Girgus, 2014-01-08 The steady rise of Clint Eastwood s career parallels a pressing desire in American society over the past five decades for a figure and story of purpose meaning and redemption Eastwood has not only told and filmed that story he has come to embody it for many in his public image and film persona Eastwood responds to a national yearning for a vision of individual action and initiative personal responsibility and potential for renewal An iconic director and star for his westerns urban thrillers and adventure stories Eastwood has

taken film art to new horizons of meaning in a series of masterpieces that engage the ethical and moral consciousness of our times including *Unforgiven* *Million Dollar Baby* and *Mystic River* He revolutionized the war film with the unprecedented achievement of filming the opposing sides of the same historic battle in *Flags of Our Fathers* and *Letters from Iwo Jima* using this saga to present a sharply critical representation of the new America that emerged out of the war a society of images and spectacles This timely examination of Clint Eastwood's oeuvre against the backdrop of contemporary America will be fascinating reading for students of film and popular culture as well as readers with interests in Eastwood's work American film and culture

War and the Media Paul M. Haridakis, Barbara S. Hugenberg, Stanley T. Wearden, 2014-01-10 Mass communication is used by governments to support their war efforts while media images are created or manipulated to inform persuade or guide the consumers of those images But this book looks beyond the obvious The contributors examine historical and contemporary examples that reflect the role of the media or mass communication or both during wartime The essays highlight the centrality of communication to the perpetuation and to the resolution of war suggesting that the symbiotic relationship between communication and war is as important to understand as war itself

Military Law Review, 2001 **Combat Death in Contemporary American Culture** Agnieszka Soltysik Monnet, 2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

War on the Silver Screen GLEN JEANSONNE, DAVID

LUHRSEN,2014-10-01 Americans have been almost constantly at war since 1917 In addition to two world wars the United States has fought proxy wars propaganda wars and a war on terror among others But even with the constant presence of war in American life much of what Americans remember about those conflicts comes from Hollywood depictions In War on the Silver Screen Glen Jeansonne and David Luhrssen vividly demonstrate how war movies have burned the images and impressions of those wars onto the American psyche more concretely than has the reality of the wars themselves That is our feelings about wars are generated less by what we learn through study and discourse than by powerful cinematic images and dialogue Films are compressed intense and immediate and often a collective experience rather than a solitary one Actors and drama provide the visceral impact necessary to form perceptions of history that are much more enduring than those generated by other media or experiences War on the Silver Screen draws on more than a century of films and history including classics such as All Quiet on the Western Front Apocalypse Now and The Hurt Locker to examine the legacy of American cinema on twentieth and twenty first century attitudes about war

American Media and the Memory of World War II Debra Ramsay,2015-02-11 For three generations of Americans World War II has been a touchstone for the understanding of conflict and of America s role in global affairs But if World War II helped shape the perception of war for Americans American media in turn shape the understanding and memory of World War II Concentrating on key popular films television series and digital games from the last two decades this book explores the critical influence World War II continues to exert on a generation of Americans born over thirty years after the conflict ended It explains how the war was configured in the media of the wartime generation and how it came to be repurposed by their progeny the Baby Boomers In doing so it identifies the framework underpinning the mediation of World War II memory in the current generation s media and develops a model that provides insight into the strategies of representation that shape the American perspective of war in general

Rosenstone, 2023-11-30 History on Film Film on History has established itself as a classic treatise on the historical film and its role in bringing the past to life In the fourth edition of this widely acclaimed text Robert A Rosenstone argues that to leave history films out of the discussion of the meaning of the past is to ignore a major means of understanding historical events This book examines what history films convey about the past and how they convey it demonstrating the need to learn how to read and understand this new visual world and integrating detailed analysis of films such as Schindler's List Glory October and Reds Advocating for the dramatic feature as a legitimate way of doing history this edition includes a new Preface and a new chapter that focuses on films produced in Latin America Africa the Middle East India and East Asia Examining the codes and conventions of how these films tell us about the past and providing guidance on how to effectively analyse films as historical interpretations this book is an essential introduction to the field for students of history and film

The Mourning After John Ibson, 2018-11-01 On the battlefields of World War II with their fellow soldiers as the only shield between life and death a generation of American men found themselves connecting with each other in new and profound ways Back home after the war however these intimacies faced both scorn and vicious homophobia The Mourning After makes sense of this cruel irony telling the story of the unmeasured toll exacted upon generations of male friendships John Ibson draws evidence from the contrasting views of male closeness depicted in WWII era fiction by Gore Vidal and John Horne Burns as well as from such wide ranging sources as psychiatry texts child development books the memoirs of veterans children and a slew of vernacular snapshots of happy male couples In this sweeping reinterpretation of the postwar years Ibson argues that a prolonged mourning for tenderness lost lay at the core of midcentury American masculinity leaving far too many men with an unspoken ache that continued long after the fighting stopped forever damaging their relationships with their wives their children and each other

World War II on Film David Luhrssen, 2020-11-09 World War II on Film examines the war through the lens of 12 films The movies selected include productions made during World War II and in each succeeding decade providing a sense of how different generations perceive the war World War II on Film provides a succinct yet well grounded appraisal of that war as seen through 12 representative films The book separates fact from fiction showing where the movies were accurate and where they departed from reality and places them in the larger context of historical and social events Each movie chosen represents a particular aspect of the conflict including the air war over Europe the condition of prisoners of war Nazi atrocities and the British evacuation at Dunkirk Unlike most histories of Hollywood during World War II or the genre of war movies World War II on Film examines in depth the relation between the depictions of events beliefs attitudes and ways of life as seen on film with reality as documented by historians or recorded by journalists or eyewitnesses to the war The volume will appeal to high school and college readers as well as general interest readers and film buffs
