Flyover Fictions Cornelia Klecker, Sascha Pöhlmann, **Mission Unaccomplished** Alan Nadel, 2025 Throughout his career prominent film scholar Alan Nadel has explored the idea of cultural narratives and how every social unit sees and explains the world through the stories we tell In this book he identifies how the war film genre has changed in the 21st century after 9 11 and more specifically Bush s announcement of Mission Accomplished He explains how the traditional war film narrative in which soldiers have a specific mission or objective to achieve in battle changed to one in which war is treated as a daily occupation with no larger mission that will lead even in the long run to peace He examines how films such as Saving Private Ryan at the end of the 20th century have morphed into films such as Jarhead The Hurt Locker and The Green Zone With the indefinite and ill planned occupation of Afghanistan and Iraq including the privatization of many military services through contractors this new situation has led to films in which we follow soldiers day to day lives as they go through their duties or even after they ve come home as in American Sniper Another change in war films during the Global War on Terror puts the emphasis on just surviving and getting out such as in Hacksaw Ridge which even carries over to films about for example WWII such as Dunkirk Again combatants have no specific goal other than escaping or helping others to escape or just surviving long enough to go home Nadel shows how this change has also affected non war films such as Sully Captain Phillips Deepwater Horizon and Get Out and even the television series Lost Nadel deftly moves between political history and film analysis with this wide ranging lucid examination of the changing nature and role of war films **Movies**

and the Reagan Presidency Chris Jordan, 2003-06-30 The 1980s were unique in both American history and the history of American cinema. It was a time when a United States president, a former B movie actor and Cold War industry activist served as a catalyst for the coalescence of trends in Hollywood's political structure, mode of production and film content. Ronald Reagan championed a success ethos that recognized economic and moral self governance as the basis of a democratic society. His agenda of tax reform and industry deregulation simultaneously promoted the absorption of Hollywood's major studios into tightly diversified media conglomerates and concentrations of ownership. The production and release of movies with maximum revenue potential. Indeed, the most commercially successful movies of the decade put forth the ideologies of WASP America: nuclear family, self sufficiency and conspicuous consumption. Three genres in particular: the biracial buddy movie, the MTV music video movie and the yuppie movie provide case studies of how Reagan era cinema addressed issues of race, gender and class in ways very much in tune with Reaganomics and the President's cultural policies. Author Chris Jordan provides a complete overview of both the influence of Reagan's presidency on the film industry and on the films themselves. Exploring 80s genres and movies with both a sociocultural and aesthetic eye, this book will be invaluable to historians, cinema scholars and film buffs.

Screen Ages John Alberti, 2014-11-27 Screen Ages is a valuable guide for students exploring the complex and vibrant history of US cinema and showing how this film culture has grown, changed and developed. Case studies analyzing key elements of films in more depth. Glossary terms featured throughout the text to aid non specialist students and expand the reader's understanding of changing screen cultures. Screen Ages illustrates how the history of US cinema has always been and continues to be one of multiple screens, audiences, venues and markets. It is an essential text for all those wanting to understand the power of American cinema throughout history and the challenges for its future. The book is also supported by a companion website featuring additional case studies, an interactive blog, a quiz bank for each chapter and an online chapter 'Screen Ages Today' that will be updated to discuss the latest developments in American cinema.

Contemporary Hollywood Masculinities Susanne Kord, Elisabeth Krimmer, 2013-12-04 Kord and Krimmer investigate the most common male types: cops, killers, fathers, cowboys, superheroes, spies, soldiers, rogues, lovers and losers by tracing changing concepts of masculinity in popular Hollywood blockbusters from 1992 to 2008, the Clinton and Bush eras, against a backdrop of contemporary political events, social developments and popular American myths. Their in depth analysis of over

sixty films from The Matrix and Iron Man to Pirates of the Caribbean and The Lord of the Rings shows that movies far from being mere entertainment respond directly to today's social and political realities from consumerism to family values to the War on Terror

New Hollywood and Countercultural Whiteness Till Kadritzke, 2024-12-02

Henry James Goes to the Movies Susan M. Griffin, 2021-10-21 Why has a nineteenth century author with an elitist reputation proved so popular with directors as varied as William Wyler François Truffaut and James Ivory A partial answer lies in the way many of Henry James's recurring themes still haunt us the workings of power the position of women in society the complexities of sexuality and desire Susan Griffin has assembled fifteen of the world's foremost authorities on Henry James to examine both the impact of James on film and the impact of film on James Anthony Mazella traces the various adaptations of The Turn of the Screw from novel to play to opera to film Peggy McCormack examines the ways the personal lives of Peter Bogdanovich and then girlfriend Cybill Shepherd influenced critical reaction to Daisy Miller 1974 Leland Person points out the consequences of casting Christopher Reeve then better known as Superman in The Bostonians 1984 during the conservative political context of the first Reagan presidency Nancy Bentley defends Jane Campion's anachronistic reading of Portrait of a Lady 1996 as being more authentic than the more common period costume dramas Dale Bauer observes James's influence on such films as Next Stop Wonderland 1998 and Notting Hill 1999 Marc Bousquet explores the ways Wings of the Dove 1997 addresses the economic and cultural situations of Gen X viewers Other fascinating essays as well as a complete filmography and bibliography of work on James and film round out the collection

Don DeLillo In Context Jesse Kavadlo, 2022-06-02 Don DeLillo is one of the most important novelists of the late twentieth and early twenty

first century Yet despite DeLillo's prolific output and scholarly recognition much of the attention has gone to his works individually rather than collectively or thematically This volume provides separate entries into the wide variety and categories of contexts that surround and help illuminate DeLillo's writings Don DeLillo in Context examines how geography biography history media studies culture philosophy and the writing process provide critical frameworks and ways of reading and understanding DeLillo's prodigious body of work

Deconstructing Reaganism Douglas E. Forster, 2014-06-02 As in so many other areas of American society the political legacy of Ronald Reagan had an imposing presence in many contemporary American films particularly between 1980 and 2000 Six films which collectively represent the spectrum of Reaganism's most popular tropes demonstrate quite compellingly that in celebrating nostalgically the blissful pleasantries of family stability and social order so essential to Reagan's political philosophy an unsettling and unsatisfying mythology has been created about a period in which many Americans were acutely aware that something was missing even if they could not pinpoint it at the time This leads the critical viewer to largely unacknowledged subtexts in all six films that begin to reveal the contradictions incoherencies and paradoxes rooted in popular Reaganesque portrayals Utilising a detailed qualitative case study methodology this book incorporates theoretical foundations that expand upon Fairclough's path breaking research on media discourse and Todorov's broadly articulated framework of fantasy in order to explore

- 1 Which elements of Fairclough's framework for critical discourse analysis can be applied to explore the discursive structures within these American fantasy films
- 2 How far do the films follow Reaganist concepts of a new American society
- 3 How far do notions of the fantastic and postmodern concepts break with common patterns of Reaganism reflected in these films

While many critics rightly cite the numerous elements in these films that appear to reinforce fundamental message points underlying Reaganism this study demonstrates how the films characters and plot lines also serve to reveal the inherent and irreconcilable incoherence of the sociopolitical and sociocultural tenets of Reaganism

Cinemas of Boyhood Timothy Shary, 2021-01-13 Drawing from political sociology pop psychology and film studies Cinemas of Boyhood explores the important yet often overlooked subject of boys and boyhood in film This collected volume features an eclectic range of films from British and Indian cinemas to silent Hollywood and the new Hollywood of the 1980s culminating in a comprehensive overview of the diverse concerns surrounding representations of boyhood in film

The Terministic Screen David Blakesley, 2007-09-28 The Terministic Screen Rhetorical Perspectives on Film examines the importance of rhetoric in the study of film and film theory Rhetorical approaches to film studies have been widely practiced but rarely discussed until now Taking on such issues as Hollywood blacklisting fascistic aesthetics and postmodern dialogics editor David Blakesley presents fifteen critical essays that examine rhetoric's role in such popular films as The Fifth Element The Last Temptation of Christ The Usual Suspects Deliverance The English Patient Pulp Fiction The Music Man Copycat Hoop Dreams and A Time to Kill Aided by sixteen illustrations these insightful essays consider films rhetorically as ways of seeing and not seeing as acts that dramatize how

people use language and images to tell stories and foster identification Contributors include David Blakesley Alan Nadel Ann Chisholm Martin J Medhurst Byron Hawk Ekaterina V Haskins James Roberts Thomas W Benson Philip L Simpson Davis W Houck Caroline J S Picart Friedemann Weidauer Bruce Krajewski Harriet Malinowitz Granetta L Richardson and Kelly Ritter

Hollywood Bloodshed James Kendrick, 2009-03-30 In *Hollywood Bloodshed* James Kendrick presents a fascinating look into the political and ideological instabilities of the 1980s as studied through the lens of cinema violence Kendrick uses in depth case studies to reveal how dramatic changes in the film industry and its treatment of cinematic bloodshed during the Reagan era reflected shifting social tides as Hollywood struggled to find a balance between the lucrative necessity of screen violence and the rising surge of conservatism As public opinion shifted toward the right and increasing emphasis was placed on issues such as higher military spending family values and money culture film executives were faced with an epic dilemma the violent aspects of cinema that had been the studios bread and butter were now almost universally rejected by mainstream audiences Far from eliminating screen bloodshed altogether studios found new ways of packaging violence that would allow them to continue to attract audiences without risking public outcry ushering in a period of major transition in the film industry Studios began to shy away from the revolutionary directors of the 1970s many of whom had risen to fame through ideologically challenging films characterized by a more disturbing brand of violence while simultaneously clearing the way for a new era in film The 1980s would see the ascent of entertainment conglomerates and powerful producers and the meteoric rise of the blockbuster a film with no less violence than its earlier counterparts but with action oriented thrills rather than more troubling images of brutality Kendrick analyzes these and other radical cinematic changes born of the conservative social climate of the 1980s including the disavowal of horror films in the effort to present a more acceptable public image the creation of the PG 13 rating to designate the gray area of movie violence between PG and R ratings and the complexity of marketing the violence of war movies for audience pleasure The result is a riveting study of an often overlooked yet nevertheless fascinating time in cinema history While many volumes have focused on the violent films of the New American Cinema directors of the 1970s or the rise of icons such as Woo Tarantino and Rodriguez in the 1990s Kendrick's *Hollywood Bloodshed* bridges a major gap in film studies This comprehensive volume offers much needed perspective on a decade that altered the history of Hollywood and American culture forever Harrison Ford Virginia Luzón-Aguado, 2020-05-28 Harrison Ford is known for such iconic roles as Han Solo Indiana Jones and Rick Deckard but his career of 50 years and counting encompasses a plethora of other thought provoking roles His off screen persona has been no less intriguing Covering a wide timespan this book assesses Harrison Ford as star from the difficult Hollywood studio years where he began his blockbusters of the 1980s through to the impact of ageist culture on his artistry of recent years The author argues that Ford has generally been seen as a potent irresistible combination of tradition and modernity He is an actor who both reflects and utilises changing ideas about American masculinity in the context of Hollywood film production

particular male types are revealed as much in his trademark trustworthy hero act as in his more fallible less conservative and therefore commercially riskier characters Luzon Aguado explores these particular star identities and every fluctuation in between She gives due attention to his much neglected acting abilities while examining the crucial interplay between star persona and the constraints and conventions of genre Going beyond standard accounts of Ford s production and pinpointing overlooked aspects of his work and the creation of the star through cultural artefacts like magazine interviews and advertising campaigns this book reveals the depth and dimensions of the enduring American screen legend that is Harrison Ford

American Literature and Culture in an Age of Cold War Steven Belletto, Daniel Grausam, 2012-10 Authors and artists discussed include Joseph Conrad Edwin Denby Joan Didion Ralph Waldo Emerson Allen Ginsberg Frank Berbert Richard Kim Norman Mailer Malcolm X Alan Nadel and John Updike
