Economic Transition In Central Europe And The Commonwealth Of Independent States:

Economic Transition in Central Europe and the Commonwealth of Independent States T. Mickiewicz, 2005-11-11 Fifteen years ago twenty seven countries in Europe and Central Asia embarked on their economic transition paths For some the outcome was a considerable success Several others are still struggling to shed the inheritance of the past and to correct more recent policy mistakes Why were post Communist recessions so long in some countries and growth disappointing Why was fiscal performance so different Was democracy a factor which facilitated reforms or rather slowed them down This book discusses these questions in the context of new empirical evidence including a critical examination of the main themes in the economics of transition literature *The Commonwealth of Independent States Economies* Marcus Goncalves, Erika Cornelius Smith, 2017-09-11 The year 2016 marks the 25th anniversary of the official inauguration of the Commonwealth of Independent States CIS a free association of sovereign states comprised by Russia and 11 other republics that were formerly part of the Soviet Union Although this loose association of states may not exist as a fixed entity on the globe it is believed that this bloc of countries will continue to build upon the various separate regions in the former Soviet space in the coming decade This book provides a regional analysis and a country scan of the CIS regional block economies It examines its history since the breakup of the formal Soviet Union and the formation of the CIS bloc including creation of regional agreements such as the CIS Free Trade Area and the Eurasian Economic Union which now represents more than 180 million people As a whole our text attempts to better understand current and future prospects for economic growth in the region as well as their individual national challenges The Successes and Failures of Economic Transition H. Gabrisch, J. Hölscher, 2006-08-25 This book takes a macroeconomic approach to the issue of transformation from communist economies into market economies At the centre of the analysis stands the role of the state and the definition within a dramatically changing environment Particular emphasis is given to the emerging role of money and the financial sector *Growth and Change in Post-socialist Cities of Central Europe* Waldemar Cudny, Josef Kunc, 2021-12-29 This book presents multidimensional socio economic transformations taking place in the post socialist cities located in selected countries of the Central European region The analysis includes case studies from the Eastern part of Germany Chemnitz Leipzig Poland d Kielce Katowice conurbation and peripheral urban centres from Eastern Poland Slovakia Bratislava Nitra the Czech Republic Olomouc Brno and from Hungary P cs The analysed urban areas have undergone far reaching political and socio economic changes in the last 30 years These changes began with the collapse of communism and the centrally planned economy system in the region of Central Europe The beginning of this period often referred to as post socialist transformation dates back to 1989 The consequence of the aforementioned political processes was the multifaceted socio economic and demographic changes that significantly affected urban areas in Central Europe This book presents an attempt to summarize the main long term processes of changes taking place in these urban areas and to identify contemporary and future trends in their socio economic development The book will

be valuable to undergraduate and postgraduate students in human geography urban studies economy and city marketing especially with an interest in Central Europe

Handbook of the Economics and Political Economy of Transition Paul Hare, Gerard Turley,2013-05-02 Transition from central planning to a market economy involving large scale institutional change and reforms at all levels is often described as the greatest social science experiment in modern times As more than two decades have passed since the fall of the Berlin Wall and the collapse of the Soviet Union it is now an excellent time to take stock of how the transition process has turned out for the economies that have moved on from socialism and the command economy This new handbook assembles a team of leading experts many of whom were closely involved in the transition process as policymakers and policy advisors to explore the major themes that have characterized the transition process After identifying the nature of initial conditions and the strengths and weaknesses of institutions the varying paths and reforms countries have taken are fully analyzed from the shock therapy privatization or gradualism of the early years to the burning issues of the present including global integration and sustainable growth Topics covered include the socialist system pre transition economic reforms institutions the political

economy of transition performance and growth enterprise restructuring and people and transition The country coverage is also extensive from the former socialist countries of the USSR and the satellite states of Central and Eastern Europe to the Asian countries of China Vietnam and others The rise of China as a key actor in the drama is chronicled along with the emergence of a new more confident oil rich Russia The comparative prosperity of the Central European countries such as Poland and the Czech Republic is contrasted with the mixed fortunes of the former USSR where some countries are stagnating while others boom This Handbook of the Economics and Political Economy of Transition is the definitive guide to this new order of things in the former Communist world **Transition, Recession and Labour Supply** Paolo

Verme,2020-11-25 This title was first published in 2001 Exploring the relationship between the recession and labour supply in Kazakhstan during the 1990s this volume develops an innovative new model of the transitional process in the context of the CIS It departs from conventional economic models explaining the process of transition transferring the focus of attention from labour demand to labour supply with a view to clarifying how the transitional recession has affected households and in turn how these changes modified the supply of labour Paolo Verme examines how the dynamic of the reallocation of labour between state and private enterprises has been drastically altered by the growth of self employment and also takes a much needed look at the contribution of other factors offering an original explanation of this most important economic phenomenon
