The mind can be likened to a doorway a doorway to thousand realities Consider each reality of the mind as an area If you do so you ll inherit the reality that a person is often trapped in his mind The study of a man s psychology has always considered the mind as having more phases or more streams and you know what you know because of the conscious phase or stream Knowing this helps you get into a deeper understanding of the mind how it could control us and the way you in turn could get the reins of control Once you lose your sleep a part of your mind your worries is trying to get the higher side of your rest and valuable sleep time You do not realize it so you can t fight it But guess what the case would be once you finally get in control You ll see yourself walking through that doorway of your mind again this point it ll be with an understanding of the various realities that there are Sleep is critical in the development of a person s learning skills and memory Consistent with research when an individual lacks sleep he she will find it difficult to focus This may have an excellent effect on his her learning capabilities It s also harder to consolidate memory once you are sleep deprived This may make it difficult for you to soak up and recall new information The Bedtime Stories contains a collection of stories to overcome stress you ll rest therein reality This is often your origin of achieving inner peace You d rest from inside out With your mind in its calm sleep becomes your friend Our minds and bodies follow daily patterns If we train ourselves to try an equivalent thing over and over we ll form habits These habits prepare our body to perform the ritual or habit of getting to sleep Bedtime Stories will help you have better deep sleep and a good night of relaxed sleep Do not hesitate to GRAB A COPY today     **the story of the northern rhodesia regiment** ,1954     **Heritage Signature Auction #811** Ivy Press,
