A Cultural History of Tarot Helen Farley, 2009-08-13 The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages such as The Tower The Wheel of Fortune The Hanged Man and The Fool over which loom the terrifying figures of Death and The Devil The 21 numbered playing cards of tarot have always exerted strong fascination way beyond their original purpose and the multiple resonances of the deck are ubiquitous From T S Eliot and his wicked pack of cards in *The Waste Land* to the psychic divination of *Solitaire* in Ian Fleming s *Live and Let Die* and from the satanic novels of Dennis Wheatley to the deck s adoption by New Age practitioners the cards have in modern times become inseparably connected to the occult They are now viewed as arguably the foremost medium of prophesying and foretelling Yet as the author shows originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance It was only much later in the 18th and 19th centuries that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind body and spirit This is the first book to explore the remarkably varied ways in which tarot has influenced culture Tracing the changing patterns of the deck s use from game to mysterious oracular device Helen Farley examines tarot s emergence in 15th century Milan and discusses its later associations with astrology kabbalah and the Age of Aquarius

Making Sense of Teaching in Difficult Times Penny Burke, Suellen Shay, 2017-10-02 Thinking about teaching in educational terms has become increasingly difficult because of the conceptions of higher education that predominate in both policy and public debate Framing the benefits of higher education simply as an economic good poses particular difficulties for making educational sense of teaching Moreover the assumptions about social mobility usefulness and the economic advantages of higher education upon which these conceptions are based can no longer be taken for granted The chapters in this book all wrestle with understandings of education and teaching experiences in changing global national and institutional contexts They explore questions of difference and privilege the social transformation of teaching through transforming teachers contestations of global citizenship and interculturality learning and sensibilities of self in the world the relationship between programme content and student decision making divergent conceptions of learning in international education and subject centred approaches to embodied teaching The book considers the value of disciplinary tools of analysis in addressing contextual challenges in developing societies connections between pedagogies autonomy and intercultural classrooms and ways of countering the marketization of higher education through online teaching communities This book was originally published as a special issue of Teaching in Higher Education

Furthering Humanity T.J. Gorringer, 2017-03-02 How should we reflect theologically about culture Tim Gorringer presents a threefold and interrelated reflection organised around culture power and mission First Gorringer interrogates culture through contemporary cultural studies but also through the contribution of the great eighteenth century theologian J G Herder He concludes by considering the question of cultural imperialism Secondly

Gorringe asks where power is located in culture and how the church relates to that arguing that the central theses of liberation theology are far from dead The third part turns to questions of mission asking whether this is morally feasible in a culturally pluralist world and considering the implications of Samuel Huntington s notorious thesis of the clash of civilizations Gorringe argues that mission is in fact a vital part of a respectful multicultural society *Travels into Print* Innes M. Keighren, Charles W. J. Withers, Bill Bell, 2015-05-11 In eighteenth and nineteenth century Britain books of travel and exploration were much more than simply the printed experiences of intrepid authors They were works of both artistry and industry products of the complex and often contested relationships between authors and editors publishers and printers These books captivated the reading public and played a vital role in creating new geographical truths In an age of global wonder and of expanding empires there was no publisher more renowned for its travel books than the House of John Murray Drawing on detailed examination of the John Murray Archive of manuscripts images and the firm s correspondence with its many authors a list that included such illustrious explorers and scientists as Charles Darwin and Charles Lyell and literary giants like Jane Austen Lord Byron and Sir Walter Scott *Travels into Print* considers how journeys of exploration became published accounts and how travelers sought to demonstrate the faithfulness of their written testimony and to secure their personal credibility This fascinating study in historical geography and book history takes modern readers on a journey into the nature of exploration the production of authority in published travel narratives and the creation of geographical authorship a journey bound together by the unifying force of a world leading publisher *Learning Across Borders* Amy Hodges, Leslie Seawright, 2016-01-14 Universities everywhere are witnessing growing numbers of students in cross border international and transnational spaces This trend has resulted in many educators revising their curricula pedagogical approaches and assumptions about what it means to provide a university education in the 21st century This edited collection contributes to a growing body of research in international and transnational education by looking back and looking forward at globalisation s impact on higher education The authors in this volume provide a solid base of theoretical knowledge and practical applications to readers in similar situations With growing numbers of students and teachers moving physically and virtually across international borders their expertise is needed The collection contains authors from Germany Ghana Qatar Saudi Arabia Singapore and the United States of America and from varied disciplines such as education English language teaching higher education administration indigenous studies literature mathematics rhetoric and composition and writing centre studies **Changing Theories And Practices Of Discipline** Roger Slee, 2020-04-03 Behaviour problems in our schools occupy a considerable part of the education agenda and media attention The major thrust of the literature has been on the provision of new classroom management approaches Too often these packages are inappropriate to the specific context of the school and its pupils There are no quick fix solutions In this book Slee proposes a critical re examination of the school discipline issue In doing so he provides an overview of policy change an examination of the major schools of thought

on student discipline a reconsideration of the context in which young people teachers and schools now find themselves and practical responses for addressing all levels of discipline policy making **Books in Print** ,1991 *A Companion to the Victorian Novel* Patrick Brantlinger,William Thesing,2005-03-25 The Companion to the Victorian Novel provides contextual and critical information about the entire range of British fiction published between 1837 and 1901 Provides contextual and critical information about the entire range of British fiction published during the Victorian period Explains issues such as Victorian religions class structure and Darwinism to those who are unfamiliar with them Comprises original accessible chapters written by renowned and emerging scholars in the field of Victorian studies Ideal for students and researchers seeking up to the minute coverage of contexts and trends or as a starting point for a survey course
