**Hard Times in Oklahoma** Kenneth E. Hendrickson, 1983-01-01 Located in the Oklahoma Collection      **Dust Bowl Girls** Lydia Reeder, 2025-05-01 Just in time for the NCAA Final Four read the exhilarating true story of the championship women's basketball team that broke the mold and captivated the country A thrilling cinematic story I loved every minute I spent with these bold daring women whose remarkable journey is the stuff of American legend Karen Abbott New York Times bestselling author of *Liar Temptress Soldier Spy The Boys in the Boat* meets *A League of Their Own* in this true story of a Depression era championship women's team In the early 1930s during the worst drought and financial depression in American history Sam Babb began to dream Like so many others this charismatic Midwestern basketball coach wanted a reason to have hope Traveling from farm to farm near the tiny Oklahoma college where he coached Babb recruited talented hardworking young women and offered them a chance at a better life a free college education in exchange for playing on his basketball team the Cardinals Despite their fears of leaving home and the sacrifices that their families would face the women joined the team And as Babb coached the Cardinals something extraordinary happened These remarkable athletes found a passion for the game and a heartfelt loyalty to one another and their coach and they began to win Combining exhilarating sports writing and exceptional storytelling *Dust Bowl Girls* takes readers on the Cardinals intense improbable journey all the way to an epic showdown with the prevailing national champions helmed by the legendary Babe Didrikson Lydia Reeder captures a moment in history when female athletes faced intense scrutiny from influential figures in politics education and medicine who denounced women's sports as unhealthy and unladylike At a time when a struggling nation was hungry for inspiration this unlikely group of trailblazers achieved much more than a championship season      *The Life and Death of the Solid South* Dewey W. Grantham, 2021-10-21 Southern style politics was one of those peculiar institutions that differentiated the South from other American regions This system long referred to as the Solid South embodied a distinctive regional culture and was perpetuated through an undemocratic distribution of power and a structure based on disfranchisement malapportioned legislatures and one party politics It was the mechanism that determined who would govern in the states and localities and in national politics it was the means through which the South's politicians defended their region's special interests and political autonomy The history of this remarkable institution can be traced in the gradual rise long persistence and ultimate decline of the Democratic Party dominance in the land below the Potomac and the Ohio This is the story that Dewey W Grantham tells in his fresh and authoritative account of the South's modern political experience The distillation of many years of research and reflection is both a synthesis of the extensive literature on politics in the recent South and a challenging reinterpretation of the region's political history      **The Dust Bowl** Dayton Duncan, Ken Burns, 2012-10-12 This riveting companion to the PBS documentary clarifies our understanding of the worst manmade ecological disaster in American history Booklist In this riveting chronicle Dayton Duncan and Ken Burns capture the profound drama of the

American Dust Bowl of the 1930s Terrifying photographs of mile high dust storms along with firsthand accounts by more than two dozen eyewitnesses bring to life this heart wrenching catastrophe when a combination of drought wind and poor farming practices turned millions of acres of the Great Plains into a wasteland killing crops and livestock threatening the lives of small children burying homesteaders hopes under huge dunes of dirt and setting in motion a mass migration the likes of which the nation had never seen Burns and Duncan collected more than three hundred mesmerizing photographs some never before published scoured private letters government reports and newspaper articles and conducted in depth interviews to produce a document that may likely be the last recorded testimony of the generation who lived through this defining decade

**The South and the New Deal** Roger Biles,2021-05-11 When Franklin D Roosevelt was sworn in as president the South was unmistakably the most disadvantaged part of the nation The region s economy was the weakest its educational level the lowest its politics the most rigid and its laws and social mores the most racially slanted Moreover the region was prostrate from the effects of the Great Depression Roosevelt s New Deal effected significant changes on the southern landscape challenging many traditions and laying the foundations for subsequent alterations in the southern way of life At the same time firmly entrenched values and institutions militated against change and blunted the impact of federal programs In *The South and the New Deal* Roger Biles examines the New Deal s impact on the rural and urban South its black and white citizens its poor and its politics He shows how southern leaders initially welcomed and supported the various New Deal measures but later opposed a continuation or expansion of these programs because they violated regional convictions and traditions Nevertheless Biles concludes the New Deal coupled with the domestic effects of World War II set the stage for a remarkable postwar transformation in the affairs of the region The post World War II Sunbelt boom has brought Dixie more fully into the national mainstream To what degree did the New Deal disrupt southern distinctiveness Biles answers this and other questions and explores the New Deal s enduring legacy in the region *The FDR Years* William D. Pederson,2009

Born in 1882 in New York Franklin Delano Roosevelt entered public service through the encouragement of the Democratic Party and won the election to the New York Senate in 1910 This book details his administration at the height of the Great Depression as he valiantly led the nation with the phrase The only thing we have to fear is fear itself **Red Dust and**

**Broadsides** Sis Cunningham,Gordon Friesen,1999 The engrossing story of two prominent American radicals *The Life and Times of a Hyphenated American* Young Park,2006-02 Writing about the past helps to explain why I am discontent and continuously angry I am reminded that America is a society dominated by religious fundamentalism and racism After a time I rejected the White American world and went to Asia seeking another basis for my identity My identity is still in question I cannot become an Asian and although I was born in this country I am not accepted as an American citizen As my birth certificate clearly states I am not of an accepted racial color **Adapting to Climate Change** W. Neil Adger,Irene

Lorenzoni,Karen L. O'Brien,2009-06-25 This book presents the latest science and social science research on whether the

world can adapt to climate change      *The Seventh Star of the Confederacy* Kenneth Wayne Howell, 2009 On February 1 1861 delegates at the Texas Secession Convention elected to leave the Union The people of Texas supported the actions of the convention in a statewide referendum paving the way for the state to secede and to officially become the seventh state in the Confederacy Soon the Texans found themselves engaged in a bloody and prolonged civil war against their northern brethren During the course of this war the lives of thousands of Texans both young and old were changed forever This new anthology edited by Kenneth W Howell incorporates the latest scholarly research on how Texans experienced the war Eighteen contributors take us from the battlefield to the home front ranging from inside the walls of a Confederate prison to inside the homes of women and children left to fend for themselves while their husbands and fathers were away on distant battlefields and from the halls of the governor's mansion to the halls of the county commissioner's court in Colorado County Also explored are well known battles that took place in or near Texas such as the Battle of Galveston the Battle of Nueces the Battle of Sabine Pass and the Red River Campaign Finally the social and cultural aspects of the war receive new analysis including the experiences of women African Americans Union prisoners of war and noncombatants      **Climate and Human Migration** Robert A. McLeman, 2014 The first comprehensive review of the interaction between climate change and migration for advanced students researchers and policy makers      **Crafting an Indigenous Nation** Jenny Tone-Pah-Hote, 2019-01-10 In this in depth interdisciplinary study Jenny Tone Pah Hote reveals how Kiowa people drew on the tribe's rich history of expressive culture to assert its identity at a time of profound challenge Examining traditional forms such as beadwork metalwork painting and dance Tone Pah Hote argues that their creation and exchange were as significant to the expression of Indigenous identity and sovereignty as formal political engagement and policymaking These cultural forms she argues were sites of contestation as well as affirmation as Kiowa people used them to confront external pressures express national identity and wrestle with changing gender roles and representations Combatting a tendency to view Indigenous cultural production primarily in terms of resistance to settler colonialism Tone Pah Hote expands existing work on Kiowa culture by focusing on acts of creation and material objects that mattered as much for the nation's internal and familial relationships as for relations with those outside the tribe In the end she finds that during a time of political struggle and cultural dislocation at the turn of the twentieth century the community's performative and expressive acts had much to do with the persistence survival and adaptation of the Kiowa nation      Kansas History, 1984      **More Than Cowboys** Tim Slessor, 2013-06-11 So many books about the American West leave out the more intriguing details When in 1803 the young USA doubled its size with the purchase from France of an unexplored vastness called La Louisiane it was a British bank which lent the Americans most of the 15 million that they didn't have So the financial papers for the biggest real estate deal in history are to this day held in a London vault Not many people know that If his ranching uncle by marriage had had his way the teenaged Winston Churchill a disappointing scholar might have been sent west to Wyoming to train as a cowboy Who

knows but in time he himself might have become a rancher How then would history have turned out Another ranching Englishman played a key role in recruiting a small army of Texas gunmen to invade northern Wyoming and kill more than 40 small settlers men who had too easily been accused of being rustlers The plan went badly wrong But the Englishman had slipped away gone home on holiday It seems unlikely that Butch Cassidy was killed in a Bolivian shoot out It seems that he returned under a false name to live out his days in the West In 1935 he even submitted a autobiographical script to Hollywood only to have it rejected as being too preposterous to be believable He died two years later penniless Royal tourist visits the Colonies was the local headline In her VC 10 the Queen had flown into the small town of Sheridan in Wyoming First she took an extended walkabout along Main Street and then she holidayed for several days on a friend s ranch in the shadow of the Big Horn Mountain Tim Slessor a one time BBC producer has filmed out West for nearly 50 years In this book he picks out a selection of fascinating stories that range from the mountain men and their fur trade to the pioneers of the overland trail from Custer and the disaster at the Little Big Horn to the last stand of the Sioux at Wounded Knee from the early cow towns and the railroads to the cattle barons and the emigrant sod busters *Racism in the United States* Meyer

Weinberg,1990-05-21 This volume represents the most comprehensive book length bibliography on the subject of racism available in the United States Compiler Meyer Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles books congressional hearings and reports theses and dissertations research reports and investigative journalism Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color Weinberg includes references dealing with sexism antisemitism economic exploitation and similar forms of dehumanization References are grouped under a series of subject headings that include Civil Rights Desegregation Housing Socialism and Racism Unemployment and Violence against Minorities Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced Also included is one section of carefully selected references on racism in countries other than the United States Unlike the remainder of the book this section is not comprehensive but rather provides an opportunity to view racism comparatively The volume concludes with an author index This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism sociology and black history *From Whence I Came* Alton Tabor,2008-04-07

As we reach the later years of life I am sure all of us have experienced the thought If I could do it over again You know the feeling if only I had This realization toward the end of our lives when we get a clear look at what our life has been or could have been with different decisions The crystal ball shows us only the road behind with 20 20 vision As is certainly my case I will recite my life in the first person narrated as it actually happened In the ensuing words and story I will lay out the road my life has taken It had sadness happiness disappointments exhilarations success and failure Plainly speaking the ups and

downs most lives have although mine have been more varied with touches of success and notoriety than most It has taken me from an impoverished family of a single mother and five children in the depths of the Great Depression of the 30s in Oklahoma This single mother raised three to serve in the military during WWII two to go to the University of Oklahoma one to have some success as an actor in Hollywood in television and movies *Always a People* Rita T. Kohn,1997 Forty one individuals from seventeen different tribes representing eleven nations tell their stories in *Always a People* As descendants of people who shaped the history of the North American continent from the Atlantic Ocean to the Great Lakes the narrators herein continue to feel closely bound to the land from which most of them have been forcibly removed The eleven nations represented in this volume are the Miami Potawatomi Delaware Shawnee Peoria Oneida Ottawa Winnebago Sac and Fox Chippewa and Kickapoo All of the people interviewed here have a very deep and abiding commitment to their families and speak of great great grandparents as intimately as they do of their parents All see themselves as real people who do not fit the stereotypes often associated with native Americans All speak of the urgency for making room for multiple voices drawn from many traditions **Great Plains Quarterly** ,2006 **Meeting the Train** Hagerman Historical Society,2007-09 When W E Utterback began compiling the history of Hagerman New Mexico in 1968 he asked Mrs B W Curry to help The two of them were doing fine but soon discovered that Hagerman had more history than they had bargained for It had become such a tremendous undertaking the others in the community offered to aid the struggling historians and the Hagerman History Book Club was born From the efforts of the Club has come this book It is a unique achievement No professional writers set about to search library stacks or interview old times No professional writers in fact even saw the manuscript until it was finished The Hagerman pioneers and their descendants have written their own stories weaving them into a colorful history Each has become an author in his or her own way So this is the story of Hagerman as it was with a new foreword by Katherine Kitch Hagerman It is history remembered by those who lived it **Discovering The Family I Never Knew** Lee Brand,2022-10-11 This is a fictional story inspired by real people and real events Take an exciting journey with Jeffrey Madison and his exploration into his family history and the dramatic and unexpected outcome In 1964 Jeffrey lost his father Jack Madison in a tragic airplane crash when he was only 15 years old Years later a chance visit to Butte Montana raised questions about his father and his grandfather Arthur Madison and kindled an obsessive drive to uncover the truth about their lives This story was a revelation about the family history he never knew His father grew up in the Great Depression and was a lonely troubled child with an alcoholic mother and a distant father For nearly 24 years his grandfather worked in the dangerous lead and copper mines in Oklahoma and Montana He was able to overcome adversity and re make himself The story reveals the powerful connection between generations in a family and its significant influence on our own lives It is a parable on the enduring value of family and friendships
