Superintendents play a large role in the formation of relationships and networks within their neighborhood and yet no study in social science has focused on them Williams closes this knowledge gap through ethnographic fieldwork providing an in depth analysis of the daily life of superintendents in the lower Harlem area in New York City **The Oxford Encyclopedia of African Thought** Abiola Irele, 2010 From St Augustine and early Ethiopian philosophers to the anti colonialist movements of Pan Africanism and Negritude this encyclopedia offers a comprehensive view of African thought covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe The term African thought has been interpreted in the broadest sense to embrace all those forms of discourse philosophy political thought religion literature important social movements that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience The Encyclopedia is a large scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements producing a collection that is an essential resource for teaching an invaluable companion to independent research and a solid guide for further study **We Are an African People** Russell Rickford, 2016-01-14 During the height of the Black Power movement of the late 1960s and 1970s dozens of Pan African nationalist private schools from preschools to post secondary ventures appeared in urban settings across the United States The small independent enterprises were often accused of teaching hate and were routinely harassed by authorities Yet these institutions served as critical mechanisms for transmitting black consciousness Founded by activist intellectuals and other radicalized veterans of the civil rights movement the schools strove not simply to bolster the academic skills and self esteem of inner city African American youth but also to decolonize minds and foster a vigorous and regenerative sense of African identity In *We Are An African People* historian Russell Rickford traces the intellectual lives of these autonomous black institutions established dedicated to pursuing the self determination that the integrationist civil rights movement had failed to provide Influenced by Third World theorists and anticolonial campaigns organizers of the schools saw formal education as a means of creating a vanguard of young activists devoted to the struggle for black political sovereignty throughout the world Most of the institutions were short lived and they offered only modest numbers of children a genuine alternative to substandard inner city public schools Yet their stories reveal much about Pan Africanism as a social and intellectual movement and as a key part of an indigenous black nationalism Rickford uses this largely forgotten movement to explore a particularly fertile period of political cultural and social revitalization that strove to revolutionize African American life and envision an alternate society Reframing the post civil rights era as a period of innovative organizing he depicts the prelude to the modern Afrocentric movement and contributes to the ongoing conversation about urban educational reform race and identity **Afro-American Life, History and Culture** , 1985

The Crisis of the Negro Intellectual Harold Cruse, 2005-06-30 Published in 1967 as the early triumphs of the Civil Rights movement yielded to increasing frustration and violence The Crisis of the Negro Intellectual electrified a generation of activists and intellectuals The product of a lifetime of struggle and reflection Cruse's book is a singular amalgam of cultural history passionate disputation and deeply considered analysis of the relationship between American blacks and American society Reviewing black intellectual life from the Harlem Renaissance through the 1960s Cruse discusses the legacy and offers memorably acid edged portraits of figures such as Paul Robeson Lorraine Hansberry and James Baldwin arguing that their work was marked by a failure to understand the specifically American character of racism in the United States This supplies the background to Cruse's controversial critique of both integrationism and black nationalism and to his claim that black Americans will only assume a just place within American life when they develop their own distinctive centers of cultural and economic influence For Cruse's most important accomplishment may well be his rejection of the clichés of the melting pot in favor of a vision of Americanness as an arena of necessary and vital contention an open and ongoing struggle

Searching Christopher Sieving, 2011-05-01 The sixties were a tremendously important time of transition for both civil rights activism and the U S film industry *Soul Searching* examines a subject that despite its significance to African American film history has gone largely unexplored until now By revisiting films produced between the march on Washington in 1963 and the dawn of the blaxploitation movie cycle in 1970 Christopher Sieving reveals how race relations influenced black themed cinema before it was recognized as commercially viable by the major studios The films that are central to this book *Gone With the Wind* 1939 *The Days* 1963 *The Cool World* 1964 *The Confessions of Nat Turner* never produced *Uptight* 1968 and *The Landlord* 1970 are all ripe for reevaluation and newfound appreciation *Soul Searching* is essential reading for anyone interested in the politics and cultural movements of the 1960s cinematic trends like blaxploitation and the American indie film explosion or black experience and its many facets Ebook Edition Note All images have been redacted [Jazz Internationalism](#) John Lowney, 2017-10-16 Jazz emerged during the political and social upheaval of world war communist revolution Red Scares and the Black Migration The tumult bred disagreements about the cultural significance of jazz that concerned both its African American roots and its international appeal The questions about what was new or even radical about the music initiated debates that writers recapitulated for decades *Jazz Internationalism* offers a bold reconsideration of jazz s influence in Afro modernist literature Ranging from the New Negro Renaissance through the social movements of the 1960s John Lowney articulates nothing less than a new history of Afro modernist jazz writing Jazz added immeasurably to the vocabulary for discussing radical internationalism and black modernism in leftist African American literature Lowney examines how Claude McKay Ann Petry Langston Hughes and many other writers employed jazz as both a critical social discourse and mode of artistic expression to explore the possibilities and challenges of black internationalism The result is an expansive understanding of jazz writing sure to spur new debates [Harlem](#) Monique M. Taylor, 2002 [Barrio Dreams](#) Arlene Dávila, 2004-07-02 Arlene Dávila brilliantly considers the cultural politics of urban space in this lively exploration of Puerto Rican and Latino experience in New York the global center of culture and consumption where Latinos are now the biggest minority group Analyzing the simultaneous gentrification and Latinization of what is known as El Barrio or Spanish Harlem *Barrio Dreams* makes a compelling case that despite neoliberalism s race and ethnicity free tenets dreams of economic empowerment are never devoid of distinct racial and ethnic considerations Dávila scrutinizes dramatic shifts in housing the growth of charter schools and the enactment of Empowerment Zone legislation that promises upward mobility and empowerment while shutting out many longtime residents Foregrounding privatization and consumption she offers an innovative look at the marketing of Latino space She emphasizes class among Latinos while touching on black Latino and Mexican Puerto Rican relations Providing a unique multifaceted view of the place of Latinos in the changing urban landscape *Barrio Dreams* is one of the most nuanced and original examinations of the complex social and economic forces shaping our cities today **The ^A***Life of Langston Hughes* Arnold Rampersad, 2002-01-10 February 1 2002 marks the 100th birthday

of Langston Hughes To commemorate the centennial of his birth Arnold Rampersad has contributed new Afterwords to both volumes of his highly praised biography of this most extraordinary and prolific American writer The second volume in this masterful biography finds Hughes rooting himself in Harlem receiving stimulation from his rich cultural surroundings Here he rethought his view of art and radicalism and cultivated relationships with younger more militant writers such as Richard Wright Ralph Ellison James Baldwin and Amiri Bakara Rampersad s Afterword to volume two looks further into his influence and how it expanded beyond the literary as a result of his love of jazz and blues his opera and musical theater collaborations and his participation in radio and television In addition Rampersad explores the controversial matter of Hughes s sexuality and the possibility that despite a lack of clear evidence Hughes was homosexual Exhaustively researched in archival collections throughout the country especially in the Langston Hughes papers at Yale University s Beinecke Library and featuring fifty illustrations per volume this anniversary edition will offer a new generation of readers entrance to the life and mind of one of the twentieth century s greatest artists Ebony ,2001-08 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine Analysis and Assessment, 1940-1979 Cary D. Wintz,1996 Twenty nine collected essays represent a critical history of Shakespeare s play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate *History, Memory, and the Literary Left* John Lowney,2006-10 In this nuanced revisionist history of modern American poetry John Lowney investigates the Depression era s impact on late modernist American poetry from the socioeconomic crisis of the 1930s through the emergence of the new social movements of the 1960s Informed by an ongoing scholarly reconsideration of 1930s American culture and concentrating on Left writers whose historical consciousness was profoundly shaped by the Depression World War II and the Cold War Lowney articulates the Left s challenges to national collective memory and redefines the importance of late modernism in American literary history The late modernist writers Lowney studies most closely Muriel Rukeyser Elizabeth Bishop Langston Hughes Gwendolyn Brooks Thomas McGrath and George Oppen are not all customarily associated with the 1930s nor are they commonly seen as literary peers By examining these late modernist writers comparatively Lowney foregrounds differences of gender and sexuality race and ethnicity and social class and region while emphasizing how each writer developed poetic forms that responded to the cultural politics and socioaesthetic debates of the 1930s In so doing he calls into question the boundaries that have limited the scholarly dialogue about modern poetry No other study of American poetry has considered the particular gathering of careers that Lowney considers As poets whose collective historical consciousness was profoundly shaped by the turmoil of the Depression and war years and the Cold War s repression or rewriting of history their diverse talents represent a distinct generational impact on U S and international literary history
