Christian Nation ,1923 The Seven Pillars of Fatherhood Donald H. Wood Ph.D,2022-01-05 Much has been written about the role of a good father and the importance of a father in his children s lives However in my opinion little if any has been written about what are the fundamental attributes that make up a good or what I like to call a real father I think that

these fundamental attributes can be summed up with seven key traits or pillars as I like to refer to them These fundamental truths or attributes known as the seven pillars Ps of fatherhood encompass the following key attributes P1 Pilot A real father is a man who knows how to lead navigate his children and family through the storms of life P2 Provider A real father is able to provide for his children with adequate shelter food and clothing P3 Protector A real father knows how to protect his children from the predators of life P4 Preparer A real father knows how to prepare and teach his children how to be self sufficient and independent P5 Praise A real father knows how to instill self esteem in his children through encouragement support and affirmation P6 Patience A real father is meek and slow to anger He knows the difference between alienating his children and how to firmly direct his children in the right direction P7 Prays A real father knows how to be a prayer warrior on behalf of his children By embracing and utilizing the seven pillars of fatherhood all fathers or father figures will reap the benefits of successfully raising children who will be ready to take on the challenges of life The way in which a man fathers his children can mean the difference between him finding great joy from his children in the future or great sorrow

From Dead Ends to Cold Warriors Peter W.Y. Lee,2021-02-12 After World War II studies examining youth culture on the silver screen start with James Dean But the angst that Dean symbolized anxieties over parents the Establishment and the expectations of future citizen soldiers long predated Rebels without a Cause Historians have largely overlooked how the Great Depression and World War II impacted and shaped the Cold War and youth contributed to the national ideologies of family and freedom From Dead Ends to Cold Warriors explores this gap by connecting facets of boyhood as represented in American film from the 1930s to the postwar years From the Andy Hardy series to pictures such as The Search Intruder in the Dust and The Gunfighter boy characters addressed larger concerns over the dysfunctional family unit militarism the race question and the international scene as the Korean War began Navigating the political social and economic milieus inside and outside of Hollywood Peter W Y Lee demonstrates that continuities from the 1930s influenced the unique postwar moment coalescing into anticommunism and the Cold War

This interdisciplinary book brings the results of the research in the areas of humanities and social science. Various aspects of sacrifice are considered and connected. The book is an important contribution to the formation of a culture of sacrifice and offering appropriate for the modern world. Professor Robert Petkovsek is the Dean of the Faculty of Theology, University of Ljubljana. Research Professor Bojan Zalec is the Head of the Institute of Philosophy and Social Ethics at the Faculty of Theology, University of Ljubljana.
