**Philip Jenkins**

## **Flag Burning Moral Panic And The Criminalization Of Protest:**

*Flag Burning* Michael Welch, 2000      *Flag Burning* Michael Welch (Ph. D.), Responses to flag burning as a particular form of street protest tend to polarize into two camps one holding the view that action of this sort is constitutionally protected protest the other that it is subversive and criminal activity In this well researched and richly documented volume Welch examines the collision of these ideologies and shows the relevance of sociological concepts to a deeper understanding of such forms of protest In exploring social control of political protest in the United States this volume embarks on an in depth examination of flag desecration and efforts to criminalize that particular form of dissent It seeks to examine the sociological process facilitating the criminalization of protest by attending to moral enterprises civil religion authoritarian aesthetics and the ironic nature of social control Flag burning is a potent symbolic gesture conveying sharp criticism of the state Many American believe that flag desecration emerged initially during the Vietnam War era but the history of this caustic form of protest can be traced to the period leading up to the Civil War The act of torching Old Glory differs qualitatively from other forms of defiance With this distinction in mind attempts to penalize and deter flag desecration transcend the utilitarian function of regulating public protest Despite popular claims that American society is built on genuine consensus the flag burning controversy brings to light the contentious nature of U S democracy and its ambivalence toward free expression The First Amendment of the U S Constitution is often viewed as one of the more unpopular additions to the Bill of Rights One constitutional commentator underscores this point by noting that the First Amendment gives citizens the right to tell people what they do not want to hear *Flag Burning* is a well written informative volume suitable for courses in deviance social problems social movements mass communication criminology and political science as well as in sociology of law and legal studies      **Crime, Social Control and Human Rights** David Downes, Paul Rock, Christine Chinkin, Conor Gearty, 2013-06-17 A book of essays in Stanley Cohen s honor that examines the main themes he has explored and developed which are crime social control and human rights      *Punishing Immigrants* Charis E. Kubrin, Marjorie S. Zatz, Ramiro Martínez (Jr.), 2012-10-15 Arizona s controversial new immigration bill is just the latest of many steps in the new criminalization of immigrants While many cite the presumed criminality of illegal aliens as an excuse for ever harsher immigration policies it has in fact been well established that immigrants commit less crime and in particular less violent crime than the native born and that their presence in communities is not associated with higher crime rates *Punishing Immigrants* moves beyond debunking the presumed crime and immigration linkage broadening the focus to encompass issues relevant to law and society immigration and refugee policy and victimization as well as crime The original essays in this volume uncover and identify the unanticipated and hidden consequences of immigration policies and practices here and abroad at a time when immigration to the U S is near an all time high Ultimately *Punishing Immigrants* illuminates the nuanced and layered realities of immigrants lives describing the varying complexities surrounding immigration crime law and

victimization Podcast Susan Bibler Coutin on the process and effects of deportation Listen here *The Ashgate Research Companion to Moral Panics* Charles Krinsky, 2016-03-23 The Ashgate Research Companion to Moral Panics offers a comprehensive assemblage of cutting edge critical and theoretical perspectives on the concept of moral panic All chapters represent original research by many of the most influential theorists and researchers now working in the area of moral panic including Nachman Ben Yehuda and Erich Goode Joel Best Chas Critcher Mary deYoung Alan Hunt Toby Miller Willem Schinkel Kenneth Thompson Sheldon Ungar and Grazyna Zajdow Chapters come from a range of disciplines including media studies literary studies history legal studies and sociology with significant new elaborations on the concept of moral panic and its future informed and powerful critiques and detailed empirical studies from several continents A clear and comprehensive survey of a concept that is increasingly influential in a number of disciplines as well as in popular culture this collection of the latest research in the field addresses themes including the evolution of the moral panic concept sex panics media panics moral panics over children and youth and the future of the moral panic concept **Flag, Nation and Symbolism in Europe and America** Thomas Hylland Eriksen, Richard Jenkins, 2007-10-18 Although the symbolic and political importance of flags has often been mentioned by scholars of nationalism there are few in depth studies of the significance of flags for national identities This multi disciplinary collection offers case studies and comparisons of flag history uses and controversies This book brings together a dozen scholars from varying national and disciplinary backgrounds to offers a cluster of close readings of flags in their social contexts mostly contemporary but also historical Case studies from Denmark England Northern Ireland Norway Sweden and the United States explore ways in which flags are contested stir up powerful emotions can be commercialised in some contexts but not in others serve as quasi religious symbols and as physical boundary markers how the same flag can be solemn and formal in one setting but stand for domestic bliss and informal cultural intimacy in another *The Huddled Masses Myth* Kevin Johnson, 2008-11-20 The disconnect between national rhetoric the law and public policy Crime and Regulation Fiona Haines, 2017-11-30 This volume brings together key articles in the burgeoning field of regulation The collection is interdisciplinary in keeping with study of regulation itself yet the book arranges and explores these articles to make the bewildering array of issues and concepts that comprise the study of regulation comprehensible to a criminological audience It will be of interest to all scholars and students of criminology and criminal justice as well as those concerned with reducing the crimes and harms of the powerful Buddhist and Christian Responses to the Kowtow Problem in China Eric Reinders, 2015-03-12 The most common Buddhist practice in Asia is bowing yet Buddhist and Christian Responses to the Kowtow Problem is the first study of Buddhist obeisance in China In Confucian ritual everyone is supposed to kowtow or bow to the Chinese emperor But Buddhists claimed exemption from bowing to any layperson even to their own parents or the emperor This tension erupted in an imperial debate in 662 This study first asks how and why Buddhists should bow to the Buddha and to monks and then

explores the arguments over their refusing to bow to the emperor These arguments take us into the core ideas of Buddhism and imperial power How can one achieve nirvana by bowing What is a Buddha image Who is it that bows Is there any ritual that can exempt a subject of the emperor What are the limits of the state's power over human bodies Centuries later Christians had a new set of problems with bowing in China to the emperor and to idols Buddhist and Christian Responses to the Kowtow problem compares these cases of refusing to bow discusses modern theories of obeisance and finally moves to examine some contemporary analogies such as refusing to salute the American flag Contributing greatly to the study of the body and power ritual religion and material culture this volume is of interest to scholars and students of religious studies Buddhism Chinese history and material culture The Criminalisation of Social Policy in Neoliberal Societies Elizabeth Kiely, Katharina Swirak, 2022-11-15 From anti immigration agendas that criminalise vulnerable populations to the punishment of the poor and the governance of parenting this timely book explores how diverse fields of social policy intersect more deeply than ever with crime control and in so doing deploy troubling strategies The international context of this book is complemented by the inclusion of specific policy examples across the themes of work and welfare borders and migration family policy homelessness and the reintegration of justice involved persons This book incites the reader to consider how we can reclaim the best of the social in social policy for the twenty first century Scapegoats of September 11th Michael Welch, 2006 Argues that the war on terror is a political charade that delivers illusory comfort stokes fear and produces scapegoats used as emotional relief Drawing on topics such as the Abu Ghraib scandal Guantanamo Bay and the controversial Patriot Act this work looks at the significance of knowledge language and emotion in a post 9 11 world **The Encyclopedia of Civil Liberties in America** David Schultz, John R. Vile, 2015-04-10 Driven by the growing reality of international terrorism the threats to civil liberties and individual rights in America are greater today than at any time since the McCarthy era in the 1950s At this critical time when individual freedoms are being weighed against the need for increased security this exhaustive three volume set provides the most detailed coverage of contemporary and historical issues relating to basic rights covered in the United States Constitution The Encyclopedia of Civil Liberties in America examines the history and hotly contested debates surrounding the concept and practice of civil liberties It provides detailed history of court cases events Constitutional amendments and rights personalities and themes that have had an impact on our freedoms in America The Encyclopedia appraises the state of civil liberties in America today and examines growing concerns over the limiting of personal freedoms for the common good Complete with selected relevant documents and a chronology of civil liberties developments and arranged in A Z format with multiple indexes for quick reference The Encyclopedia of Civil Liberties in America includes in depth coverage of freedom of speech religion press and assembly as outlined in the first amendment protection against unreasonable search and seizure as outlined in the fourth amendment criminal due process rights as outlined in the fifth sixth seventh and eighth amendments property rights economic liberties and other rights found

within the text of the United States Constitution Supreme Court justices presidents and other personalities focusing specifically on their contributions to or effect on civil liberties concepts themes and events related to civil liberties both practical and theoretical court cases and their impact on civil liberties      Beyond Control Shirley Paré,Vern Neufeld Redekop,2010-02-05 What is refreshing about Beyond Control is the vision for the kind of society in which protestors and police recognize their mutual humanity as well as how both are needed for a democratic society to function well From the Foreword by Archbishop Desmond Tutu How can large protest crowds be better and more respectfully managed by police This topical book applies the principles of community based conflict resolution to the policing of large crowds suggesting a completely new approach that moves away from the discourse of rabble rousing mobs towards negotiated management and a paradigm of mutual respect for protesters as principled dissenters and for police as non repressive agents of public order Both are needed the authors argue in order for democracy to flourish      **Detained** Michael Welch,2002 Details how American immigration law and policy have increasingly relied on incarceration locking up thousands of immigrants not because they pose any real danger but as a collective expression of moral panic and hostility toward perceived outsiders David Cole back cover      **Images of Terror** Philip Jenkins, The book acts as a guide to the images of terrorism that we see daily in the mass media The author believes that our perceptions of terrorism are formed by the interaction of bureaucratic agencies academics and private experts These images and stereotypes that we are offered do not necessarily reflect objective reality      *Drug Courts* James L. Nolan, Drug courts offer offenders an intensive court based treatment program as an alternative to the normal adjudication process Begun in 1989 they have since spread dramatically throughout the United States In this interdisciplinary examination of the expanding movement a distinguished panel of legal practitioners and academics offers theoretical assessments and on site empirical analyses of the workings of various courts in the United States along with detailed comparisons and contrasts with related developments in Britain Practitioners politicians and academics alike acknowledge the profound impact drug courts have had on the American criminal justice system From a range of disciplinary perspectives contributors to this volume seek to make sense of this important judicial innovation While addressing a range of questions Drug Courts also aims to achieve a careful balance between focused empirical studies and broader theoretical analyses of the same phenomenon The volume maintains an analytical concentration on drug courts and on the important practical philosophical and jurisprudential consequences of this unique form of therapeutic jurisprudence Drug courts depart from the practices and procedures of typical criminal courts Prosecutors and defense counsel play much reduced roles Often lawyers are not even present during regular drug court sessions Instead the main courtroom drama is between the judge and client both of whom speak openly and freely in the drug court setting Often accompanying the client is a treatment provider who advises the judge and reviews the client s progress in treatment Court sessions are characterized by expressive and sometimes tearful testimonies about the recovery process and are often punctuated with applause from

those in attendance Taken together the chapters provide a variety of perspectives on drug courts and extend our knowledge of the birth and evolution of a new movement Drug Courts is an essential reference for courses in criminology the sociology of drugs and deviance and the philosophy of law and punishment

### **Thinking About Social Problems** Donileen

Loseke,2017-07-05 The new second edition of this distinctive and widely adopted textbook brings into the classroom an overview of how images of social problems can shape not only public policy and social services but also the ways in which we make sense of ourselves and others It introduces two primary changes First some attention is devoted to the new social movements that emphasize social change through identity transformation rather than through structural change Second the text now also looks more closely at the importance of emotions in constructing public consciousness of social problems When the first edition was published Teaching Sociology noted Loseke does a superb job explaining the relationship between sociology and social problems in a text that is very well research and engaging yet with tremendous attention to detail and accuracy W ould provide a solid base for any social problems class Contemporary Sociology wrote that the book is engagingly well written in a personal unpretentious style and well informed by the author s knowledge of the professional literature

Social Problems Donileen Loseke,2017-07-05 This collection of focused essays is directed at several levels of students of social problems It is accessible to the uninitiated who are not familiar with the constructionist literature and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives Some readings focus on the construction of problems by scientists and other professionals others examine the work of social activists mass media and social service personnel Among the topics included are studies of social inequalities and individual deviance a comparison of the images of social problems in the United States with those in other countries and an examination of the importance of politics and power in constructing public images of social problems Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems Yet constructionists impact on the teaching of social problems has been far less dramatic Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives Just as the first social problems textbooks did almost a century ago textbooks continue to present a series of unrelated chapters each devoted to a particular social problem Social Problems is an effort at systematic analysis rather than random thought on the subject Social Problems presents detailed case studies demonstrating how constructionist perspectives can actually be applied to understand particular social problems While these articles can be read alone the editors have organized these selections to correspond with the chapter topics in the second edition of Donileen Loseke s Thinking about Social Problems an accessible introduction to constructionist approaches At the same time some instructors who use this edited collection might wish to provide th

**Using Murder** Philip Jenkins,2017-09-08 First published in 1994 this book investigates the social construction of serial homicide and assesses the concern that popular fears and stereotypes have exaggerated the actual scale of multiple

homicide Jenkins has produced an innovative synthesis of approaches to social problem construction that includes an historical and social scientific estimate of the objective scale of serial murder a rhetorical analysis of the construction of the phenomenon in public debate a cultural studies oriented analysis of the portrayal of serial murder in contemporary media Chapters include The Construction of Problems and Panic which covers areas such as comprehending murder dangerous outsiders and the rhetoric of persecution The Reality of Serial Murder which discusses statistics stereotype examination and media patterns Popular Culture Images of the Serial Killer The Racial Dimension Serial Murder as Bias Crime and Darker than We Imagine Cults and Conspiracies

**Fathoming the Holocaust** Ronald J. Berger, *Fathoming the Holocaust* represents the culmination of a singular effort to attempt to explain the Final Solution to the Jewish Problem in terms of a general theory of social problems construction The book is comprehensive in scope covering the origins and emergence of the Final Solution wartime reaction to it and the postwar memory of the genocide It does so within the framework of a social problems construction a perspective that treats social problems not as a condition but as an activity that identifies and defines problems persuades others that something must be done about them and generates practical programs of remedial action Berger holds that social problems have a natural history that is they evolve through a sequence of stages that entail the development and unfolding of claims about problems and the formulation and implementation of solutions *Fathoming the Holocaust* is therefore a book that aims to advance sociological understanding of the Holocaust not simply to describe its history but to examine its social construction that is to understand it as a consequence of concerted human activity In doing so Berger hopes to encourage the teaching of the Holocaust in the social scientific curricula of higher education In contrast to the extensive historical literature on the Holocaust Berger offers a distinctly sociological approach that examines how the Holocaust was constructed first as a social policy designed by the Nazis implemented by functionaries and resisted by its victims and opponents later as several varying layers of historical memory The scope of this book extends from the prewar through the contemporary periods focusing on the societal issues governing the interpreting of these events in Israel the German Federal Republic and the United States Berger's is a text with both large general interest and essential material for courses in social problems European history and Jewish studies Ronald J Berger professor of sociology at the University of Wisconsin Whitewater has previously published six books and numerous articles and book chapters His earlier book on the Holocaust was a sociological account of his father and uncle's survival experiences

## Decoding **Flag Burning Moral Panic And The Criminalization Of Protest**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
