connection disdain and discouragement and limited patience or hope These couples have often tried therapy without lasting success and announce that this is our last chance Partners want to see evidence in the first session that the therapist can offer something new and that change is possible Peter Fraenkel presents a practical creative integrative approach that combines action and insight oriented techniques to help last chance couples manage conflict modulate intense negative emotions address power struggles develop mutual compassion and restore emotional intimacy and pleasurable connection Special attention is paid to developing a collaborative therapeutic alliance when partners have little motivation for therapy or faith that it can be effective Through engaging in nonbinding experiments in possibility partners can then better evaluate whether to stay or go

Interpersonal Emotion Dynamics in Close Relationships Ashley K. Randall, Dominik Schoebi, 2018-09-27 Synthesizes theory methods and applications of research on interpersonal emotion dynamics associated with the development and maintenance of close relationships

Toward an Integrated Science of Wellbeing Elizabeth Rieger, Robert Costanza, Ida Kubiszewski, Paul Dugdale, 2023 There has always been interest in understanding what constitutes the good life Starting with early philosophical writings sustainable wellbeing at multiple scales from physical and psychological health through to the societal and environmental has been a fundamental goal Much has been written at each of these scales from the perspectives of psychology medicine economics social science ecology and political science However their interconnections have received far less attention even though the identification of these interdependencies is critical to the comprehensive understanding and advancement of wellbeing

Cognition in Close Relationships Garth J.O. Fletcher, Frank D. Fincham, 2013-05-13 The past decade has witnessed an explosion of interest and research on close relationships and social cognition In both areas numerous handbooks textbooks and journal articles have been published However it is the editors impression that although cognitive theories and concepts have filtered through to research dealing with close relationships much of this research reflects a relatively untutored understanding of the theoretical and empirical work in social cognition Conversely the research literature that provides a more sophisticated perspective on the role of cognition in close relationships typically reveals a relatively limited knowledge of the literature on close relationships As researchers who have worked in both social cognitive processes and close relationships Fletcher and Fincham are convinced that each field has much to offer the other In fact their book is based on two important postulates first that a social cognitive framework offers a valuable resource for developing our understanding of close relationships and second that studying cognition within close relationships has the potential to inform our understanding of basic social cognitive processes
