Valérie Schafer,Fred Pailler,2024-08-19 The book Online Virality edited by Val rie Schafer and Fred Pailler C2DH University
of Luxembourg aims to provide a comprehensive examination of online virality It explores the many ways we can think about
this modern phenomenon and analyse the circulation reception and evolution of viral born digital content Virality and content
sharing always intertwine material infrastructural visual and discursive elements This involves various platforms
stakeholders intermediaries social groups and communities that are constantly re defining themselves Regulation curation
and content moderation politics as well as affects and emotions fears humour empathy hatred are also at the core of online
virality The publication offers an interdisciplinary overview on online virality by including different types of scientific inputs
such as precise case studies various methodological approaches including close and distant reading visual studies discourse
analysis etc as well as historical and socio technical analyses The book is organised around three main topics Expressions
and Genres Mobilisations and Engagements Circulation and Infrastructures The first part explores the semiotics of virality
the diverse and creative forms of expression specific genres the relation to other media and the affective side of virality such
as using humour or provocation The second part focuses on the political dimension of memes and viral content and their use
in the context of controversy or political and ideological opposition Finally the third part delves into the often understudied
but essential side of virality by examining the role of platforms and their curation in short the infrastructural dimension of
virality These three parts allow us to question such fundamental notions linked to virality as among others circulation
reception economy of attention instrumentalisation and affect This volume brings together authors from various disciplines
including semiotics history information and communication sciences computer science digital humanities media studies In
addition the contributors approach the question via case studies that allow for a perspective that is not exclusively US and
European centred Some chapters explore virality in Brazil Chile while the book also examines a wide variety of platforms
YouTube Twitter Instagram TikTok video game platforms etc **Tech Timeout, Grade K** Thinking Kids,Carson-Dellosa
