*Hari Om Tat Sat* Osho, Essence of spiritualism, 2006      *The New Age Movement* Margrethe Løøv, 2024-10-02 This Element introduces New Age religion The New Age Movement is a loosely cohesive conglomerate of different spiritual currents with no common founder leader institution dogma or scripture Because of its diversity it may appear amorphous and incoherent at first sight This Element emphasizes both the unity and diversity of the New Age It approaches the phenomenon from three main perspectives 1 the historical development of New Age religion 2 ideas and practices associated with the New Age and 3 the social organization of the New Age movement It thus provides a wide angle view that sketches out some of the main patterns that emerge from a mosaic of individual currents and actors associated with the New Age It also highlights some of the differences within the movement by exploring some ideas and practices in depth      **108 Buddhist Parables and Stories** Olga Gutsol, 2019-12-24 This book is a collection of the most beloved stories teachings and parables attributed to Gautama Buddha enlightened teacher and sage who lived and taught in the northeastern part of ancient India Since the narrative of the Buddha's life was retold across cultures and across times it is only natural that the facts mingled with various legends and folk stories thus creating an invaluable source of wisdom that is not only inspirational but also utterly entertaining      *Feminism and the Religious Significance of Laughing Bodies* Nicole Graham, 2024-06-03 This book identifies the significance of the body through a feminist reconceptualisation of laughter as a means of insight It positions itself within the emerging scholarship on religion and humour but distinguishes itself by moving away from the emphasis on humour and instead focuses on the place and role of laughter Through a feminist reading of laughter which is grounded in the philosophical and psychological works of William James this book emphasises the importance of the body to offer an exploration of laughter as a means of insight In doing so it challenges the classificatory orders of knowledge by recognising and arguing for the value of the body in the creation of knowledge and understanding To demonstrate the centrality of the body for insight laughter and thus the creation of knowledge this book engages with laughter within three thematic areas religious experience gendered experiences of laughter and the ethics of laughter This book will be of interest to students and researchers in religious studies theology gender studies humour studies philosophy and the history of ideas      The Weaponizing of Biology Marc E. Vargo, 2017-08-11 Focusing on three forms of biological threat bioterrorism biocrime and biohacking the author examines the history of biowarfare and terrorism Groups drawn to biological aggression are discussed along with the array of viruses bacteria and toxins they might use in their attacks The phenomenon of biocrime biological aggression targeting individuals for personal rather than ideological reasons is explored along with the growing trend of biohacking Part II presents case studies of bioterrorism and biocrime from the United States and Japan      Katherine Mansfield and Russia Galya Diment, 2018-11-30 Reveals diverse notions of distributed cognition in the early Greek and Roman worlds      *Meditation* Osho, 1992      The Greatest Challenge Osho, 1988      The Power Of Mantra Klaus
