Flash XML Applications Joachim Schnier,2007-10-01 Add seamless interactive user controlled delivery to your Flash applications This book builds upon your understanding of basic ActionScript AS syntax with the foundational skills that you need to use XML in Flash applications and AS2 or AS3 to migrate your existing applications Beginning with an introduction to XML XML parsing methods and a short introduction to AS2 you learn how to create a universal XML load onload Class as well as a universal XHTML parser Then you learn how to use Components using XML as the data source including the menu menubar datagrid and tree component Finally a tutorial project the design and development of a Real Estate Web site that contains an XML search engine pulls it all together with hands on experience All the applications use XML as the data source and are written as class files Select parts of the Real Estate Web site are redeveloped in AS3 for purposes of illustration The new XML class is presented and specific code examples demonstrate techniques to apply methods and use properties Particular attention is paid to the differences between AS2 and AS3 and how to effectively transition from one AS version to the other The downloadable resources contain code for all of the properties and methods of the AS2 AS3 and XML class examples Components for the Real Estate Web site project are also provided

Foundation ActionScript for Macromedia Flash MX Ben Renow-Clarke,Sham Bhangal,2013-11-11 With the release of Flash MX scripting in Flash moved from being a desirable asset to an essential skill in the world of web design ActionScript is quite simply the center of power in Flash and it s no surprise that most of the advances in Flash MX are script centric Flash is a design tool and ActionScript can easily scare designers This book is for anyone who has ever looked in awe at a cutting edge Flash site then taken a look at some code and run in the other direction Learning ActionScript with friends of ED will not turn you into a boring programmer it will turn you into someone who finally has the power to achieve what they want with their web design This book will take you from knowing nothing about ActionScript to a firm knowledge that will allow you to exercise a previously unimaginable amount of power over your flash movies It does this with fully 0worked examples throughout and a case study that will leave you with a cutting edge Flash site by the end of the book The book assumes no previous knowledge of code or ActionScript but does assume that you know the basics of the Flash interface and have maybe created some basic timeline based movies with tweens and so on If you re totally new to Flash then you might want to take a look at friends of ED s acclaimed Foundation Flash MX or at the more visually oriented Flash MX Express This is no simple re write of the first edition of iFoundation ActionScript

ActionScripting in Flash MX Phillip Kerman,2003 This text shows the reader how to tap into the power of Flash MX by learning how and when to employ ActionScripting The book

is structured in two parts The first section explores the general programming theory and how it applies to Flash It then progresses through more complex Flash ActionScripting applications
