Bodies in the Making Nancy N. Chen, 2006 In the twenty first century the body is experienced less as a fixed entity than it is as a protean product and a project of technological medical and artistic invention The essays in *Bodies in the Making* Transgressions and Transformations address the proliferation of such transformative practices as tattooing piercing self cutting cosmetic and transsexual surgery prosthetics organ transplants and life extension technologies Establishing links among these varied practices the contributors illuminate the dramatic and widespread changes that have taken place across generations in attitudes towards the relation of the body to the mind to agency and to subjectivity *Bodies in the Making* also addresses a paradox that has shaped recent body modification debates Although physical transformations are usually experienced as self expressive and liberatory they are frequently understood to be socially determined economically driven and culturally enmeshed Contributors to the volume engage this contradiction directly exploring ways in which diverse body practices are capable of subverting power while also at times reinscribing it

Contemporary Art and Classical Myth Jennie Hirsh, 2017-07-05 Contemporary art is deeply engaged with the subject of classical myth Yet within the literature on contemporary art little has been said about this provocative relationship Composed of fourteen original essays *Contemporary Art and Classical Myth* addresses this scholarly gap exploring and in large part establishing the multifaceted intersection of contemporary art and classical myth Moving beyond the notion of art as illustration the essays assembled here adopt a range of methodological frameworks from iconography to deconstruction and do so across an impressive range of artists and objects Francis Al s Ghada Amer Wim Delvoye Luciano Fabro Joanna Frueh Felix Gonzales Torres Duane Hanson Yayoi Kusama Roy Lichtenstein Kara Walker and an iconic photograph by Richard Drew subsequently entitled *The Falling Man* Arranged so as to highlight both thematic and structural affinities these essays manifest various aspects of the link between contemporary art and classical myth while offering novel insights into the artists and myths under consideration Some essays concentrate on single works as they relate to specific myths while others take a broader approach calling on myth as a means of grappling with dominant trends in contemporary art

Radical Gestures Jayne Wark, 2006-08-14 Performance art was finally recognized as an art form in its own right in the 1970s In *Radical*

Gestures Jayne Wark situates feminist performance art in Canada and the United States in the social context of the feminist movement and avant garde art from the 1970s to 2000 She shows that artists drew from feminist politics to create works that after a long period of modernist aesthetic detachment made a unique contribution to the re politicization of art **Body**

Art/performing the Subject Amelia Jones,1998 With great originality and scholarship Amelia Jones maps out an extraordinary history of body art over the last three decades and embeds it in the theoretical terrain of postmoderism The result is a wonderful and permissive space in which the viewer can wander Moira Roth Trefethen professor of art history Mills College **Sculpture and the Vitrine** JohnC. Welchman,2017-07-05

Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton s Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others Sculpture and the Vitrine also raises key questions about the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering **The Art of the Sister Chapel** Andrew Hottle,2017-07-05

The Sister Chapel 1974 78 was an important collaborative installation that materialized at the height of the women s art movement Conceived as a nonhierarchical secular commemoration of female role models The Sister Chapel consisted of an eighteen foot abstract ceiling that hung above a circular arrangement of eleven monumental canvases each depicting the standing figure of a heroic woman The choice of subject was left entirely to the creator of each work As a result the paintings formed a visually cohesive group without compromising the individuality of the artists Contemporary and historical women deities and conceptual figures were portrayed by distinguished New York painters Alice Neel May Stevens and Sylvia Sleigh as well as their accomplished but less prominent colleagues Among the role models depicted were Artemisia Gentileschi Frida Kahlo Betty Friedan Joan of Arc and a female incarnation of God Although last exhibited in 1980 The Sister Chapel has lingered in the minds of art historians who continue to note its significance as an exemplar of feminist collaboration Based on previously unpublished archival materials and featuring dozens of rarely seen works of art this comprehensive study details

the fascinating history of The Sister Chapel its constituent paintings and its ambitious creators **Integral Theory in Action** Sean Esbjörn-Hargens, 2010-08-01 In a world as complex as ours an integral approach is needed to help sort through a dynamic landscape and respond effectively to individual and collective challenges Integral Theory in Action provides the first multi authored overview of such an approach Integral Theory is the result of 30 years of research and is being applied in over 35 distinct disciplines This volume brings together two dozen leading scholar practitioners who are actively applying integral principles and who address a range of issues from an integral perspective including climate change embodiment feminist aesthetics community discourse treatment of depression developmental theory and global ethics The strengths limitations and potential of Integral Theory and Ken Wilber s AQAL model are weighed by each contributor This collection pushes the field of Integral Theory in new ways and new directions and provides a comprehensive overview that makes it an invaluable resource for any integral effort **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries

Hannah Wilke Hannah Wilke, 2004 **Feminism and Art in Postwar Italy** Francesco Ventrella, Giovanna Zapperi, 2020-10-29 A renowned art critic of the 1960s Carla Lonzi abandoned the art world in 1970 to found Rivolta Femminile a pioneering feminist collective in Italy Rather than separating the art world luminary from the activist however this book looks at the two together It demonstrates that even as Lonzi refused art she articulated how feminist spaces and communities drew strength from creativity The eleven essays in this book document the artistic and feminist circles of postwar Italy a time characterised both by radical protest and avant garde aesthetics using primary and archival sources never before translated into English They map Lonzi s deep connections to the influential Italian Arte Povera movement and explore her complicated relationship with female artists of the time such as Carla Accardi and Suzanne Santoro Carla Lonzi s written work and activism represents a crucial but previously overlooked feminist intervention in traditional art history from beyond the Anglo American canon This book is a timely and urgent addition to our understanding of radical politics separatist feminism and art criticism in the postwar period
