Keepers of the Flame Robert M. Hazen, Margaret Hindle Hazen, 2014-07-14 For Lo We live in an Iron Age In the age of Steam and Fire wrote a poet mesmerized by the engines that were transforming American transportation agriculture and industry during his lifetime Indeed by the nineteenth century fire had become America s leitmotif for good and for ill Keeping the flame was deadly serious even the slightest lapse of attention could convert a fire from friendly ally to ravaging destroyer To examine the cultural context of fire in combustible America Margaret Hazen and Robert Hazen gather more than a hundred illustrations most never before published together with anecdotes and information from hundreds of original sources including newspapers diaries company records popular fiction art and music What results is an immensely entertaining and encyclopedic history that ranges from stories of the tragic great fires of the century to fire imagery in folktales and popular literature Dealing more with technology than with fire in nature the book provides a vast amount of information on fire manipulation and prevention in urban life Hazen and Hazen discuss the people who worked with fire or against it Founders gaffers blacksmiths boilers at saltworks and housewives knew how to read a fire and employ it for their purposes A few dedicated investigators inquired about the scientific nature of heat and flame And firefighters gradually progressed from bucket brigades to using fire to fight fire with the newly invented steam engine The colorful stories of these Americans the risks they took and the rewards they received will fascinate not only social historians but also a broad audience of general readers Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Adjuster ,1919 **The Ox-Bow Man** Jackson J. Benson, 2006-07-27 Walter Van Tilburg Clark author of the classic novel The Ox Bow Incident was one of the West s most important literary figures a writer who contributed mightily to the tradition of viewing the West realistically and not through the veil of myth and romance As a comparatively young man he published three novels and a collection of short stories then remained almost silent for the rest of his life the victim of a paralyzing case of writer s block Now Jackson J Benson one of the country s foremost literary biographers has produced the first full length biography of this brilliant enigmatic and ultimately tragic figure Based on widely scattered sources personal papers and correspondence interviews with family members friends and others and Clark s unpublished stories and poems Benson s biography focuses on Clark s intellectual and literary life as a writer teacher and westerner Benson masterfully balances his engaging account of the experiences people and settings of Clark s life with a penetrating examination of his complex psyche and the crippling perfectionism that virtually ended Clark s career as well as offering up a thoughtful assessment of Clark s place in Western writing In these pages Clark lives again a warm complex and ultimately anguished human being Benson s remarkably astute

and sensitive biography is destined to be the book that readers and researchers consult first for information about this major western writer     **Flames in Our Forest** Stephen F.
