Running Cultures John Bale, 2004 Running is one of the world's most widely practiced sports and recreations but until now it has intended to elude serious study outside of the natural sciences John Bale brings the sport into the realm of the humanities by drawing on sources including literature poetry film art and sculpture as well as statistics and training manuals to highlight the tensions ambiguities and complexities that lie hidden beneath the commonplace notion of running The text explores both local and personal as well as communal and global aspects of running and its practitioners It examines the streets tracks and stadiums where athletes run the races in which they compete and the running relationships such as exist between the athlete and the coach between runners and between the athlete and

spectator It discusses the importance of speed and records how running has been used to symbolise resistance and transgression and the extent to which it can be associated with a healthy lifestyle Running Cultures provides new ways of seeing a familiar sporting phenomenon it will appeal to both students and researchers with an interest in running in particular and sport and leisure cultures more generally

Runner's World Train Smart, Run Forever Bill Pierce, Scott Murr, Editors of Runner's World Magazine, 2017-04-04 From the experts at the Furman Institute of Running and Scientific Training FIRST Runner's World Train Smart Run Forever goes beyond traditional training programs and addresses the issues that prevent runners from reaching their full potential This book will teach you how to become a fit fast and healthy lifelong runner by following the authors innovative 7 hour workout week In this new approach Bill Pierce and Scott Murr show how overall fitness and total body health are the secret to longevity as a runner Runner's World Train Smart Run Forever is appropriate for all runners but is especially helpful if you're frustrated by injuries or looking to maintain your healthy lifestyle as you age This book addresses the controversies surrounding the dangers of overtraining and the stress associated with the constant craving for faster race times Complete with a comprehensive program to enhance overall fitness improve race times and support healthy aging this book will show you how to achieve your fitness goals at any stage

Coates,2013-06-30 Running Repairs is a handbook for everyone who runs from those training for a one off charity event through those who run to keep fit to experienced club runners who regularly race A recent Runner s World magazine survey revealed that over 80 per cent of runners have experienced an injury and that avoiding injury or recovering from injury is the main worry for nearly every runner This will be the first book to specifically address these concerns Written by an

experienced physiotherapist and recreational marathon runner Running Repairs is written in two parts Part one covers a series of strengthening and flexibility exercises designed to be incorporated within any running schedule designed to help prevent injury in the first place Part two covers the most common running injuries and how to manage them A series of flowcharts helps the reader to diagnose the most likely cause of any ache and pain and recommends a plan of action to aid recovery from rest and ice to referral to a physiotherapist The book also covers basic biomechanics so that runners can understand their running style and identify the specific injuries that are associated with that style plus nutritional advice for recovering from injury The book will be an essential reference for all runners allowing them to treat any injuries immediately and in many cases saving considerable amounts of money on unnecessary physiotherapy appointments the author estimates that about 50% of injuries that runners visit her practice with could be treated effectively by the patient and that the vast majority of injuries could be avoided with appropriate exercises being incorporated as part of training The Runner's Handbook Bob Glover,Jack Shepherd,Shelly-lynn Florence Glover,1996-06-01 If you re a runner or would like to be one The Runner s Handbook will answer all your questions Fitness expert Bob Glover who has trained thousands of runners shows you how to devise a training program and keep at the top of your form
