Bagachwa, Ammon Mbelle, 1993 *Race, Nation, and Citizenship in Post-Colonial Africa* Ronald Aminzade, 2013-10-31 Introduction Part I The struggle for independence and birth of a nation Colonialism racism and modernity Foreigners and nation building Race and the nation building project Part II The socialist experiment African socialism the challenges of nation building Socialism self reliance and foreigners Nationalism state socialism and the politics of race Part III Neoliberalism global capitalism and the nation state Neoliberalism and the transition from state socialism to capitalism Neoliberalism foreigners and globalization Neoliberalism race and the global economy Conclusion race nation and citizenship in historical and comparative perspective **The Nyerere Legacy and Economic Policy Making in Tanzania** Ammon Mbelle, Godwin D. Mjema, Ali A. L. Kilindo, 2002 For a great leader like the late Mwalimu Julius Kambarage Nyerere a single book is not adequate to capture all his thoughts Nevertheless *The Nyerere Legacy and Economic Policy Making in Tanzania* reflects on some of Nyerere's thoughts on poverty the productive sector delivery of social services the external sector fiscal issues the environment and governance issues specifically corruption **The Industrial Experience of Tanzania** A. Szirmai, P. Lapperre, 2001-08-14 The central aim of *The Industrial Experience of Tanzania* is to explain why the Tanzanian manufacturing sector experienced a long period of stagnation after an initial phase of rapid industrial growth Tanzania has been an extreme case with a high level of state intervention but the contributors show that there are lessons to be learnt here for African economies in general The analysis includes previously unpublished data and presents important conceptual and methodological advances **Contextualising Poverty in Tanzania** Werner Biermann, H. P. B. Moshi, 1997 This volume co published with Dar es Salaam University Press includes an introduction by Werner Biermann and the important subject of contextualizing poverty in Africa *Thirty Years of Public Sector Reforms in Africa* Paulos Chanie, Paschal B. Mihyo, 2013 Over the past three decades African countries have been reforming their public sector with a view to improving efficiency effectiveness accountability and transparency as part of efforts to improve the delivery of public services Reform actions have included privatisation public private partnerships commercialisation and adoption of private sector approaches in managing public organisations This book put together by OSSREA reviews measures by African countries in that regard the extent to which the measures have achieved their intended results as well as the factors behind the failure to achieve those results where this was the case *Working the System in Sub-Saharan Africa* Corrado Tornimbeni, 2014-07-08 What is the extent to which democracy good governance liberal citizenship and development are negotiated and shaped in sub Saharan African countries in the context of the globalised world Is this a characteristic of the current historical era alone Do global ideas about politics and development in sub Saharan Africa take on new meanings in light of local circumstances and visions The works presented in this volume offer context based analyses that contribute to showing how local practices of citizenship democracy and development in sub

Saharan Africa have been working the system of global ideas on good governance policies and development and how this system also builds on the way in which historically local narratives are presented to actors in the international context Democracy and good governance are considered the universally shared paradigms shaping policy prescriptions and development practices in the context of the current globalised world Space for negotiating these recipes at the local level is considered to be particularly narrow especially in sub Saharan Africa but it is also believed that international paradigms are reshaped into peculiar forms when implemented under local circumstances From the early 1990s onwards these processes have drawn the attention of academics as well as the wider public but rarely is their historical dimension taken into account the Africa world nexus in politics and development is not a characteristic of the current global world alone as is too often assumed Adding an historical perspective to the analysis of the multilevel interconnections between local power relations the politics of colonial and independent rule and the global discourses of democracy citizenship and development will contribute to a sound theoretical stance in addressing what is considered the main feature of current times globalisation and its flows That is what this volume tries to accomplish It does so by developing three themes in particular the trajectory of the colonial and independent nation state and its impact on the local and national politics of citizenship identity and development the way global ideas on development are converted into practice or how they are interpreted and negotiated at local level and issues of belonging and identity in relation to concepts and practices of political control Case studies will include Portuguese colonialism Mozambique Tanzania Zimbabwe Senegal Casamance and Uganda *Silent Violence* Vinay R.

Kamat,2013-12-05 Seeking to link social economic and political forces to local experiences of sickness and suffering *Silent Violence* analyzes the experiences and practices of people most deeply affected by malaria Vinay Kamat explores the experience of individuals and households confronted by malaria against the backdrop of social and health issues Provided by publisher **Changing the Rules** Aili Mari Tripp,2023-04-28 *Changing the Rules* The Politics of Liberalization and the Urban Informal Economy in Tanzania provides a comprehensive examination of Tanzania s informal economy highlighting its critical role as both a survival mechanism and a force for political and economic change Amid the economic crises of the 1980s Tanzanians increasingly turned to informal activities to bridge the vast gap between formal wages and the cost of living This shift not only redefined economic participation but also challenged the statist and socialist frameworks that had dominated Tanzania s post independence policies The book explores how the informal economy reshaped dependencies strengthened grassroots initiatives and exerted pressure on the state to adapt through liberalization and reform The study delves into the socio political dynamics underlying this transformation from the emergence of new economic practices to the state s reluctant acknowledgment of these activities By documenting the interplay between everyday resistance and policy shifts the book reveals how informal economic strategies undermined restrictive state norms and forced significant institutional changes Through chapters that analyze household dynamics gendered economic roles and shifting state society

relations the author presents a nuanced picture of how Tanzanians redefined survival and governance This book is essential for understanding how grassroots economic adaptations can drive systemic transformation in developing nations This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977      *Agencies in Foreign Aid* Goran Hyden,Rwekaza Mukandala,1999-06-03 In contrast to the bulk of the literature on foreign aid which deals with it as an instrument of foreign policy or focuses on problems of implementation this book examines the role of the aid agencies themselves from a recipient s perspective and provides longitudinal as well as comparative analysis The principal aid agencies of China Sweden and the United States began their operations in Tanzania simultaneously in the early 1960s but from very different ideological premises Nonetheless they all fell into operational traps that have limited the effectiveness of their contributions to Tanzanian development The editors draw lessons about how foreign aid if it is going to continue needs to be reformed at the agency level      *Developing a Sustainable Economy in Cameroon* Aloysius Ajab Amin,2008 Developing a Sustainable Economy in Cameroon is an ambitious effort as the authors try to set a blue print for Cameroon s economy In the 1980s facing economic crisis and as dictated by the structural adjustment programme Cameroon sharply cut public investment expenditures before later cutting government consumption which were followed by privatisation liquidation of public companies and reduction in the size of the public sector All these measures are believed to have had devastating effects on the economy Given the performance of the economy so far the authors suggest that much more effort with a strong commitment of the main stakeholders is required to guarantee sustainable economic development in Cameroon Truly very few countries in Africa possess such enormous human and natural resources as Cameroon does This volume brings out the challenges Cameroon faces in its quest for development as well as for designing appropriate strategies for addressing those development challenges      **Policy Reform and the Environment in Tanzania** Mboya S. D. Bagachwa,Festus Limbu,1995      *Structural Adjustment, Reconstruction and Development in Africa* Kempe Ronald Hope,2019-06-04 First published in 1997 this volume is intended to make a contribution to both the literature and the contentious debate on the relationship between structural adjustment and reconstruction and development in Africa as seen from the multidisciplinary perspective of academics and practitioners working in Africa on African development problems and issues The implementation of structural adjustment in Africa has spawned a considerable and still on going debate with vociferous advocates on both sides of the issue particularly with respect to the efficacy of structural adjustment programmes SAPs as an antidote to Africa s development crisis This book contributes to that debate with a rich mixture of analytical views and ideas covering a wide range of countries and sectors on the role and impact of structural adjustment programmes on the process of reconstruction and development in Africa

*Departures from Post-colonial Authoritarianism* Elke Grawert, 2009 This study sends the reader on an exciting journey into social and political life in Africa It gives space to the voices of Tanzanian villagers rural associations branches of political parties and local government officers and their views of socio economic and political change during the 1990s This authentic picture is combined with a thorough sociological and political economy analysis showing the dynamics in the relations between state components and social forces in the context of neo liberal globalization The book is not only attractive as a country case study It contains a deep analysis of the paradigmatic shift of African political systems from post colonial rule to governance in response to neo liberalism and provides new insights in processes of political transformation **Tanzania**

**Under Mwalimu Nyerere** Godfrey Mwakikagile, 2006 Nyerere's economic policies his successes and failures in pursuit of economic development under socialism are some of the subjects addressed by the author in this book A Tanzanian himself he also looks at how life was under Nyerere since the sixties The work is also a critical examination of the political situation in Tanzania since independence when the country was known as Tanganyika before uniting with Zanzibar The author also looks at the transition that has taken place in Tanzania from one party rule to multiparty democracy and from socialism to capitalism since the collapse of the Soviet Union and the end of the Cold War He also takes a critical look at globalization and the negative impact of structural adjustment programmes in Tanzania and Africa as a whole The work is also a study of Tanzania's history since the advent of colonial rule and of the struggle for independence in one of Africa's largest countries

**The African Journal of Finance and Management**, 2003 **Development Economics and Social Justice** John Thoburn, 2017-11-28 Professor Ian Livingstone is one of a small group of British development economists who have achieved international renown and recognition The objective of this book is to pay tribute to his life's work particularly those aspects which related to key but challenging development issues These issues include at a broad level the understanding of the economic forces determining the development of low income economies more detailed micro work on agricultural development irrigation in particular decentralisation and local government finance small scale enterprises and large scale manufacturing development Themes running through his work relate to his over riding concern for rigour and for socio economic justice Ian Livingstone consistently used the traditional tools of economic analysis as a means to increase understanding of development issues in a way which was itself just as radical as the contributions of political scientists and sociologists This volume has been produced with similar aims **Lethal Aid** Severine Mushambampale Rugumamu, 1997 Despite massive infusions of financial and technical assistance from the northern hemisphere Africa is worse off today economically societally and environmentally than it was 30 years ago But were economic development poverty alleviation and democracy ever actually the objectives of either donor or recipient states in the first place To what extent was the limitless potential of the self reliance strategy foreclosed by the corrupting power of foreign aid As much as military power propaganda or diplomacy aid is realistically and essentially one of the economic instruments of statecraft and as such has

historically been used as a policy tool for various attempts at influence While policies and strategies on both sides of the aid process may give primacy of place to development actual practice almost invariably reveals the opposite as donor and recipient alike employ aid resources to pursue their respective national class or even regime interests Through the Tanzanian experience of Big Brother s helping hand the author examines the true role of foreign aid in the development process and exposes certain widely held myths about that role
