Horrobin,2012-12-06 East Africa is rapidly becoming one of the most popular areas in the world among the increasing numbers of travellers who are prepared to venture outside their own continent To those of us fortunate enough to live here the reasons for this popularity are quite apparent Much of the region enjoys an equable climate all the year round with no extremes of either heat or cold and with plenty of sunshine Scenically the area is one of the most beautiful on earth with a marvellous variety of landscape The beaches are vast and clean and unspoilt But the outstanding attractions of East Africa for most people are its fascinating peoples and the unparalleled abundance of its wild life This guide is the first of three planned to cover the whole region of East Africa It deals with Kenya and Northern Tanzania The other guides will deal with Uganda and the rest of Tanzania Many books have been written about East Africa They come into four main categories the magnificent picture books the geography books the stories about animals and the detailed technical books on such special aspects as game conservation bird life prehistory or butterflies None of these is suitable as a practical guide for either the local resident or the average intelligent visitor who is interested in everything but is not an enthusiastic specialist in any particular subject *Historical Dictionary of Kenya* Robert M. The White Spaces of Kenyan Settler Writing

Terrence L. Craig,2017-03-27 The White Spaces of Kenyan Settler Writing provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been over shadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period
