Second-Rate Nation Sam D. Sieber,2015-12-03 A scathing indictment of America s failure to keep up with other advanced nations and to achieve its own most cherished goals The chapters of the book focus on the media the economy and corporations foreign assistance and military affairs health and health care education crime and punishment the environment inequality and more This is the one book to read this year about current events and the United States many recent failures which have demoted them to the status of a second rate nation The book will be useful for policymakers journalists teachers students activists and public speakers and anyone with an interest in the U S today Drawing on copious international and domestic evidence the author shows that America lags significantly behind other advanced countries in such domains as health care education crime civil liberties racial and ethnic equality environmental protection foreign relations and key features of the economy including persistent poverty The gap extends even to some surprising areas press freedom and democratic representation Sieber examines the questions of how and why the peculiar gulf between America s extraordinary self esteem and the true state of affairs has evolved He is concerned with understanding how the nation s idealized self image is sustained in spite of overwhelming evidence of impairment in almost every important domain In an election year the book is a valuable resource for assessing the challenges the U S faces Apart from the author s powerful thesis the book is a rich compendium of up to date statistical data on a variety of issues presented without either technical obfuscation or oversimplification It should therefore be useful to policymakers journalists commentators teachers students activists public speakers and anyone wishing to know more about the true state of affairs in the U S today

The Spectator ,1923 **The Athenaeum** ,1920 The Nation and the Athenaeum ,1920 **World Economic Outlook, October 2016** International Monetary Fund. Research Dept.,2016-10-04 According to the October 2016 World Economic Outlook global growth is projected to slow to 3.1 percent in 2016 before recovering to 3.4 percent in 2017 The forecast revised down by 0.1 percentage point for 2016 and 2017 relative to April s report reflects a more subdued outlook for advanced economies following the June U K vote in favor of leaving the European Union Brexit and weaker than expected growth in the United States These developments have put further downward pressure on global interest rates as monetary policy is now expected to remain accommodative for longer Although the market reaction to the Brexit shock was reassuringly orderly the ultimate impact remains very unclear as the fate of institutional and trade arrangements between

the United Kingdom and the European Union is uncertain Financial market sentiment toward emerging market economies has improved with expectations of lower interest rates in advanced economies reduced concern about China's near term prospects following policy support to growth and some firming of commodity prices But prospects differ sharply across countries and regions with emerging Asia in general and India in particular showing robust growth and sub-Saharan Africa experiencing a sharp slowdown In advanced economies a subdued outlook subject to sizable uncertainty and downside risks may fuel further political discontent with anti integration policy platforms gaining more traction Several emerging market and developing economies still face daunting policy challenges in adjusting to weaker commodity prices These worrisome prospects make the need for a broad based policy response to raise growth and manage vulnerabilities more urgent than ever *The Nation and Athenaeum*, 1920 *Athenaeum and Literary Chronicle*, 1920 *The Nation and Athenæum*, 1920
