**National Library Service Corporation**

## **Fear Of Power An Analysis Of Antistatism In Three French Writers:**

Fear of Power Preston King, 2003-07 This is a reprint of a 1967 title Preston King examines the views of Alexis de Tocqueville Pierre Joseph Proudhon and George Sorel He chooses them as among the most important representatives of anti statism thought in France over the last 150 years As representatives of anti statism in France they adequately represent anti statism and a fear of power in general He analyses them partly because of their statism and a fear of power in general He analyses them partly because of their dissimilarities as liberals socialists an anarcho syndicalists which permits him to compare them not so much from the perspective of ideological continuity but from that of a common approach and a basic shared assumption This assumption is that power is inherently evil And the approach that entails is one which reveals an almost exclusive concern with the question how much power governments should wield in general He critically examines this approach in the work of these men together with the assumption about the nature of power upon which it rests that it is inadequate as a distinct but parallel approach which advocates a generalised love and adoration of power     **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability     Alexis de Tocqueville on Democracy, Revolution, and Society Alexis de Tocqueville, 1980 Alexis de Tocqueville possessed one of the most fertile sociological imaginations of the nineteenth century For more than 120 years his uncanny predictive insight has continued to fascinate thinkers and his writings have continued to influence our interpretations of history and society His analyses of many issues remain relevant to current social and political problems In this volume John Stone and Stephen Mennell bring together for the first time selections from the full range of Tocqueville's writings selections that illustrate the depth of his insight and analysis     **Decolonizing Dialectics** Geo Maher, 2017-01-06 Anticolonial theorists and revolutionaries have long turned to dialectical thought as a central weapon in their fight against oppressive structures and conditions This relationship was never easy however as anticolonial thinkers have resisted the historical determinism teleology Eurocentrism and singular emphasis that some Marxisms place on class identity at the expense of race nation and popular identity In recent decades the conflict between dialectics and postcolonial theory has only deepened In *Decolonizing Dialectics* Geo Maher breaks this impasse by bringing the work of Georges Sorel Frantz Fanon and Enrique Dussel together with contemporary Venezuelan politics to formulate a dialectics suited to the struggle against the legacies of colonialism and slavery This is a decolonized dialectics premised on constant struggle in which progress must be fought for and where the struggles of the wretched of the earth themselves provide the only guarantee of historical motion     *Fear of Power: an Analysis of Anti-statism in Three French Writers* Preston T. King, 1967 This is a reprint of a 1967 title Preston King examines the views of Alexis de Tocqueville Pierre Joseph Proudhon and George Sorel He chooses them as among the most important

representatives of anti statism thought in France over the last 150 years As representatives of anti statism in France they adequately represent anti statism and a fear of power in general He analyses them partly because of their statism and a fear of power in general He analyses them partly because of their dissimilarities as liberals socialists an anarcho syndicalists which permits him to compare them not so much from the perspective of ideological continuity but from that of a common approach and a basic shared assumption This assumption is that power is inherently evil And the approach that entails is one which reveals an almost exclusive concern with the question how much power governments should wield in general He critically examines this approach in the work of these men together with the assumption about the nature of power upon which it rests He argues that the fear of power has a long and sophisticated history but that it is inadequate as a distinct but parallel approach which advocates a generalised love and adoration of power The French State in Question H. S.

Jones,2002-07-18 This book demonstrates the importance of legal theory and the idea of the state in French political culture

Benjamin Constant's Philosophy of Liberalism Guy H. Dodge,2012-06-01 This first work in English to focus on Constant as a political theorist shows that his thinking was molded by the French Revolution of 1789 and by Napoleon's regime Constant is identified as the first to recognize Bonapartism as a new form of despotism arising from the theory of popular sovereignty which is still the basis for modern Fascist and Communist regimes His political thought is analyzed within the framework of his philosophy of history law ethics and religion Originally published in 1980 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **The American as Anarchist** David DeLeon,2019-12-01

Originally published in 1978 When compared with socialist and communist systems in other nations the impact of radicalism on American society seems almost nonexistent David DeLeon challenges this position however by presenting a historical and theoretical perspective for understanding the scope and significance of dissent in America From Anne Hutchinson in colonial New England to the New Left of the 1960s DeLeon underscores a tradition of radical protest that has endured in American history a tradition of native anarchism that is fundamentally different from the radicalism of Europe the Soviet Union or nations of the Third World DeLeon shows that a profound resistance to authority lies at the very heart of the American value system The first part of the book examines how Protestant belief capitalism and even the American landscape itself contributed to the unique character of American dissent DeLeon then looks at the actions and ideologies of all major forms of American radicalism both individualists and communitarians from laissez faire liberals to anarcho capitalists from advocates of community control to syndicalists In the book's final part DeLeon argues against measuring the American experience by the standards of communism and other political systems Instead he contends that American culture is far more radical than that of any socialist state and the implications of American radicalism are far more revolutionary than forms of Marxism

Leninism      *Pluralist Thought and the State in Britain and France, 1900-25* Cécile Laborde, 2000-03-07 This is the first comparative study of early twentieth century French and British schools of political pluralism A wide ranging survey of the works of thinkers such as JN Figgis GDH Cole Harold Laski Edouard Berth Maxime Leroy and L on Duguit *Pluralist Thought and the State in Britain and France 1900 25* is a major contribution both to the study of national tradition of political thought and to the understanding of relationships between state groups and individuals in democratic societies      **Political Ideas of the Utopian Socialists** Keith Taylor, 2013-11-26 First Published in 1982 In this book Taylor has selected for special attention the work of Saint Simon and his disciples the SaintSimonians Owen Fourier Cabet and Weitling those thinkers who made the most important contributions to the development of early socialist theory The author discusses the designation of utopian which entered into the conventional vocabulary of the history of ideas and is now used almost without question This title argues that these thinkers were certainly utopian in the sense that they sought to describe the structure of an ideal future society      **1967 Annual Supplement** John B. Simeone, Alfred de Grazia, Carl E. Martinson, 2013-12-01

**Tocqueville and the French** Françoise Mélonio, 1998 With his lifelong examination of the relation between freedom and equality in modern societies Alexis de Tocqueville is the most widely shared icon of Franco American political culture Until now his American readers have not been in a position to recognize the extent to which even when his ostensible subject was America Tocqueville was engaging in hotly contested debates about French society and politics Françoise Melonio's *Tocqueville and the French* allows for a clearer understanding of Tocqueville's writings by supplying their missing French context from the time he wrote *Democracy in America* and *The Old Regime and the French Revolution* to the present With its contextualization and interpretation of his works *Tocqueville and the French* will compel the attention of historians sociologists political scientists and concerned citizens for whom Tocqueville remains perhaps the single most important interpreter of American society and culture      **Towards a Rational Philosophical Anthropology** J. Agassi, 2012-12-06 The thesis of the present volume is critical and dual 1 Present day philosophy of man and sciences of man suffer from the Greek mis taken polarization of everything human into nature and convention which is allegedly good and evil which is allegedly truth and falsity which is allegedly rationality and irrationality to wit the polarization of all fields of inquiry the natural and social sciences as well as ethics and all technology whether natural or social into the totally positive and the totally negative 2 Almost all philosophy and sciences of man share the erroneous work ethic which is the myth of man's evil nature the myth of the beast in man the doctrine of original sin To mediate or to compromise between the first view of human nature as good with the second view of it as evil sociologists have devised a modified utilitarianism with deferred gratification so called and the theory of the evil of artificial competition capitalist and socialist alike and of keeping up with the Joneses Now the mediation is not necessary For the polarization makes for abstract errors which are simplistic views of rationality such as reductionism and positivism of all sorts as well as for concrete errors such as the disposition to condemn repeatedly those

human weaknesses which are inevitable namely man's inability to be perfectly rational avoid all error etc thus setting man against himself as all too wicked      **Politics and Philosophy in the Thought of Destutt de Tracy** Brian W.

Head, 2019-11-21 First published in 1987 This study describes and analyses the published writings of the French philosopher Antoine Destutt de Tracy The author focuses on the three decades from the calling of the *États généraux* to the early years of the Restoration the period of Tracy's entire literary production and the period of his greatest influence and reputation This title will be of great interest to students of history philosophy and politics      **Violence and Social Justice** V.

Bufacchi, 2007-10-23 Violence and injustice are two major political problems facing the world today Offering a fresh innovative analysis of the concept of violence this book presents an original insight into the nature of injustice Addressing three key questions it forces us to rethink the scope and aims of a theory of social justice      Sovereign Idea Reginald

Whitaker, 1991 Bringing together the best of Reg Whitaker's essays on democracy federalism and the state A Sovereign Idea will be essential reading for anyone interested in the rise of the idea of democracy in Canada The essays each in its own way are an attempt to discover how a more democratic Canada can be achieved      **Survey of British Commonwealth Affairs**

Nicholas Mansergh, 2013-08-21 First Published in 1968 This book falls into three parts The first gives some account of the impact of war upon the Commonwealth and upon its individual member nations the second records the post war changes in its composition while the third examines some of the domestic and external problems that confronted the Commonwealth in the bleak mid years of the century Each of these topics if treated exhaustively would require a volume and what is attempted in this book is no more than the analysis of certain themes which seem to bear most closely on the idea of the Commonwealth and its place in the history of our times      **National Library Service Cumulative Book Review Index, 1905-1974:**

**Authors. [A-Z]** National Library Service Corporation, 1975      La democracia en América Alexis de Tocqueville, 2023-11-15

Toda la obra de Tocqueville es una reflexión sobre la libertad o su ausencia el despotismo Su estudio de la realidad política y social de Estados Unidos le permitió diagnosticar los peligros que acarrea una democracia basada exclusivamente en la igualdad el individualismo y el bienestar material Esta edición de *La democracia en América* incorpora notas correspondencias variantes e inéditas      **Thinking Past a Problem** Preston T. King, 2000 This is a collection of Professor Preston King's essays on the history of ideas

The Top Books of the Year Fear Of Power An Analysis Of Antistatistm In Three French Writers The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have captivated audiences this year. Fear Of Power An Analysis Of Antistatistm In Three French Writers : Colleen Hoovers "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
