Stocks for All: People's Capitalism in the Twenty-First Century Petri Mäntysaari, 2021-12-31 Public stock markets are too small This book is an effort to rescue public stock markets in the EU and the US There should be more companies with publicly traded shares and more direct share ownership Anchored in a broad historical study of the regulation of stock markets and companies in Europe and the US the book proposes ways to create a new regulatory regime designed to help firms and facilitate people's capitalism Through its comparative and historical study of regulation and legal practices the book helps to understand the evolution of public stock markets from the nineteenth century to the present day The book identifies design principles that reflect prior regulation While continental European company law has produced many enduring design principles the recent regulation of stock markets in the EU and the US has failed to serve the needs of both firms and retail investors The book therefore proposes a new set of design principles to serve contemporary societal needs

Corporate Tax Base in the Light of the IAS/IFRS and EU Directive 2013/34: A Comparative Approach Mario Grandinetti, 2016-06-17 The recent relaunch of the European Commission's Common Consolidated Corporate Tax Base CCCTB project promises a sorely needed leap forward in the harmonization of the rules by which companies calculate their taxable profits In particular the initiative hopes to remedy the severe barrier to cross border business caused by the the accounting Tower of Babel by which companies tax bases are determined under national law This thorough analysis and commentary covers the influence of accounting rules on tax considering both generally accepted standards international accounting standards IAS and international financial reporting standards IFRS and EU Directive 2013/34 Three introductory chapters usher in detailed comparative overviews of the effect of these rules on taxation in nine EU Member States as well as in two other major EU trading partners the United States and Brazil Fully explaining the remarkable recent improvement in the comparability of accounts that represent favourable preconditions for creating a single market for financial services within the EU this book covers every relevant detail including the following and much more criterion of evaluation of alternative fixed assets based on revaluated amounts criterion based on fair value provisions applicable to income statements notes reports and financial statements rules applicable to the publication of documents transparency in payments to governments dispositions on exemptions hierarchy of general provisions and principles balance sheet and profit and loss account simplifications for small and medium sized enterprises SMEs system of creditors protection and protection of investors interests This book is a peerless explication of the taxation choices granted to Member States under IAS IFRS and EU Directive 2013/34 and how they will be affected by ongoing Commission initiatives Because relevant timely reliable and

comparable information assumes a leading role in protecting the interests of investors creditors and other stakeholders as well as in ensuring that all operators act on a level playing field under equal conditions the analysis presented here is of immeasurable value to lawyers business persons and officials concerned with taxation not only in Europe but anywhere within the reach of international trade International Accounting Shahrokh M.
