## **Economic Activity And Land Use The Changing Information Base For Local And Regional Studies:**

*Economic Activity and Land Use The Changing Information Base for Local and Regional Studies* Michael J. Healey, 2014-10-13 Concerned primarily with statistical data this text aims to provide a guide to the nature, uses, availability and limitations of the main data sources for interpreting and undertaking regional studies of economic activity. It also considers the methods used for the collection of this data. **Economic Activity and Land Use** Michael Healey, 1991

*Geographers* Charles W. J. Withers, Hayden Lorimer, 2015-12-14 This twenty-sixth volume of *Geographers* Biobibliographical Studies brings together essays on leading figures in time geography and regional theory, on GIS, on regional cultural and political geography, on scriptural geography, historical geography and methodology, and on African exploration. Each essay engages with the individual's contribution to geography, their works and their lives, and the intellectual and social contexts in which they worked and which helped shape them. In addition, and to mark the new co-editorial pairing leading the series, the volume has an essay on the history of GBS, on the importance of biographical work in the history of geography, and on issues to be addressed by the scholarly communities engaged in promoting this vital area of geographical research. *Indicators for Urban and Regional Planning* Cecilia Wong, 2006-09-27 This book focuses on the measurement and utilisation of quantitative indicators in the urban and regional planning fields. There has been a resurgence of academic and policy interest in using indicators to inform planning, partly in response to the current government's information-intensive approach to decision making. The content of the book falls into three broad sections: indicators usage and policy making, methodological and conception issues, and case studies of policy indicators. *International Bibliography of Economics* British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians, university departments, research institutions, and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences. Long-range Futures Research Robert H. Samet, 2009-03-24 This highly readable study explains how complexity science provides an evolutionary model for the civil system with a new world view that out-ranges United Nations reference scenarios to beyond 2150. *Methods of Environmental Impact Assessment* Peter Morris, Riki Therivel, 2001-08-23 Offers a comprehensive coverage of the methods used in environmental impact assessment, which is now firmly established as an obligatory procedure in proposing or launching any development project with possible impacts on the environment. **Methods in Human Geography** Robin Flowerdew, David M. Martin, 2013-10-08 First published in 2004, this text is an essential guide to current research approaches in human geography, covering all aspects of undertaking a geography research project, from the selection of an appropriate topic through to the organisation and writing of the final report. Covering a wide range of contemporary research methods, the authors provide practical advice on how to actually undertake a project. TOOLS FOR POLICY RESEARCH BONARD MWAPE; JOSEPH MUMBA, 2012-05-09 This book is designed as a thesis research manual for students pursuing policy research at a Masters level. It is also intended for

students pursuing Masters in Business Administration MBA thesis and dissertation research projects The book is structured in a simple format that takes the student through the entire research process It assumes a deductive research logic as a strategy to make business managers and policy implementers apply scientific thinking to solving business and policy problems The authors strongly believe that the book will make a big difference in the research lives of Masters students in Africa and beyond The complicated treatise of research found in many research methods books usually puts off average students This book thus fills a big gap in readily available affordable and easily accessible simple research methods books to Masters students in the developing world such as Africa and beyond *Geographical Data* Nigel Walford, 2002-03-22

Provides a comprehensive overview of the characteristics relating to remote sensing cartography censuses surveys and administrative statutory Presents up to date information in this remarkable growth area with clear explanations of the problems and pitfalls as well as the potentiality of analysing geographical data An ideal book for both those already confident with GIS technology and the novice user Covers spatial and thematic worldwide geographical data Exemplifies the problems and pitfalls of using geographical data Provides introductory details of GIS without the need for a separate text Refers to the latest internet sources Covers geographical data relating to the environmental and human domains Focuses on digital geographical data

**The Town Planning Review** Patrick Abercrombie, 2000 *Local Labour Markets* Mike Campbell, Katherine Duffy, 1992 Based on recent research this text examines the key issues affecting the local labour market that local authorities need to address It offers an examination of the nature of problems and an analysis of the range of policies and practices that can be pursued to alleviate them Economic Activity and Land Use The Changing Information Base for Local and Regional Studies Michael J. Healey, 2014-10-13

Concerned primarily with statistical data this text aims to provide a guide to the nature, uses, availability and limitations of the main data sources for interpreting and undertaking regional studies of economic activity It also considers the methods used for the collection of this data **Uneven**

**Re-production** Andy C. Pratt, 1994 Discusses the relationship between industry, space and society The text links the location of industry and uneven development and considers the industrial built environment and its forms Environment & Planning A, 1997
