The Committee sets out a number of conclusions and recommendations including that the Treasury should include within its annual reports a summary of the results of the annual surveys of stakeholder opinion and the Treasury's response to stakeholders; the Committee recommends that the Treasury set itself a target to ensure that the Public Service Agreements finalised as part of the next Spending Review in 2009 or 2010 include a clear statement about the resources to be allocated across Government to the delivery of each Agreement; the Committee criticises the Treasury's failure to meet its objective for the appointment of professionally qualified Finance Directors in all Departments by December 2006 and that a relevant accountancy qualification be described as an essential criterion in all future post advertisements; the Committee views the Value for Money Delivery Agreements across Government as disappointing and wants the Government to develop programmes that measure quality of service and efficiency effectively; the Committee commends the Royal Mint's return to profitability but is concerned about the ambitious target set for next year; that the Office of Government Commerce has failed to publish a regular annual report; the Committee expresses surprise that HM Revenue and Customs had approved a 60% increase in senior civil service bonus payments over a period of poor performance and headcount reductions; also the Committee highlights the problems experienced in VAT registrations and the failure of HMRC to meet its processing target of VAT receipts as well as poor administration of tax credits.

The Broadview Anthology of Nineteenth-Century British Performance Tracy C. Davis, 2011-12-20 This collection provides a representative set of theatrical performances popular on the nineteenth century British stage. All are newly edited critical editions that account for variant sources reflecting the process of rehearsal, licensing and production. Detailed introductions and extensive notes explain the texts' relationship to repertoires, the circulating discourses of intelligibility that constantly recombine in performance. The plays address the topical concerns of slavery, imperial conquest, capitalism, interculturalism, uprisings at home and abroad, modernist aesthetic innovation and the celebration of collective identities. Adaptations from novels, travelogues and other plays are discussed along with the theatrical history that sustained these works on the stage.
