Harnessing Labour Confrontation Peter Stuart McInnis, 2002-01-01 A formative moment in Canadian history the 1940s left as a legacy not only the welfare state but also the legal framework that has defined organized labour for five Saints, Sinners, and Soldiers Jeffrey A. Keshen, 2007-10-01 It was the Good War Its cause was just decades BOOK JACKET it ended the depression and Canada's contribution was nothing less than stellar Canadians had every reason to applaud themselves and the heroes that made the nation proud But the dark truth was that not all Canadians were saints or soldiers Indeed many were sinners In this eye opening and captivating reassessment of Canadian commitment to the cause some disturbing guestions come to light Were citizens working as hard as possible to back the war effort Was there illegal profiting from the conflict Did Canadian society suffer from a general decline of morality during the war Would women truly back the attack in new factory jobs and the military and then guietly return home Would unattended youth produce a crisis with juvenile delinquency How would Canada reintegrate a million veterans who policy makers feared would create a social crisis if treated like their Great War counterparts The first ever synthesis of both the patriotic and the problematic in wartime Canada Saints Sinners and Soldiers shows how moral and social changes and the fears they generated precipitated numerous and often contradictory legacies in law and society From labour conflicts to the black market to prostitution and beyond Keshen acknowledges the underbelly of Canada's Second World War and demonstrates that the Good War was a complex tapestry of social forces not all of which were above reproach Management and Labor Conflict Jason Russell, 2022-10-12 Management and labor have been adversaries in American and Canadian workplaces since the time of colonial settlement Labor lacked full legal legitimacy in Canada and the United States until the mid 1930s and the passage of laws that granted collective bargaining rights and protection from dismissal due to union activity The US National Labor Relations Act Wagner Act became the model for labor laws in both countries Organized labor began to decline in the United States in the late 1960s due to a variety of factors including electoral politics internal social and cultural differences and economic change Canadian unions fared better in comparison to their American counterparts but still engaged in significant struggles This analysis focuses on management and labor interaction in the United States and Canada from the 1930s to the turn of the second decade of the twenty first century It also includes a short overview of employer and worker interaction from the time of European colonization to the 1920s The book addresses two overall questions In what forms did management and labor conflict occur and how was labor management interaction different between the two countries It pays particular attention to key events and practices where the United States and Canada diverged when it came to labor management conflict including labor law electoral politics social and economic change and unionization patterns in the public and private sectors This book shows that there were key points of convergence and divergence in the past between the United States and Canada that explain current differences in labor management conflict and interaction in the two countries It will be of interest to

researchers academics and students in the fields of management and labor history employment and labor relations and industrial relations Labour Goes to War Wendy Cuthbertson, 2012 During the Second World War the Congress of Industrial Organizations in Canada grew from a handful of members to more than a quarter million and from political insignificance to a position of influence in the emergence of the welfare state What was it about the good war that brought about this phenomenal growth Labour Goes to War analyzes the organizing strategies of the CIO during the war to show that both cultural and economic forces were at work Labour shortages gave workers greater power in the workplace and increased their militancy But workers patriotism their ties to those on active service and allegiance to the people s war also contributed to the CIO s growth and to what it claimed for workers Drawing on a wealth of archival material Wendy Cuthbertson illuminates this complex wartime context She also shows how the complex often contradictory motives of workers during this period left the Canadian labour movement with an ambivalent progressive conservative legacy

Capitalism and Colonialism: The Making of Modern Canada 1890-1960 Bryan D. Palmer, 2025-09-02 This second volume of Bryan Palmer's history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital s conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians Canada's 1960s Bryan D. Palmer, 2009-01-01 Focusing on the major movements and personalities of the time as well as the lasting influence of the period Canada's 1960s examines the legacy of this rebellious decade's impact on contemporary notions of Closing Sysco Lachlan MacKinnon, 2020-02-27 Closing Sysco presents a history of deindustrialization Canadian identity and working class resistance in the Cape Breton steel industry between 1945 and 2001 The Sydney Steel Works is at the heart of this story having existed in tandem with Cape Breton's larger coal operations since the early twentieth century The book explores the multifaceted nature of deindustrialization the internal politics of the steelworkers union the successful efforts to nationalize the mill in 1967 the years in transition under public ownership and the confrontations over health safety and environmental degradation in the 1990s and 2000s Closing Sysco moves beyond the moment of closure to trace the cultural historical and political ramifications of deindustrialization that continue to play out in post industrial Cape Breton

Island A significant intervention into the international literature on deindustrialization this study pushes scholarship beyond the bounds of political economy and cultural change to begin tackling issues of bodily health environment and historical memory in post industrial places The experiences of the men and women who were displaced by the decline and closure of Sydney Steel are central to this book Featuring interviews with former steelworkers office employees managers politicians and community activists these one on one conversations reveal both the human cost of industrial closure and the lingering after effects of deindustrialization Divided Province Greg Albo, Bryan M. Evans, 2019-02-28 No government jurisdiction in Canada has so radically transformed its public policies over the past decades as Ontario and yet the province has also maintained a striking degree of political stability in its party system Since the 1990s neoliberalism has been the point of reference in constructing policy agendas for all of Ontario's political parties It has guided the strategy for governance of the dominant Liberal Party since 2003 even as it divides the province between workers and employers north and south rural and urban and racialized minorities and the majority population With a focus on the governments of Mike Harris Dalton McGuinty and Kathleen Wynne Divided Province brings together leading researchers to dissect the province s public policies since the 1990s Presenting original state of the art research the book demonstrates that although the Conservative government of Mike Harris implemented the sharpest and most profound shift towards the establishment of a neoliberal regime in the province the subsequent Liberal governments consolidated that neoliberal turn The essays in this volume explore the consequences of this ideological turn across a spectrum of policies including health education poverty energy employment manufacturing and how it has impacted workers women First Nations and other distinct communities The first book to offer a comprehensive critical account of neoliberalism in Ontario Divided Province overturns conventional readings of the province s politics and suggests that building a more democratic and egalitarian alternative to the current orthodoxy requires nothing less than a radical rupture from existing policies and political alliances Without such a decisive break political space may well Radical Housewives Julie Guard, 2019-02-22 Radical Housewives is a history of open up again for the populist right Canada s Housewives Consumers Association This association was a community based women s organization with ties to the communist and social democratic left that from 1937 until the early 1950s led a broadly based popular movement for state control of prices and made other far reaching demands on the state As radical consumer activists the Housewives engaged in gender transgressive political activism that challenged the government to protect consumers interests rather than just those of business while popularizing socialist solutions to the economic crises of the Great Depression and the immediate postwar years Julie Guard's exhaustive research including archival research and interviews with twelve former Housewives recovers a history of women's social justice activism in an era often considered dormant and adds a Canadian dimension to the history of politicized consumerism and of politicized materialism Radical Housewives reinterprets the view of postwar Canada as economically prosperous and reveals the left s role in the origins of the food security movement **Just the Usual Work** 

Michael Boudreau, Bonnie Huskins, 2021-02-19 Born in 1907 Ida Martin spent most of her life in Saint John New Brunswick She married a longshoreman named Allan Robert Martin in 1932 and they had one daughter In the years that followed Ida had a busy and varied life full of work caring for her family and living her faith Through it all Ida found time to keep a daily diary from 1945 to 1992 Bonnie Huskins is Ida Martin s granddaughter In Just the Usual Work she and Michael Boudreau draw on Ida's diaries family memories and the history of Atlantic Canada to shed light on the everyday life of a working class housewife during a period of significant social and political change They examine Ida's observations about the struggles of making ends meet on a longshoreman s salary the labour confrontations at the Port of Saint John the role of automobiles in the family economy the importance of family faith and political engagement and her experience of widowhood and growing old Ida Martin's diaries were often read by members of her family to reconstruct and relive their shared histories By sharing the pages of her diaries with a wider audience Just the Usual Work keeps Ida's memory alive while continuing her abiding commitment to documenting the past and finding meaning in the rhythms of everyday life A Bridge of Ships James S. Pritchard, 2011 The second World War dramatically affected Canada's shipbuilding industry James Pritchard describes the rapidly changing circumstances and personalities that shaped government shipbuilding policy the struggle for steel the expansion of ancillary industries and the cost of Canadian wartime ship production Toronto's Poor Bryan D. Palmer, Gaétan Héroux, 2016-11-23 Toronto s Poor reveals the long and too often forgotten history of poor people s resistance It details how people without housing people living in poverty and unemployed people have struggled to survive and secure food and shelter in the wake of the many panics downturns recessions and depressions that punctuate the years from the 1830s to the present Written by a historian of the working class and a poor people's activist this is a rebellious book that links past and present in an almost two hundred year story of struggle and resistance It is about men women and children relegated to lives of desperation by an uncaring system and how they have refused to be defeated In that refusal and in winning better conditions for themselves Toronto s poor create the possibility of a new kind of society one ordered not by acquisition and individual advance but by appreciations of collective rights and responsibilities **Regulating Flexibility** Mark Preston Thomas, 2009 A timely analysis of employment standards legislation that calls for a new approach to labour market regulation Cape Breton in the Long Twentieth Century Lachlan MacKinnon, Andrew Parnaby, 2024-03-26 The emergence dominance and alarmingly rapid retreat of modernist industrial capitalism on Cape Breton Island during the long twentieth century offers a particularly captivating window on the lasting and varied effects of deindustrialization Now at the tail end of the industrial moment in North American history the story of Cape Breton Island presents an opportunity to reflect on how industrialization and deindustrialization have shaped human experiences Covering the period between 1860 and the early 2000s this volume looks at trade unionism state and cultural responses to deindustrialization including the more recent pivot towards the tourist industry and the lived experiences of Indigenous and Black people Rather than focusing on the

separate or distinct nature of Cape Breton contributors place the island within broad transnational networks such as the financial world of the Anglo Atlantic the Celtic music revival the Black diaspora Canadian development programs and more In capturing the vital elements of a region on the rural resource frontier that was battered by deindustrialization the histories included here show how the interplay of the state cultures and transnational connections shaped how people navigated these heavy pressures both individually and collectively Standing Up to Big Nickel Elizabeth Quinlan, 2025-05-13 All miners and smelter workers know the folly of going on strike when their employer holds a stockpile In 1958 the International Nickel Company had enough nickel on hand to guarantee sales for at least six months Despite this fourteen thousand miners and smeltermen in Sudbury Ontario downed their tools and struck against the corporate titan of the mining industry Standing Up to Big Nickel is a comprehensive portrait of a pivotal strike by the International Union of Mine Mill and Smelter Workers a union that has inspired exceptional levels of solidarity among its members The Cold War and the resulting instabilities in the Canadian labour movement form the backdrop to Elizabeth Quinlan's engrossing analysis. The union straddled the line she shows between its historical commitment to working class struggle and the newly restrictive legal landscape of the postwar era Retrospective accounts by surviving union members leaders family and community members bring to life the history of a distinctive group of workers who sweated over smelter furnaces and toiled underground in perilous conditions Quinlan traces the events before during and after one of Canada's greatest strikes in both magnitude and duration Featuring biographical sketches and scenes based on archival and documentary data Standing Up to Big Nickel captures an intensely dramatic One Job Town Steven High, Power, Politics, and Principles Taylor juncture in Canadian labour history Hollander, 2018-06-12 Set against the backdrop of the U S experience Power Politics and Principles uses a transnational perspective to understand the passage and long term implications of a pivotal labour law in Canada Utilizing a wide array of primary materials and secondary sources Hollander gets to the root of the policy making process revealing how the making of P C 1003 in 1944 a wartime order that forced employers to the collective bargaining table involved real people with conflicting personalities and competing agendas Each chapter of Power Politics and Principles begins with a quasi fictional vignette to help the reader visualize historical context Hollander pays particular attention to the central role that Mackenzie King played in the creation of P C 1003 Although most scholars describe the Prime Minister's approach to policy decisions as calculating and opportunistic Power Politics and Principles argues that Mackenzie King's adherence to moderate principles resulted in a less hostile legal environment in Canada for workers and their unions in the long run than a more far reaching collective bargaining law in the United States Capital and Labour in the British Columbia Forest Industry, 1934-74 Gordon Hak, 2011-11-01 The history of British Columbia's economy in the twentieth century is inextricably bound to the development of the forest industry In this comprehensive study Gordon Hak approaches the forest industry from the perspectives of workers and employers examining the two main sets of institutions that structured the relationship during the Fordist era the companies and the unions Drawing on theories of the labour process Fordism and discursive subjectivity Hak relates daily routines of production and profit making to broader forces of unionism business ideology ecological protest technological change and corporate concentration The struggle of the small business sector to survive in the face of corporate growth the history of the industry on the Coast and in the Interior the transformations in capital labour relations during the period government forest policy and the forest industry s encounter with the emerging environmental movement are all considered in this eloquent analysis With its critical historical perspective Capital and Labour in the British Columbia Forest Industry will be essential reading for anyone interested in the business natural resource political social and labour history of the province Handbook Global History of Work Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession Canadian State Trials, Volume V Barry Wright, Susan Binnie, Eric Tucker, 2022-11-01 The fifth and final volume of the Canadian State Trials series examines political trials and national security measures during the period of 1939 to 1990 Essays by historians and legal scholars shed light on experiences during the Second World War and its immediate aftermath including uses of the War Measures Act and the Official Secrets Act with the unfolding of the Cold War and legal responses to the FLQ including the October Crisis labour strikes and Indigenous resistance and standoffs The volume critically examines the historical and social context of the trials and measures resulting from these events concluding the first comprehensive series on this important area of Canadian law and politics The fifth volume s exploration of state responses to real and perceived security threats is particularly timely as Canada faces new challenges to the established order ranging from Indigenous nations demanding a new constitutional framework to protestors challenging discriminatory policing and contesting public health measures Osgoode Society for Canadian Legal History
