The Market Imperative Robert Zemsky, Susan Shuman, 2017-12-22 Thinking about American higher education as an economic market changes everything It is no surprise that college tuition and student debt are on the rise Universities no longer charge tuition to simply cover costs They are market enterprises that charge whatever the market will bear Institutional ambition along with increasing competition for students now shape the economics of higher education In The Market Imperative Robert Zemsky and Susan Shuman argue that too many institutional leaders and policy makers do not understand how deeply the consumer markets they promoted have changed American higher education Instead of functioning as a single integrated industry higher education is in fact a collection of segmented and more or less separate markets These markets have their own distinctive operating constraints and logics especially regarding price But those most responsible for federal higher education policy have made a muck of the enterprise while state policy making has all but disappeared the victim of weak imaginations insufficient funding and an aversion to targeted investment Chapter by chapter this compelling text draws on new data developed by the authors in a Gates Foundation funded project to describe the landscape how the market for higher education distributes students among competing institutions what the job market is looking for how markets differ across the fifty states and how the higher education market determines the kinds of faculty at different kinds of institutions The volume concludes with a three pronged set of policies for making American higher education mission centered as well as market smart Although there is no one size fits all approach for reforming higher education this clearly written book will productively advance understanding of the challenges colleges and universities face by providing a mapping of the configuration of the market for an undergraduate education

The Encyclopedia of Sports Parenting Dan Doyle, 2013-08-01 For more than a decade former basketball coach Dan Doyle has been traveling the country speaking to student athletes and their parents about their involvement in and dedication to every sport imaginable As founder and executive director of the Institute of International Sport at the University of Rhode Island Doyle has attended his fair share of sporting events and has heard countless stories about confrontations taking place on and off the court between coaches

players parents and even fans As the years passed Doyle gathered everything he d learned and heard and joined forces with Deborah Doermann Burch a former schoolteacher and parenting expert to write The Encyclopedia of Sports Parenting Together they surveyed more than 500 successful sports figures to gain additional insight into what parents can do to guide their children through the competitive sometimes disheartening though oftentimes rewarding world of sports In this book parents will learn how to express themselves in various challenging situations including learning that their children have been cut from teams have become victims of team violence hazing or bullying or are not receiving adequate and assumedly deserved playing time
