Economic Reforms In New Democracies:

Economic Reforms in New Democracies Luiz Carlos Bresser Pereira, José María Maravall, Adam Przeworski, 1993-04-30 This assessment of the experiences of political transition in Southern Europe Latin America and Eastern Europe implies that the most successful reforms have been those resolved through democratic negotiation as opposed to the big bang approach

Politicians and Economic Reform in New Democracies Kent Eaton, 2010-11 As economic reform in developing countries has shifted from macroeconomic stabilization to liberalization opportunities for legislators to influence the process and outcome of reform have increased and their role has become more important This book focuses attention on differences in institutional structure in political parties and electoral rules to show how they create incentives that can explain the varying ways in which legislators respond to policy initiatives from the executive branch In Argentina and the Philippines presidents proposed similar fiscal reforms in the 1990s expanding tax bases strengthening tax administration and redesigning tax revenue sharing with subnational governments Drawing on archival research and interviews with policy makers Kent Eaton follows the path of legislation in these three areas from initial proposal to final law to reveal how it was shaped by the legislators participating in the process Obstacles to the adoption of reform he demonstrates are greater in candidate centered systems like the Philippines where the cultivation of personal reputations is paramount than in party centered systems like Argentina s where loyalty to party leaders is emphasized To test his argument further Eaton looks finally at other kinds of reform ventured in these two countries and at tax reforms attempted in some other countries

Party Politics and Economic Reform in Africa's Democracies M. Anne Pitcher,2012-05-07 In *Party Politics and Economic Reform in Africa's Democracies* M Anne Pitcher offers an engaging new theory to explain the different trajectories of private sector development across contemporary Africa Pitcher argues that the outcomes of economic reforms depend not only on the kinds of institutional arrangements adopted by states in order to create or expand their private sectors but also on the nature of party system competition and the quality of democracy in particular countries To illustrate her claim Pitcher draws on several original data sets covering twenty seven countries in Africa and detailed case studies of the privatization process in Zambia Mozambique and South Africa This study underscores the importance of formal institutions and political context to the design and outcome of economic policies in developing countries

The Political Economy of Democratic Transitions Stephan Haggard,Robert R. Kaufman,2018-06-05 In the last two decades there has been a widespread movement from authoritarian to democratic rule among developing countries often occurring against a backdrop of severe economic crises and the adoption of market oriented reforms The coincidence of these events raises long standing questions about the relationship between economic and political change In this book Stephan Haggard and Robert Kaufman explore this relationship addressing a variety of questions What role have economic crises played in the current wave of political liberalization and democratization Can new democracies manage the daunting political challenges posed by economic reform Under what economic and institutional conditions is democracy most likely to be consolidated Drawing on contemporary political economy and the experiences of twelve Latin American and Asian countries they develop a new approach to understanding democratic transitions Haggard and Kaufman first analyze the relationship between economic crisis and authoritarian withdrawal and then examine how the economic and institutional legacies of authoritarian rule affect the capacity of new democratic governments to initiate and sustain economic policy reform Finally the authors analyze the consolidation of political and economic reform over the long run Throughout they emphasize the relationship between economic conditions the interests and power of contending social groups and the mediating role of representative institutions particularly political parties

Reconstructing the Third Wave of Democracy Rita Kiki Edozie,2009 Since the 1990s trends in African politics require the realization that the public policy practice and the theoretical analysis of democracy and democratization are becoming increasingly important tenets for understanding the contemporary political science of the region *Reconstructing the Third Wave of Democracy* explains these new political processes and ideas Author Rita Kiki Edozie identifies factors that Africans have encountered since the foundation of the modern African state and presents a critical analysis of African politics through the lenses of post colonial discourse by uniquely employing the ideas of democratic theory to guide an analysis of the Continent's democratic development and performance Edozie presents an intra regional comparative analysis of democratic politics in Africa in ways that few books on the same subject do for the continent Her

methodology for examining democracy in Africa reveals the dynamism of several country cases and several more regime experiences with democracy encountered from the post World War II period to the current post Cold War period A Grand Delusion Eberhard Kienle, 2001-04-12 The author argues in this text that the much vaunted reform and liberalisation of Egypt's economy has been partial and selective far from beneficial to all Egyptians While the encouragement of the private sector has indeed benefited some it has failed to improve the standard of living of others in particular the lower middle classes and a large part of the landless rural population Most importantly economic reform and liberalisation have failed to produce a greater degree of political democracy notions of political accountability clean elections a genuinely free press the containment of police powers have turned out to be a great delusion which masks restrictions on political participation and civil liberties *Electoral Reform and the Fate of New Democracies* Sarah Shair-Rosenfield, 2019-07-26 When and why do democratic political actors change the electoral rules particularly regarding who is included in a country's political representation The incidences of these major electoral reforms have been on the rise since 1980 *Electoral Reform and the Fate of New Democracies* argues that elite inexperience may constrain self interest and lead elites to undertake incremental approaches to reform aiding the process of democratic consolidation Using a multimethods approach the book examines three consecutive periods of reform in Indonesia the world's largest Muslim majority country and third largest democracy between 1999 and 2014 Each case study provides an in depth process tracing of the negotiations leading to new reforms including key actors in the legislature domestic civil society international experts and government bureaucrats A series of counterfactual analyses assess the impact the reforms had on actual election outcomes versus the possible alternative outcomes of different reform options discussed during negotiations With a comparative analysis of nine cases of iterated reform processes in other new democracies the book confirms the lessons from the Indonesian case and highlights key lessons for scholars and electoral engineers **The Construction of Democracy** Jorge I. Linz, Alfred Stepan, 1996-08-22 Since their classic volume *The Breakdown of Democratic Regimes* was published in 1978 Juan J Linz and Alfred Stepan have increasingly focused on the questions of how in the modern world nondemocratic regimes can be eroded and democratic regimes crafted In *Problems of Democratic Transition and Consolidation* they break new ground in numerous areas They reconceptualize the major types of modern nondemocratic regimes and point out for each type the available paths to democratic transition and the tasks of democratic consolidation They argue that although nation state and democracy often have conflicting logics multiple and complementary political identities are feasible under a common roof of state guaranteed rights They also illustrate how without an effective state there can be neither effective citizenship nor successful privatization Further they provide criteria and evidence for

politicians and scholars alike to distinguish between democratic consolidation and pseudo democratization and they present conceptually driven survey data for the fourteen countries studied Problems of Democratic Transition and Consolidation contains the first systematic comparative analysis of the process of democratic consolidation in southern Europe and the southern cone of South America and it is the first book to ground post Communist Europe within the literature of comparative politics and democratic theory This is an important volume by two major scholars on a central topic one of broad interest to people in comparative politics to those interested in democracy and to regional specialists on Southern Latin America and on Central and Eastern Europe The book will unquestionably be a major contribution to the literature on constructing democratic governance Abraham F Lowenthal University of Southern California What Kind of Democracy? What Kind of Market? Philip D. Oxhorn, Graciela Ducatenzeiler, 1998-12-10 While there is much literature analyzing the politics of implementing economic reforms very little has been written on the social and political consequences of such reforms after they have been implemented The basic premise of this book is that the convergence of many social economic and political ills such as high levels of poverty income inequality criminal violence and the growth of the informal sector in the context of unprecedented levels of political democratization in Latin America presents a paradox that needs to be explained What Kind of Democracy demonstrates how the myriad social problems throughout the region are intimately linked both to a new economic development model and the weaknesses of Latin American democracy This volume brings together prominent scholars from Canada the United States and Latin America representing several different disciplines to analyze ongoing processes of economic social and political change in the region The contributors are Werner Baer Manuel Barrera Juan Alberto Fuentes Yoshiaki Nakano Claudio Paiva Luiz Carlos Bresser Pereira Jean Francois Prudhomme Jorge Schvarzer Francisco Weffort and Francisco Zapata *The Political Economy of Fiscal Reform in Central-Eastern Europe* Frank Bönker, 2006-01-01 Frank Bönker has done a masterful job This is probably the best book available on this important subject and its significance is not limited to studies of postcommunist societies It has important theoretical implications for everyone interested in the Political Economy of Policy Reform perspective within the field of comparative political economy John L Campbell Slavic Review Consolidating Democracy In Poland Raymond Taras, 2019-08-19 A comprehensive analysis of politics in a young European democracy this book describes the principal features of Poland's democratic system the political institutions parties elections and leaders that have shaped the transition from communism Raymond Taras examines the complex Walesa phenomenon the comeback of the communists and the uneasy
