Repertorium Van de Wijsbegeerte , 1993 *The Japanese Ideology* Tosaka Jun, 2024-09-17 A major Marxist thinker and critic in 1930s Japan Tosaka Jun was among the world s most incisive yet underrecognized theorists of capitalism fascism and ideology during the years before World War II The Japanese Ideology is his masterpiece first published in 1935 as Japan and the world plummeted into an age of reaction Tosaka offers a ruthless philosophical critique of contemporary ideology that

exposes liberalism's deep complicity with fascism. The Japanese Ideology provides a materialist analysis of the reactionary ideology then overtaking Japan with profound significance for anywhere fascism has taken root. Modeled after Marx and Engels's The German Ideology, it critiques idealism as the common ground for liberalism and fascism against which only historical materialism can suffice. Tosaka demonstrates how liberal and fascist ideas at once justified and concealed Japan's colonization of East Asia and he investigates the many traces of fascism in Japanese thought and society. The Japanese Ideology makes an important intervention in Marxist theory by criticizing reliance on the East-West binary and the notion of the Asiatic mode of production. Robert Stolz's translation introduces Anglophone readers to a classic of twentieth-century Marxist thought by an unsung peer of Gramsci and Benjamin with striking relevance today. **Sociological Abstracts** Leo P. Chall, 1998 An Encyclopedic Dictionary of Marxism, Socialism and Communism Jozef Wilczynski, 1981 Encyclopaedia on Marxism socialism and communism political theory economic theory social theory **Encyclopedia of Political Thought** Garrett Ward Sheldon, 2001 Presents articles on concepts, issues, and notable persons related to politics and political science throughout history **Radical Philosophy**, 1984 **The Social Lens** Kenneth Allan, 2010-05-13 The Social Lens: An Invitation to Social and Sociological Theory, Second Edition, is an upper-division undergraduate social theory textbook that introduces the student to the major classical and contemporary theorists. The theorists were chosen for the diversity of their perspectives as well as their ability to introduce the student to contemporary theory. Dr. Allan uses a lively, informative writing style to engage the students in the eras of social change that spawned the major sociological theories and then applies them to the current era, which also is experiencing major social change.
