Thomas Hardy's Novel Universe Pamela Gossin, 2007 In the first book length study of astronomy in Hardy's writing historian of science and literary scholar Pamela Gossin offers complex and inspired readings of seven novels that enrich previous Darwinian feminist and formalist perspectives on his work S      *Thomas Hardy and the Survivals of Time* Andrew Radford, 2017-03-02 A systematic exploration of Thomas Hardy's imaginative assimilation of particular Victorian sciences this study draws on and swells the widening current of scholarly attention now being paid to the cultural meanings compacted and released by the nascent sciences of man in the nineteenth century Andrew Radford here situates Hardy's fiction and poetry in a context of the new sciences of humankind that evolved during the Victorian age to accommodate an immense range of literal and figurative excavations then taking place Combining literary close readings with broad historical analyses he explores Hardy's artistic response to geological archaeological and anthropological findings In particular he analyzes Hardy's lifelong fascination with the doctrine of survivals a term coined by E B Tylor in *Primitive Culture* 1871 to denote customs beliefs and practices persisting in isolation from their original cultural context Radford reveals how Hardy's subtle reworking of Tylor's doctrine offers a valuable insight into the inter penetration of science and literature during this period An important aspect of Radford's research focuses on lesser known periodical literature that grew out of a British amateur antiquarian tradition of the nineteenth century His readings of Hardy's literary notebooks disclose the degree to which Hardy's own considerable scientific knowledge was shaped by the middlebrow periodical press Thus *Thomas Hardy and the Survivals of Time* raises questions not only about the reception of scientific ideas but also the creation of nonspecialist forms of scientific discourse This book represents a genuinely new perspective for Hardy studies      **Thomas Hardy** Thomas

Hardy, 1992 Included in this edition are ten stories varying in length from sketch to novella which were never collected into volumes during Hardy's lifetime. Some contained references to actual people or plot elements that he reused elsewhere; others such as his only stories for children were simply too different from his other work in the short story form. The longest, *An Indiscretion in the Life of an Heiress*, was apparently left uncollected to allow for a possible reconstruction of the lost novel *The Poor Man and the Lady* from which it was drawn. The three final stories resulted from literary collaborations which were also emotional involvements with Florence Henniker in *The Spectre of the Real* and with Florence Dugdale later the second Mrs Hardy in *Blue Jimmy*. *The Horse Stealer* and *The Unconquerable* now published for the first time. Although all of these stories occupy significant positions within Hardy's career as a writer of fiction, extending that career indeed both earlier and later than the standard account would allow, none of them has previously received serious editorial treatment. For the most part they have also been ignored or lightly passed over by critics and biographers, and such discussion as they have aroused has frequently been based on false assumptions. This edition remedies some of these deficiencies in Hardy scholarship both in its historical introductions and in its critically edited texts which are based on full collations of all editions published before Hardy's death and all surviving manuscripts, typescripts and proofs, many of which have gone almost entirely unexamined in the past. Complete lists of the variants in these pre-publication witnesses and in all authorially authorized printings supplement the edited texts.

**Hardy's Geography** R. Pite, 2002-09-13 Hardy's Geography reconsiders a familiar element in Hardy's novels: their use of place and specifically of Dorset. Hardy said his Wessex was a partly real, partly dream country. This study examines how reality and dream interact in his work. Should we look for a real place corresponding to Casterbridge? What is the relation between one person's feelings for a place and society's view of it? Pite concludes that Hardy addresses these issues through a distinctive regional awareness.

**Thomas Hardy** Ralph Pite, 2007-01-01 A portrait of the enigmatic nineteenth-century novelist and poet discusses his humble origins, rise through the London literary scene and efforts to guard his privacy.

*Thomas Hardy and the Comic Muse* J. K. Lloyd Jones, 2009-03-26 There has long been a tendency to regard Thomas Hardy as a great tragic writer and to ignore or underestimate the value of his comic works. This derives no doubt partly from the fact that comedy as an art form has been consistently undervalued ever since Aristotle dealt with it so slightly and so slightly. It also stems from the evident inability of some readers and critics to allow an artist a wide scope and multiple voices. Thomas Hardy and the Comic Muse discusses the nature of comedy and the various theories that purport to explain or define it and examines Hardy's works—novels, short stories and poetry—in terms of the categories of farce, humour, satire and wit. It looks at where and why Hardy made use of these forms of comedy, what his historical sources were and why this side of his work has been so frequently neglected. It also looks at what insights might be offered by Hardy both directly and indirectly to answer the difficult but always tantalizing question: what is comedy? The two subjects, Hardy and Comedy, are counterpointed throughout.

so that they prove to be mutually illuminating      **Thomas Hardy: Wessex Poems** Trevor Johnson,2019-07-31 A look at Thomas Hardy's Wessex Poems      Hardy's Lyrics B. Green,2016-04-29 Thomas Hardy frequently insisted that his poems were not self expressive but dramatic or impersonative Yet biographical expositions have dulled their impersonality Brian Green's approach is more exacting and rewarding taking Hardy at his word he traces Hardy's master theme throughout the corpus of poems a governing concern which merges Victorian and perennial ideas throughout the whole of Hardy's writings

**Gardens and Grim Ravines** Pauline Fletcher,2017-03-14 This book is the first systematic examination of the significance of landscape in Victorian poetry Pauline Fletcher divides poetic landscapes into two categories antisocial landscapes of isolation or retreat and social landscapes that reflect the life of man in community Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      A Reference Guide for English Studies Michael J. *Gambling in the Nineteenth-Century English Novel* Michael Flavin,2003-01-01 This text explores the theme of gambling in a range of 19th century English novels It examines the representation of gambling in the novels the role that gambling played in the lives of the novelists and gambling in the novels within the context of the development of Victorian society

**Representations of Hair in Victorian Literature and Culture** Galia Ofek,2016-12-05 Galia Ofek's wide ranging study elucidates the historical artistic literary and theoretical meanings of the Victorians' preoccupation with hair Victorian writers and artists Ofek argues had a well developed awareness of fetishism as an overinvestment of value in a specific body part and were fully cognizant of hair's symbolic resonance and its value as an object of commerce In particular they were increasingly alert to the symbolic significance of hairstyling Among the writers and artists Ofek considers are Elizabeth Gaskell George Eliot Margaret Oliphant Charles Darwin Anthony Trollope Elizabeth Barrett Browning Eliza Lynn Linton Mary Elizabeth Braddon Herbert Spencer Dante Gabriel Rossetti Edward Burne Jones Charles Dickens Thomas Hardy and Aubrey Beardsley By examining fiction poetry anthropological and scientific works newspaper reviews and advertisements correspondence jewellery paintings and cartoons Ofek shows how changing patterns of power relations between women and patriarchy are rendered anew when viewed through the lens of Victorian hair codes and imagery during the second half of the nineteenth century
