BILLARDIERA LONGIFLORA Blue Apple Berry Van Diemen's Land 1810 If only for its rich blue berries as large as those of a cherry this otherwise elegant climbing shrub is well worthy of a far greater share of attention than it has yet received for it must be admitted that it is far from common The greenish bell shaped blossoms produced in May are perhaps not very attractive but this is more than compensated for by the highly ornamental fruit which renders the plant an object of great beauty about mid September      **Hardy Ornamental Flowering Trees and Shrubs**, 1908      Hardy Ornamental Flowering Trees and Shrubs A. **designers** Ray Desmond,2020-12-23 Over the past four centuries botanists and gardeners in the British Isles have gathered maintained and propagated many varying species of plants Their work has been documented in innumerable books and articles which are often difficult to trace The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed

The dictionary's utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts. The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists, botanic artists and archivists. In this revised edition the scope has been expanded to include among its 13 000 entries flower painters in addition to botanical artists, over 1400 entries and for the first time garden designers. Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas, in particular in North America and the British Commonwealth. Each entry gives wherever possible details of dates and places of birth and death, educational qualifications, professional posts, honours and awards, publications, location of plant collections, manuscripts, drawings and portraits. Its main function however is to provide further biographical references to books and periodicals. Comprehensive classified indices facilitate access by professions and activities, countries and plant interests.
