and knowledge acquisition The Economics of Social Determinants of Health and Health Inequalities World Health Organization, 2013 This resource book discusses the economic arguments that could and could not be put forth to support the case for investing in the social determinants of health on average and in the reduction in socially determined health inequalities It provides an overview and introduction into how economists would approach the assessment of the economic motivation to invest in the social determinants of health and socially determined health inequities including what the major challenges are in this assessment It illustrates the extent to which an economic argument can be made in favour of investment in 3 major social determinants of health areas education social protection and urban development and infrastructure It describes whether education policy social protection and urban development housing and transport policy can act as health policy **Impacts of Large Dams: A Global Assessment** Cecilia Tortajada, Dogan Altinbilek, Asit K. Biswas, 2012-02-02 One of the most controversial issues of the water sector in recent years has been the impacts of large dams Proponents have claimed that such structures are essential to meet the increasing water demands of the world and that their overall societal benefits far outweigh the costs In contrast the opponents claim that social and environmental costs of large dams far exceed their benefits and that the era of construction of large dams is over A major reason as to why there is no consensus on the overall benefits of large dams is because objective authoritative and comprehensive evaluations of their impacts especially ten or more years after their construction are conspicuous by their absence This book debates impartially comprehensively and objectively the positive and negative impacts of large dams based on facts figures and authoritative analyses These in depth case studies are expected to promote a healthy and balanced debate on the needs impacts and relevance of large dams with case studies from Africa Asia Australia Europe and Latin America NAFTA's Impact on Mexico's Regional Development Adrián de León-Arias, Patricio Aroca, 2021-10-01 In this book the dynamics of continuity and change in the regional economic development of Mexico and the US border states are analyzed These studies cover the last 25 years after the first trade agreement between a developed and a developing country took place and where international trade and investment have been combined with a set of relevant local factors such as regional innovation industrialization patterns multinational corporations modes of operation public investment and national content of exports The book offers researchers a precise identification of stylized facts that characterize the pattern of regional development in Mexico and the US Southwest as well as state of the art applications contrasting hypotheses from new economic geography endogenous and neo Schumpeterian economic growth models and new international trade To graduate and advanced undergraduate students in the fields of spatial geographic economics this book offers an excellent source for its updated review of current topics on regional development in Mexico To policy makers the book helps to identify policy areas to reinforce the dynamics of regional development Whereas other books have looked at the several impacts of NAFTA on national economies productive sectors and societies this book analyzes the trade agreement's impact with a long term view across the diversity of developments of

Mexico's regions As well the analysis is carried out with the perspective of prospective reforms of a renovated trade agreement between the United States and the new Mexican federal administration The collaborators in this book are researchers who are experts at the international and national levels in the field of regional economic development During the last 25 years they have conducted their analyses in different regions of Mexico and the United States as university researchers advisors to state and federal governments and as practitioners
