something you should do—think of it as something you must do.

**Participate in class.** Participating makes class more interesting and helps keep your mind focused. Ask and answer questions and participate in class discussions.

**Ask for help.** If you're having difficulty with a class, your teacher will be happy to help, but you need to ask. If there's something else that's making it difficult for you to succeed (a bully, problems at home, a health issue), see your counselor.
