Elementary Mathematics Curriculum Materials Janine T. Remillard,Ok-Kyeong Kim,2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors *Choices & Changes in Life, School, and Work, Grade 2-4* Jim Charkins,National Council on Economic Education,2001 This publication contains complete instructions for teaching the lessons in Choices and Changes Grades 2-4 The Choices and Changes series is designed to help students understand how the U S economy works and their roles in the economy as consumers savers and workers **Young Adult Nonfiction** Judith A. Hayn,Jeffrey S. Kaplan,Amanda L. Nolen,Heather A. Olvey,2015-11-19 No matter the location schools are guided by standards including Common Core State Standards This collection of contributions by some of the country's leading literacy experts offers practical suggestions for implementing young adult literature to meet the demand that

standards mandate for focusing on nonfiction in teaching literacy The challenges to CCSS abound and teachers who are currently seeking avenues to reach their students no matter what content they teach will find the strategies and suggestions useful The text advocates using young adult literature to accomplish content area literacy and is intended as a primer for those who are building curriculum
