Fiske Guide To Colleges 1994:

The Fiske Guide to Colleges, 1995 Edward B. Fiske, Kathleen Blease, 1994 For more than ten years this guide has been the source of college information that students administrators and parents have trusted most No one book answers a comparable range of questions and offers such depth Printed on recycled paper **The Cumulative Book Index**, 1996 A world list of books in the English language **What's Wrong with Sociology?** Stephen Cole, 2018-04-17 Since the 1950s sociology has experienced a decline in prestige when compared with the other social sciences In some highly publicized cases some universities have retrenched their sociology departments others are contemplating either retrenchment or downsizing of their departments Although there are some practitioners of the discipline who believe that it has never been in better shape many sociologists have come to believe that there are very serious problems both in the cognitive and social organization of the discipline This book contains sixteen essays by sociologists who believe that their discipline faces very serious problems which must be overcome if the discipline is to survive and prosper The contributors were selected to represent diverse views and thus there is substantial disagreement among them over what the problems are that sociology faces and how they may be remedied In this highly provocative book readers are likely to find some essays they agree with and others they disagree with but all the essays present important problems faced by the discipline which must be addressed Although the authors of the sixteen essays do not agree on what is wrong with the discipline there are some themes which appear frequently In his introduction Cole summarizes and comments on these themes His introduction centers on the question of whether sociology is entirely socially constructed Is what we believe to be true about society constrained by empirical evidence or is it a result of our ideology power authority and other social processes One theme which appears in many of the essays is that sociology has become too ideological and as a result has lost credibility among university administrators politicians and the general public Many of the essays also stress the view that there are very low levels of consensus in sociology and that it is hard to see evidence of progress Others criticize the discipline for not dealing with the really important social issues and see much of the work published as being parochial and trivial Questions are also raised about why the use of causal models has failed to generate solutions to most of the problems the discipline addresses Some authors believe that the discipline adheres to an overly rational model of human behavior and has failed to keep up with some of the advances introduced by post modernist theories This highly readable set of essays should be of interest to all those concerned about the current state of sociology They will also be useful in introducing graduate students to some of the most important issues currently being debated in the field Stephen Cole is currently professor of sociology at the State University of New York at Stony Brook and professor of sociology at the University of Queensland Australia He is the author of Making Science Between Nature and Society and with Jonathan R Cole Social Stratification in Science **Fiske Guide to Getting into the Right College** Edward B Fiske, Bruce G Hammond, 2010-08-01 GET ACCEPTED TO THE COLLEGE THAT'S RIGHT

Taming the River Camille Z. Charles, Mary J. Fischer, Margarita A. Mooney, Douglas S. Massey, 2016-05-31 Building on their important findings in *The Source of the River* the authors now probe even more deeply into minority underachievement at the college level Taming the River examines the academic and social dynamics of different ethnic groups during the first two years of college Focusing on racial differences in academic performance the book identifies the causes of students divergent grades and levels of personal satisfaction with their institutions Using survey data collected from twenty eight selective colleges and universities Taming the River considers all facets of student life including who students date what fields they major in which sports they play and how they perceive their own social and economic backgrounds The book explores how black and Latino students experience pressures stemming from campus racial climate and stereotype threat when students underperform because of anxieties tied to existing negative stereotypes Describing the relationship between grade performance and stereotype threat the book shows how this link is reinforced by institutional practices of affirmative action The authors also indicate that when certain variables are controlled minority students earn the

same grades express the same college satisfaction and remain in school at the same rates as white students A powerful look at how educational policies unfold in America s universities Taming the River sheds light on the social and racial factors influencing student success The Best Resources for College Choice & Admissions Resource Pathways, Inc,1996
