International Books in Print ,1990 Mis-reading the Creative Impulse Adrianna M. Paliyenko,1997 Building on work by Aristotle Jacques Lacan and Harold Bloom Adrianna M Paliyenko's richly textured study revises our previous understanding of Arthur Rimbaud's 1854-1891 indirect artistic influence on Paul Claudel 1868-1955 Paliyenko's analysis answers to critical readings that rely on speculative spiritual affinities and text surface similarities in identifying Claudel as Rimbaud's artistic follower She traces the two writers' development of the poetic subject striving to map Claudel's creative corrections or revisions of Rimbaud's work In redirecting discussion of Rimbaud's work she develops a Bloomian paradigm of how creative artists strive for originality by correcting or revising their predecessors Reading Cirilo F. Wallace Stevens and the Contemporary Irish Novel is a major contribution to the study of the literary influence of the American modernist poet Wallace Stevens Stevens s lifelong poetic quest for order and the championing of the creative affordances of the imagination finds compelling articulation in the positioning of the Irish novel as a response to larger legacies of Anglo American modernism and how aesthetic re imagining can be possible in the aftermath of the destruction of certainties and literary tradition heralded by postmodern practice and metatextual consciousness It is this book s argument that intertextual influences flowing from Stevens s poetry towards the vitality of the novelistic imagination enact robust dialectical exchanges between existential chaos and artistic order contemporary form and poetic precursors Through readings of novels by important contemporary Irish novelists John Banville Colum McCann Ed O Loughlin Iris Murdoch and Emma Donoghue this book contemporizes Stevens s literary influence with refence to novelistic style themes and thematic preoccupations that stake the claim for the international status of the contemporary Irish novel as it shapes a new understanding of world literature as exchange between national languages cultures and alternative formulations of aesthetic modernity as continuing project Multilingualism and Creativity Anatoliy V. Kharkhurin,2012-09-03 In this monograph Anatoliy V Kharkhurin presents the results of his empirical investigation into the impact of multilingual practice on an individual s creative potential Until now the relationship between these two activities has received little attention in the academic community The book makes an attempt to resuscitate this theme and provides a solid theoretical framework supported by contemporary empirical research conducted in a variety of geographic linguistic and sociocultural locations This study demonstrates that several factors such as the multilinguals age of language acquisition proficiency in these languages and experience with cultural settings in which these languages were acquired have a positive impact on selective attention and language mediated concept activation mechanisms Together these facilitate generative and innovative capacities of creative thinking This book will be of great interest not only to scholars in the fields of multilingualism and creativity but also to educators and all those interested in enhancing foreign language learning and fostering creativity

On the Nature of Poetry Kenneth Verity,2007-06-01 The entire history of Western poetry is surveyed in this study from the ancient world the Middle Ages the Renaissance and the modern period Two hundred poems extracts are included and 10 poets are covered in depth with critical appraisals of their lives and work Problems of translation in poetry are carefully considered and the book provides a working definition of poetry calling it a form of expression human beings turn to when they need to say something important in a memorable way **Hermeneutics and Music Criticism** Roger W. H. Savage,2009-09-10 Hermeneutics and Music Criticism forges new perspectives on aesthetics politics and contemporary interpretive strategies By advancing new insights into the roles judgment and imagination play both in our experiences of

music and its critical interpretation this book reevaluates our current understandings of music's transformative power. The engagement with critical musicologists and philosophers including Adorno, Gadamer, and Ricoeur provides a nuanced analysis of the crucial issues affecting the theory and practice of music criticism. By challenging musical hermeneutics' deployment as a means of deciphering social values and meanings, *Hermeneutics and Music Criticism* offers an answer to the long-standing question of how music's expression of moods and feelings affects us and our relation to the world. *The Anthropological Review*, 1864
