Hans Küng Karl-Josef Kuschel, Hermann Häring, 1993 To mark the occasion of Hans Kung s sixty fifth birthday this volume was prepared by various writers thinkers and religious leaders to celebrate Kung s life and his theology The contributors themselves illustrate the extent of Kung s influence as they come not only from Switzerland and Germany but from Britain and Ireland the United States Latin America Saudi Arabia and Russia and represent not only Christianity but Judaism Islam and Buddhism Together these contributors reflect on the many circles of thought that have made up Kung s remarkable intellectual career ecclesiology christology theology and ecumenicism first within Christianity and then to the entire world in the form of a global ethic In spite of Kung s continued expansion into wider horizons of faith and thought his basic theological insights have remained remarkably constant throughout his long career He has been less influenced by fashion than many other theologians demonstrating a constancy of conviction and coherence of theological method Kung has however set the fashion for others as he has brought and continues to bring attention to highly topical and critical issues of the current day This volume is a fascinating critical survey of a remarkable theologian s life and thought It provides a real understanding of Kung s theology its strengths and weaknesses its limitations and its riches Finally it aims toward rehabilitating Hans Kung as a Catholic theologian As Heinrich Fries one of the great figures of Roman Catholic ecumenical theology recently asked Is the Catholic church so narrow that it cannot tolerate a man like Kung Or is it so rich that it can dispense with him
