Hardship The Welfare Consequences Of Labor Market Problems:

Hardship Robert Taggart, 1982 Social statistics may exaggerate the degree of hardship caused by labor market problems Yet in many ways social statistics underestimate the degree of hardship caused by extended unemployment underemployment and low wages Therefore new measures are needed to reassess long term and cyclical labor market developments the changing status of minorities the interrelationships between family patterns and employment problems the effectiveness of income transfers for the working poor and alternative macroeconomic policies The proposed hardship measurement and assessment system consists of three sets of core indicators to measure the adequacy of individual earnings family earnings and family incomes in terms of both the numbers who fall below minimum standards and dollar shortfalls relative to these standards After using these measures to examine hardship trends over the period between 1974 and 1980 researchers determined that the number who suffer severe hardship as a result of labor market problems experienced during the year far exceeds average annual unemployment In addition the burdens of hardship are even more maldistributed than are those of unemployment Appendixes to the report include technical details of the hardship measures and hardship data for the period from 1974 through 1980 MN *Monthly Labor Review*, 1989-10 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews *Personalist Economics* Edward J. O'Boyle, 2013-03-14 *Personalist Economics* Moral Convictions Economic Realities and Social Action examines the nature of the worker and consumer from a personalist perspective comparing that body of knowledge to what is received from conventional economics A running theme throughout this book is that personalist economics is attentive to both aspects of human material need physical need and the need for work as such in a way that does not disregard human wants Accordingly this book is more concerned about the philosophical base and description of the economy's significant characteristics than social economic policy *Personalist Economics* explores four dimensions of particularly acute human physical need unemployment poverty homelessness and death In addressing these four aspects of need the book delves into the second and third domains of social economics description of the significant characteristics of the economy and social economic policy In the same way *Personalist Economics* explores two types of economic cooperation supra firm alliances and inter firm partnerships as means for addressing certain aspects of human material need This book concludes with a lengthy discussion of the challenges facing personalist economics in the years ahead *Evolutionary Economics: v. 1* Marc R. Tool, 2019-07-12 The contributors to this volume focus on the political and value issues that in their shared view underlie the global environmental crisis facing us today They argue that only by transforming our dominant values social institutions and way of living can we avoid ecological disaster *Congressional Record* United States. Congress, 1983 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The *Congressional Record* began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates*
