Power, Affect, and Identity in the Linguistic Landscape Xiaofang Yao, 2024-12-13 Uncovering the complexity of linguistic diversity and semiotic creativity this book examines the issues of power affect and identity in both physical and digital linguistic landscapes Based on fieldwork with various Chinese communities in Australia the book offers unique insights into the uses of languages semiotic resources and material objects in public spaces and discusses the motives and ideologies that underline these linguistic and semiotic practices Each chapter frames the sociolinguistic issue emerging from the linguistic landscape under investigation and shows readers how the personal trajectories of individuals the availability of semiotic resources and the historicity of spaces collectively shape the meanings of publicly displayed language items in offline and online spaces Supported by a wealth of interviews media and archival data the book not only advances readers understanding of how linguistic landscape is structured by various historical political and sociocultural factors but also enables them to reimagine the linguistic landscape through the lens of emerging digital methods This book is an ideal resource for researchers advanced undergraduates and graduate students of applied linguistics and sociolinguistics who are interested in the latest advances in linguistic landscape research within virtual and material contexts

[Jewish Spain](#) Tabea Alexa Linhard, 2014-06-04 What is meant by Jewish Spain The term itself encompasses a series of historical contradictions No single part of Spain has ever been entirely Jewish Yet discourses about Jews informed debates on Spanish identity formation long after their 1492 expulsion The Mediterranean world witnessed a renewed interest in Spanish speaking Jews in the twentieth century and it has grappled with shifting attitudes on what it meant to be Jewish and Spanish throughout the century At the heart of this book are explorations of the contradictions that appear in different forms of cultural memory literary texts memoirs oral histories biographies films and heritage tourism packages Tabea Alexa Linhard identifies depictions of the difficulties Jews faced in Spain and Northern Morocco in years past as integral to the survival strategies of Spanish Jews who used them to make sense of the confusing and harrowing circumstances of the Spanish Civil War the Francoist repression and World War Two Jewish Spain takes its place among other works on Muslims Christians and Jews by providing a comprehensive analysis of Jewish culture and presence in twentieth century Spain reminding us that it is impossible to understand and articulate what Spain was is and will be without taking into account both Muslim Spain and Jewish Spain

Quixotic Modernists Louise Ciallella, 2007 Quixotic Modernists gives close readings of two novels by two little studied writers of the early twentieth century in Spain Felipe Trigo's *Las ingenuas* 1901 and Maria Martinez Sierra's *Tu eres la paz* 1906 in relation to the canonical *Tristana* by Benito Perez Galdos Spain's greatest nineteenth century novelist This study shows the modern message regarding gender and modernist qualities of the prose of these works Included are discussions of Quijote intertexts proverbial language and tactics the angel and the *mujer nina* flower water and animal imagery and visual arts in relation to gender definition Also included are contemporary responses to the novels and material about the authors' lives and Spain's social conditions in the early twentieth century Quixotic Modernists integrates these themes into a study of the novelization of difficulties in transforming contemporary gender and class roles In all three authors' works this process of change in roles for both men and women becomes a quixotic enterprise in which artists as and characters search to reconnect with an elusive material social body *Handbook of Language and Ethnic Identity* Joshua Fishman, Ofelia Garcia, 2011-04-21 Like the first volume The Handbook of Language and Ethnic Identity Volume 2 is a reference work on the interconnection between language and ethnic identity In this volume 37 new essays provide a systematic look at different language and ethnic identity efforts assess their relative successes and failures and place the cases on a success failure continuum The reasons for these failures and successes and the linguistic social and political contexts involved are subtle and highly complex Some of these factors have to do with whether the language is considered a dialect as in the cases of Bavarian Ebonics and Scots considered to be dialects of German American English and British English respectively Other factors have to do with government policy as in the cases of Basque and Navajo Still other factors are historical such as the way Canaanite was supplanted in present day Israel by another classical language Hebrew Although the volume offers considerable sophistication in the treatment of language ethnicity and identity it has been written for the non specialized reader whether student or layperson The contributors are an international group of well known scholars in a range of fields

Fishman and Garcia provide a detailed introduction that addresses the difficulty of assessing the success or failure of a language. They also present a conclusion that integrates the data presented in the volume.

Turn Left at the Sleeping Dog John Pen La Farge, 2006-11 The interviews collected in this book preserve the old Santa Fe the one people are still looking for. The interviewees represent a cross section of Santa Fe during the best of times: native Santa Feans, both Spanish American and Anglo artists, immigrants, those who came by accident, those who came intending to stay, those who fought to preserve the older cultures, traditions and values.

The Antiquarian, 1923 *The Conquest of Mexico* Serge Gruzinski, 2014-02-20 The Conquest of Mexico is a brilliant account of the Spanish conquest of Mexico written from a new and unfamiliar angle. Gruzinski analyses the process of colonization that took place in native Indian societies over three centuries, focusing on disruptions to the Indians' memory, changes in their perception of reality, the spread of the European idea of the supernatural, and the Spanish colonists' introduction of alphabetical script, which the Indians had to combine with their own traditional oral and pictorial forms of communication. Gruzinski discusses the Indians' often awkward initiation into writing, their assimilation of Spanish culture, and their subsequent reinterpretation of their own past, and recovers the changing Indian perceptions of the sacred and their absorption of elements from the Christian tradition. The Conquest of Mexico is a major work of cultural history which reconstructs a crucial episode in the European colonization of the New World. It is also an important contribution to the study of the relationship between memory, orality, images, and writing in history.
