Harms Way Lust Madness Murder Mayhem 2nd Ed:

Sexuality at the Fin de Siècle Peter Maxwell Cryle, Christopher E. Forth, 2008 It has come to be widely accepted that sexuality as we know it took shape at the end of the nineteenth century This is when Krafft Ebing asserted that sexual feeling is really the root of all ethics and no doubt of aestheticism and religion and Havelock Ellis declared sexuality to be the central problem of life Yet however self evident Ellis's claim about sexuality might seem the act of placing something at the center is the consequence of insistent cultural work that engages with competing views about bodies and indeed about the life of society This volume examines how this work was carried out and what resulted from such efforts **BOOK JACKET** **Warped Minds** Temenuga Trifonova, 2025-10-01 Warped Minds explores the transformation of psychopathologies into cultural phenomena in the wake of the transition from an epistemological to an ontological approach to psychopathology Trifonova considers several major points in this intellectual history the development of a dynamic model of the self at the fin de siècle the role of photography and film in the construction of psychopathology the influence of psychoanalysis on the transition from static universalizing psychiatric paradigms to dynamic styles of psychiatry foregrounding the socially constructed nature of madness and the decline of psychoanalysis and the aestheticization of madness into a trope describing the conditions of knowledge in postmodernity as evidenced by the transformation of multiple personality and paranoia into cultural and aesthetic phenomena **The Disabled Body in Contemporary Art** Ann Millett-Gallant, 2010-09-10 This volume analyzes the representation of disabled and disfigured bodies in contemporary art and its various contexts from art history to photography to medical displays to the nineteenth and twentieth century freak show *The Corporate Eye* Elspeth H. Brown, 2008-03 Winner Association of American Publishers Professional and Scholarly Publishing Award in Business Management and Accounting In the late nineteenth century corporate managers began to rely on photography for everything from motion studies to employee selection to advertising This practice gave rise to many features of modern industry familiar to us today consulting scientific approaches to business practice illustrated advertising and the use of applied psychology In this imaginative study Elspeth H Brown examines the intersection of photography as a mass technology with corporate concerns about efficiency in the Progressive period Discussing among others the work of Frederick W Taylor Eadweard Muybridge Frank Gilbreth and Lewis Hine Brown explores this intersection through a variety of examples including racial discrimination in hiring the problem of photographic realism and the gendered assumptions at work in the origins of modern marketing She concludes that the goal uniting the various forms and applications of photographic production in that era was the increased rationalization of the modern economy through a set of interlocking managerial innovations technologies that sought to redesign not only industrial production but the modern subject as well **Joel-Peter Witkin's Prodigies** Jimmy Ray Peele, 1997 **Peek** Institute for Sex Research, Carol Squiers, Jennifer P. Yamashiro, 2000 The Kinsey Institute's pioneering work in the field of sex research resulted in a collection of over 75 000 photos and graphic illustrations including

numerous anonymous snapshots For the first time the public can get a peek of this rich visual resource of sexual imagery
